A. G. SPALDING & BROS. INC. has declared, in addition to its regular semi-annual dividend of 40 cents on its common stock, an extra dividend of 70 cents on common. The company’s directors have voted to call by lot $82,800 of its 50-year 5% debentures, due Nov. 1, 1989. The bonds will be called Dec. at par value.

TALK-A-PHONE CO., 1512 S. PULASKI RD., CHICAGO 23, ILL., has a new low-priced type of intercommunicating equipment that looks very good for golf clubhouse, pro shop, greenkeeper office and caddiemaster use. The company will be glad to send bulletins on this KR-4010 system.

AMERICAN - LA FRANCE - FOAMITE CORP., ELMIRA, N.Y., has a new airfoam generating nozzle that either creates a fire-smothering foam through mixing of water, air and Foamite Airfoam liquid within the nozzle, or can be operated as a clear water nozzle by removing the pick-up tube from the Airfoam liquid.

MADEWELL MOTOR, INC., 3125 E. 7th ST., OAKLAND 1, CALIF., is maker and distributor of the Bag-Shag, a patented automatic golf ball retriever invented by Ian MacDonald, well known pro who formerly was at Modesta, Calif. Ian made the device before the war and got big sales of them although he made no special effort to work the proposition into big business. It consists of a cast aluminum tube 21 in. long and 2 in. in diameter. The bottom of the tube is equipped with patented prongs so that the ball, once shagged, cannot escape. As each successive ball is shagged, the previous ones are forced up the tube and into a sturdy, bright colored canvas bag which encircles the top part of the tube. This bag holds 70 or more balls easily and is zipper closed. An aluminum handle fits the hand snugly. The balls are released from the bag by simply unzipping it. Bag-Shag practically doubles practice time, because the ball is shagged and bagged with a single hand motion, the player standing at ease and upright. There is no stooping or bending and scooping up of balls. Bag-Shag will also act as a “lure” to golfers to practice more because it makes a pleasure of something that was formerly a chore. A golfer owning a Bag-Shag will certainly be a hero in the eyes of his caddie. It is handsome and while light as a feather, it is very rugged and durable and can take plenty of hard use.

Dunlop will make no change in the Maxfli, 1 Dot, 2 Dot and 3 Dot balls for pro shop sales in 1947, says Vinnie Richards, asst. to the president of the Dunlop Tire and Rubber Corp. A cheaper ball may be put into the Dunlop line after the first of the year but the name and price of the proposed new secondary ball haven’t been set. Richards continues to play pro tournament tennis along with his amateur golf and reports that tennis and golf pros at country clubs forecast a great increase in the already big demand for Dunlop tennis balls at country clubs.

BALL NAME MARKER IS NEW —United Metal Products Corp., 19251 W. Davison, Detroit 23, Mich., makes a new ball marker for pro shop sale. A firm, even rolling pressure makes a clean impression of the player’s full name in the cover. Enough letters are supplied to spell any name of 15 characters or less. A liberal supply of ink is contained in the unit, with a handy applicator. The marker is compact and handy. It weighs 3½ oz. Many pros are giving it a strong push in their bids for members’ Christmas gift business.
