A ROYER—
The Greenkeeper's Pal!

"The Royer is tops" in the opinion of Edward E. Fifield, veteran greenkeeper of the Cary, Ind. Municipal Golf courses, and he ought to know for he has performed miracles in producing fast, responsive greens on Northern Indiana sand dunes. He believes it is as important to have compost properly mixed as it is to have good compost.

Royer Compost Mixers effectively blend, shred and aerate compost of all kinds, converting them into nourishing top dressing and toughening soil conditioner. Easily moved from green to green—loads quickly into wheelbarrows. Thoroughly mixes-in lime, phosphates, manure, sewage sludge and other enriching and moisture-holding materials. Removes rocks, stones and trash.

Royer have a score of other uses in parks and playgrounds. Twelve portable and stationary models—electric, gasoline and belt-to-tractor (shown). A size and capacity for every golf course or municipal park system. Help will be at a premium in 1942—get your facts about the Royer at once.

THE PEERLESS GRINDER

... and see how inexpensively your mowers can be kept sharp, your greens and fairways kept perfect.

Simply attach a Peerless Grinder to a light socket and you're ready to sharpen all types of power or hand mowers. Fast, easy to operate, economical and accurate, Peerless is helping some of the finest clubs in the country to cut down the handicap of man-power shortages. Get the details today.

WASHINGTON, D. C. golf facilities are far short of filling the demand for public course play, says the Washington Star. The Japanese trophy won't be played for this year at the Chevy Chase club. Guarantee to fill it with TNT and drop it on Hirohito and Chevy Chase probably will give you the prize. Pvt. Pat Abbott, runner-up in the 1941 National Amateur, now is stationed at Abbot Field, Denver, and when he can get a pass plays for the Lakewood CC team in the private club division of the Denver Golf League.

Clarence (Doc) Yockey, the bright young pro at White Lakes CC, Topeka, Kan., runs a blind bogey in which the entry fee is five used balls. This fee is becoming very popular for
blind bogey events in the midwest. Another innovation at White Lakes is permitting business women to tee off around 5:30 P.M. in women's day events. Many Topeka women are in war work and are unable to start in the usual morning tee time of women's day competitions. W. M. Kiplinger, editor of the weekly Kiplinger letter, in his new book "Washington Is Like That" says of sports in the nation's capital, "Among the amateur sports golf comes first."

The Women's Long Island GA is doing its bit toward the war effort. A check of the automobiles at the Deepdale club in that district revealed that cars averaged five players and that 85% of the players were engaged in A. W. V. S. activities. Pro Andy Alcroft of the Mahoning CC, Girard, Ohio, site of the Mahoning $5,000 Open, June 26-28, on April 26 became the proud father of a boy. It was the first child for the Alcrofts, and the first grandchild for Albert Alcroft, veteran pro at the Youngstown CC. Tony Sylvester, for 14 years the Bannockburn G&CC pro

This summer, with use of mercury restricted, you'll find "THIOSAN"—the new non-mercurial fungicide—a "life-saver" in helping to protect your turf against brown patch and dollar spot injury!

Developed by Du Bay, "THIOSAN" has been tested and proved on 18 playing greens in Delaware and New Jersey. It is relatively non-poisonous, well-tolerated by turf, easily applied by sprayer, and compares favorably in cost with Special Semesan.

"THIOSAN" is now obtainable in 5, 25 and 100 lb. sizes from your supply house.

Order "THIOSAN" today!
The renovation of Poa Annua - Clover turf on watered fairways

Fescue and even Kentucky blue grass have disappeared from fairways on many watered courses. Turf is largely poa annua and clover. Chickweed, and sometimes plantain, buckhorn, and dandelion may be present.

In midsummer it is almost impossible to maintain content of soil moisture to prevent loss of shallow-rooted poa annua. As it weakens, clover increases. Then players complain about bad "lies". During hot, wet spells, poa annua may kill-out completely. Then fairways are bare, except for the clumps of clover and weeds.

It is impossible to re-introduce permanent grasses quickly by re-seeding only. The slower growing, newly seeded grass is smothered before it starts, or choked out by the faster growing poa annua. Grass seedlings cannot resist and survive clover competition either.

Kentucky blue and bent grass can be established in these fairways by using MILARSENITE first. It kills the clover and diminishes the poa annua. Grass seedlings cannot resist and survive clover competition.

MILARSENITE does not stop seed germination. Hence fairways can be seeded just before the last application is made. Where some permanent grass remains, use an alfalfa and grass disc seeder, and cross-seed. Otherwise prepare a seedbed with a three gang disc spiker, then broadcast seed and roll. Apply MILARSENITE for the last time immediately afterwards.

Seeding should be with a Kentucky blue grass, colonial bent mixture at 100 to 200 pounds per acre. The proportion of bent should be 10 to 20 percent.

If you have a clover-poa annua problem on your fairways, use this prescription on one, or a part of one fairway this year. The program can be extended to a few more, or all the fairways next year. For further information, write to:

THE SEWERAGE COMMISSION
Dept. B-6
Milwaukee, Wisconsin

MILORGANITE for BETTER TURF

Pleasant Valley CC, Weirton, W. Va., held the official "grand opening" of its new clubhouse on May 16. The clubhouse is one of the most beautiful in the tri-state district. . . . Another new clubhouse is that at Town and Country GC, Green Bay, Wis. The building, approximately 65 ft. x 30 ft., includes a lounge with fireplace, a pro-shop, showers and locker-room, restrooms, and a machine shed. . . . Frank W. Murchie, 53, pro at Wilmont CC, Buffalo, N. Y., died May 13 of a heart attack. Mr. Murchie, a native Scot, came into Buffalo district golf circles in 1930 as pro at the Cherry Hill CC, Ridgeway, Ont.

Pomonok CC (Long Island) apparently profiting by gasoline and tire rationing because of its location, signed 21 new members during the second week in May. . . . The previous week 12 were added, making 33 additions in a fortnight. . . . The Navy took over at Pickwick GC (Chicago district) June 1. Joe Roseman, Pickwick pro-mgr., and identified with golf since 1907 was ordered to vacate to permit a huge expansion of the Naval Aviation Training Base at Glenview, Ill.

By Chamberlain has added the duties of manager to those of professional at the Glen Oak CC, Glen Ellyn, Ill. . . . Altadena GC, Pasadena, Calif., is having its face lifted, according to Jack Phillips, new club manager. Phillips has supervised a program of redecoration and rebuilding that was scheduled to put the plant in A-1 shape by the first of June. . . . Elmhurst (Ill.) CC is collecting 10 cents per round from its members to buy tickets to the Hale America tournament for its caddies. Tickets are allotted to the ranking caddies as determined by the merit system markings on the caddies' cards.

New York Metropolitan Section PGA now has its headquarters with the Mayflower Sportswear Co., 307 Fifth Ave., New York City. A board room is furnished for the Met section
by the Mayflower organization which
does considerable business on a “pro
only” policy in sportswear. Fred Cor-
coran, PGA tournament bureau man-
ger, also makes his New York head-
quarters at the same address. . . .
Illinois PGA has supplied its mem-
bers with a “Special Message to Club
Members” on the golf ball problem.
The letter is sent by the pros to their
members and solicits old golf balls for
renewal. It tells how and why the
pro’s arrangement for getting golf
balls renewed is best for the members.

Pine Needles CC, Southern Pines,
N. C., has been taken over by the
Army’s Air Force Technical Training
Command. The golf course is being
kept open for play by soldiers and a
limited number of civilians. Capt.
Sy Bartlett is in charge of the club.
. . . Denver Athletic Club gives a $25
War Bond to a member who secures
a new member. . . . Macy’s in N. Y.
had a smart head on a golf ball ad:
“Since the early 1900’s we’ve been
selling YOU golf balls—Now it’s your
turn.” . . . Southern California Left
Handers Golf Assn. held their second
annual championship May 30 and 31
at the Cheviot Hills CC, Culver City.
The Bing Crosby silver putter went
to the champion, and the J. F. Sartori
trophy to handicap winner. D. Scott
Chisholm is the organization’s presi-
dent.

Field for the recent Southern Calif.
amateur championship included more
than 250 golfers. One of the com-
petitors included Johnny Dawson, of
Lakeside—who has just been given
simon-pure amateur standing by the
S. Calif. Golf Assn. . . . Joe Frasca, pro at the Aiken (S. C.) GC is presi-
dent of the Aiken Junior Chamber of
Commerce, one of 1,200 Jaycee or-
ganizations in the U. S., Canada and
Hawaii. The Aiken Jaycees were hosts
to the seventh annual convention of
the S. C. Junior Chamber of Commerce,
May 15-17 and did a fine job of boost-
ing the city on its slogan “the sports
center of the south.” Junior Chambers
of Commerce have been the principal
promoters of the PGA tournament
Circuit. Frasca’s the only pro golfer
to head a Jaycee organization.
