**TRAILING ALONG**

Rich Bassett, equipment mechanic, and Randall Pinckney, golf course manager, at the Manor Country Club in Rockville, Md., built a generator/portable pump trailer using scrap metal and materials they had in inventory. The Honda EB 5000X generator measures approximately 23 inches by 35 inches and is bolted to the main frame. The FLYGT Ready 4 Pump is used for pumping out standing water in bunkers and puddles. It's stored, along with the 2-inch-by-50-inch discharge hose, in a 15.5-inch-by-23-inch storage area that has a 1-inch wire mesh screen floor. The main frame is made out of 2-inch square hollow tubing and the tongue uses 1.75-inch square hollow tubing. The 16.5-inch wheels and tires are from an EZ-GO golf cart. The labor to build the trailer was approximately five hours.

**No Water? No Sewer?**

The Clivus Multrum M54 Trailhead is an odorless composting toilet system with handicapped accessible bathroom structure. Ideal for mid-course, the Trailhead structure is available in single or double-stall configurations and a variety of finishes. And like all Clivus systems, the Trailhead is odorless and does not pollute.

Call Clivus today to learn more about why the Trailhead is the Natural Solution for your golf course restroom.
