Soil insects' below-ground activity affects pesticide applications.
HAWAI’I’S GOLF HANGOVER
Almost 20 years after the Japanese buying boom and subsequent sell-off, the golf industry in the Aloha State continues to try and boost business.

STATUS REPORT
Mike McLaren, director of course and grounds at Boulder Country Club in Colorado, is successful with his golf course projects because he communicates effectively.

ONLINE POLL: ORGANIC FERTILIZER
During the next few years, do you plan to increase the amount of organic fertilizer applied on your course? Visit the GCI home page to vote in this online poll.

AIR IT OUT
Do you have a gripe about something? Do you completely agree or disagree with a recent column or article? Voice your opinion about a topic or try and bring recognition or attention to someone or something you feel deserves it. Visit our message board at www.golfcourseindustry.com/messageboard and speak your piece.

EDITORIAL MISSION STATEMENT:
Golf Course Industry reports on and analyzes the business of maintaining golf courses, as well as the broader business of golf course management. This includes three main areas: agronomy, business management and career development as it relates to golf course superintendents and those managers responsible for maintaining a golf course as an important asset. Golf Course Industry shows superintendents what’s possible, helps them understand why it’s important and tells them how to take the next step.
