KROYDON'S NEW FLEXIBLE SHAFTS GRADED TO SWINGS

Maplewood, N. J.—The Kroydon Co. has introduced new lines of its clubs having new Kroydon Hy-Power flexible shafts. These shafts are available in three grades: Stiff, "if you lash out your drive"; semi-flex, "if you have a medium swing"; and full-flex, "if you have a slow swing.

The shafts are available in all clubs from the driver to the putter.

Flexible shafts are selling well these days and solely as something new the Kroydon company retail outlets would be certain of business on the new flex-shafts. However, the idea of the steel shafts fitted to the speeds of the players' swings has been so solidly endorsed by many pros that the new clubs have a solid foundation for sales other than the novelty basis.

Early pro demand for the new Kroydons was such that enough of the clubs were hard to get. Now, however, orders are being filled on a normal schedule.
