While Some Fertilizers Make It Seem Like You're Baling Hay,

Ours Is Saving You Bundles.

POLYON® controlled release fertilizers give you consistent long-lasting performance without surge growth, saving you time and money.

Most fertilizers perform well immediately after application. In fact, they work a little too well, often resulting in surge growth that keeps mowing crews busy and golfers complaining.

Only POLYON fertilizers have the patented polymer technology that provides gradual, predictable feeding for months at a time. This unique nutrient delivery system means you can get by with fewer fertilizer applications each year, saving you bundles of money on materials, labor and equipment.

So, instead of cutting grass, start cutting costs with POLYON controlled release fertilizers. After all, your success is based on turf quality, not quantity.

Ask for POLYON fertilizers formulated for your area from Harrell's or Simplot distributors, or call Pursell Technologies Inc. at 800-422-4248 ext.7411 for a sales rep near you.

"Playing Barefoot’s More Fun Because Of Penn A-1"

"The thinking behind our three great resort courses, each with its distinguished designer and unique features, is to have them putt equally for our 30,000 to 40,000 rounds per year per course. True and consistent Penn A-1 has done this beautifully through heat and wear stresses, and it’s no more trouble to maintain than other creeping bentgrasses I’ve managed. I wouldn’t hesitate to use Penn A-1 again."

W. Patrick Donelan
Golf Course Superintendent
Love and Norman Courses
Barefoot Resort and Golf

"Nothing’s better than this."

David E. (D.Z.) Zeidler
Golf Course Superintendent
Fazio and Dye Courses
Barefoot Resort and Golf

Penn A-1 is a top performer in the USGA/GCSAA/NTEP 1997 On-Site Bentgrass Trials!

Mean Turfgrass Quality Ratings of Bentgrass Cultivars in the USGA/GCSAA/NTEP On-site Bentgrass Test at 13 Locations in the U.S. 2000 Data. Turfgrass Quality Ratings 1-9; 9=Ideal Turf.

1/ To determine statistical differences among entries, subtract one entry’s mean from another entry’s mean. Statistical differences occur when this value is larger than the corresponding LSD value (LSD 0.05).
2/ C.V. (Coefficient of Variation) indicates the percent variation of the mean in each column.

Penn A-1 has done this beautifully through heat and wear stresses, and it’s no more trouble to maintain than other creeping bentgrasses I’ve managed. I wouldn’t hesitate to use Penn A-1 again.

"Nothing’s better than this."

Jeffrey Brown
Asst. Superintendent
Tom Fazio Course
Barefoot Resort and Golf
North Myrtle Beach, SC

"Penn A-1 creeping bentgrass was selected for all three of our resort courses. Guests are pleased with the consistent putting from course-to-course, and often tell us they’re the best greens they’ve ever played on."

Matthew Huggins
Asst. Superintendent
Greg Norman Course
Barefoot Resort and Golf
North Myrtle Beach, SC

"We love Penn A-1 here because it is heat tolerant and holds up well to traffic with no extra maintenance. Resort people love Penn A-1 because of its fair and true putting surface."

Chris Varrell
Asst. Superintendent
Davis Love III Course
Barefoot Resort and Golf
North Myrtle Beach, SC

"Some of the best attributes of Penn A-1 here in the southern regions of the transition belt are its heat tolerance and recovery from any heat stresses it may suffer. Resort guests comment on A-1's upright growth and true putting."
