

Revolution block copolymer chemistry

- Designed to refine the moisture distribution process
- Works in the soil to stabilize moisture levels, balance air-to-water ratios and provide better access to nutrients in the root zone
- Lets the plant function at its greatest genetic potential
- Can be tank-mixed with a broad spectrum of commonly applied chemicals for greater convenience
- Increases turf resilience and stress tolerance, photochemical efficiency and evapotranspiration for a cooler canopy
- Extends natural antioxidant activity

Aquatrols

Groom Master II bunker groomer

- Offers more power and better traction than its predecessor, resulting in easier use and less operator fatigue
- Optional 3-cylinder, 19.2-hp Kubota diesel engine
- One model equipped with a gas-powered, two-cylinder, Briggs & Stratton Vanguard engine delivering 18 hp.
- Power steering and 3-wheel-drive traction
- Low-profile tires improve stability and control
- Uses biodegradable hydraulic fluid

Jacobsen

Advion fire ant bait

- Provides control of fire ants within 24 to 72 hours after application
- Contains active ingredient Indoxacarb that belongs to a new class of insecticide chemistry
- Its fast action results from the metabolic activation of Indoxacarb by developing larvae within the colony
- Activated metabolite is distributed to the other members of the colony
- Control occurs quickly because metabolite disrupts the insect's nervous system
- Can be applied as a broadcast application or a mound treatment
- Available in 25-pound bags and 2-pound jugs

DuPont Professional Products

Outdoor water cooler

- Available with a 220- to 240-volt/60 hertz option
- Can tap into 220-volt irrigation wiring when supplying power to the unit
- Available in a free-standing or wall-mounted unit
- Underwriters Laboratories listed for outdoor service
- Comes with stainless-steel finish, vandal-resistant bubbler and frost-resistant option

Halsey Taylor

Valhalla floating fountain aerator

- Part of the masters series, which offers 21 patterns with interchangeable nozzles
- Available in 1 to 5 hp; single- and three-phase motors; 60 hz only
- Stainless-steel motor housings
- Optional 120-volt lighting and 75-, 150-, and 250-watt halogen lamps
- Underwater cable disconnect
- Underwriters Laboratories listed

AquaMaster Fountain and Aerators

Aqua Series fractional aerator

- Used for water quality management and aesthetics
- Ideal for ponds smaller than 1 acre
- Available in 115 volt, ¼ hp or ½ hp
- Interchangeable between two patterns
- Minimum operating depth at 13 inches
- Pumping rates exceeding 250 gpm
- Ready to install out of the box

Otterbine Barebo

Decorative fountains, aerators

- Enhances water quality and aesthetics of ponds, lakes and shallow reflection pools
- Commercial floating aerators are available with 1-hp to 3-hp motors
- Designed to establish continual pond turnover, introduce oxygen to water appropriately and in the proper quantity, eliminate or prevent algae growth, and control insect infestation
- Fountain packages include one of eight different nozzle spray patterns, 100 feet of cord, a propeller guard, a control panel with a time clock and a three-year limited warranty
- Fountains are available in ½-hp to 5-hp models

Air-O-Lator Corp.

Dual propeller fountain with lighting accent

- FD1000DP model
- 1-hp unit is available in 110 or 220 volt, 50/60 cycle
- Comes with 100 feet of power cord
- Produces more than 1,200 gallons of aerated water flow per minute
- Each lighting accent comes assembled on a black float with four 20-watt clear lights, a built-in timer and four lenses in each color (blue, green amber and red)

Electric Workman e2050

- Based on the Workman mid-duty 1100/2100/2110 platform
- Regenerative braking provides efficient operation
- Fuel gauge displays current level of battery power; when the battery levels become significantly low, the unit limits top speed and acceleration, alerting the operator to find a charging location
- Includes several safety features, such as a plug detector that stops the unit from operating when plugged in for recharging
- Run-away-protection indicator applies brake and sounds off if unit rolls down hill without the operator depressing the accelerator
- Supervisor switch controls maximum speed employees can drive

The Toro Co.

Gator TX Turf

- Four new models: Gator TS, Gator TX, Gator TX Turf and Gator TH 6x4
- More powerful than the previous Gators; improved braking capabilities, increased payload and enhanced operator comfort
- 13-hp/401-cc Kawasaki FJ400 engine
- All-wheel suspension and hydraulic disc brakes
- Decreased noise levels because of: an engine and exhaust system that's isolated from the frame and chassis, a large-volume muffler, and a ground speed governor and starter generator
- Ground speed governor also provides improved performance and the ability to operate at full speed with reduced engine rpm
- 44-inch-long cargo box with a 600-pound capacity and overall 1,000-pound payload/towing capacity

John Deere

Circle 212 on reader service form

Antonio Carraro TigreCar 7700

- Short wheelbase; 4-wheel drive
- 64-hp turbo diesel engine
- Actio suspension
- Gearbox provides 16 speeds – eight forward and eight reverse
- Large turf tires keep ground compaction to a minimum even when fully loaded
- Optional items include a three-way dumping box with a 4,000-pound maximum payload, full cab and front power lift

Redexim Charterhouse

Carryall 294 4x4

- IntelliTrak system delivers automatic 4x4
- Senses driving conditions and automatically engages and disengages 4-wheel drive without the driver having to stop and shift gears or lock differentials
- Available with a 20-hp, 614-cc Honda gas engine or a 20-hp, 719-cc Kubota diesel-powered engine
- No levers, buttons or switches for 4x4 engagement, front/rear differential lock or high-low range
- IntelliTrak eliminates steering feedback and reduces tire wear and turf damage
- Two bed-load capacity options for gas and diesel models
