producing can best be gauged by Louise Trophy, donated by Alvin Handmacher, additional $5,000 and the Weathervane and the golfer compiling the lowest total will be shooting at $3,000 in prize money, Country Club, White Plains, New York, on land, with the wind-up set for Tconlwood Course, Babe Zaharias' home club. The girls will be playing on Chicago's Skycrest 30. The following week-end, May 6-7, the country, will be at Pebble Beach on California's Monterey Peninsula on April 29-30. The third competition is scheduled for May 13-14 at The Ridgewood Golf Club in Cleveland, with the wind-up set for Knollwood Country Club, White Plains, New York, on May 20-21.

In each of the four tournaments, the girls will be shooting at $3,000 in prize money, and the golfer compiling the lowest total for the 144-hole marathon will receive an additional $5,000 and the Weathervane Trophy, donated by Alvin Handmacher. All proceeds from the tournaments will go to local charities.

The quality of the golf the girls are now producing can best be gauged by Louise Suggs' total of 291 in winning the 1949 National Women's Open and Babe Zaharias' phenomenal 70 in the wind during the 1949 Eastern Open.

**Women in Cross-Country Weathervane Open**

This spring, led by the Big Four of women's professional golf—Patty Berg, Betty Jameson, Louise Suggs, and Babe Didrikson Zaharias, the girls will be shooting at a total of $17,000 in prize money in the first cross-country tournament ever staged, the first annual Weathervane Open.

The Weathervane Open will consist of four separate 36-hole competitions played on consecutive week-ends in four different states, California, Illinois, Ohio, and New York. The first competition for the star women pros, as well as top amateurs in the country, will be at Pebble Beach on California's Monterey Peninsula on April 29-30. The following week-end, May 6-7, the girls will be playing on Chicago's Skycrest Course, Babe Zaharias' home club. The third competition is scheduled for May 13-14 at The Ridgewood Golf Club in Cleveland, with the wind-up set for Knollwood Country Club, White Plains, New York, on May 20-21.

In each of the four tournaments, the girls will be shooting at $3,000 in prize money, and the golfer compiling the lowest total for the 144-hole marathon will receive an additional $5,000 and the Weathervane Trophy, donated by Alvin Handmacher. All proceeds from the tournaments will go to local charities.

The quality of the golf the girls are now producing can best be gauged by Louise Suggs' total of 291 in winning the 1949 National Women's Open and Babe Zaharias' phenomenal 70 in the wind during the 1949 Eastern Open.

**PGA Teachers Name Five Swing Essentials**

At the PGA Educational and Teaching clinic conducted in conjunction with the 33rd annual meeting during Snead's and Palmer's demonstrations five cardinal points were observed and definitely approved as correct in their fundamental respects by the PGA Committees in charge.

1. A steady head position at the start and throughout the swing. This was recognized as a definite aid in acquiring good posture and maintaining correct body balance during the swing.

2. Firmness of the left hand grip and control with the left arm at the start and throughout the swing. This insures the formation of a circular arc with the clubhead and promotes coordination of the body during the swing. It was recommended that emphasis be placed upon left arm development to compensate for the natural "right-handedness" of most golfers.

3. The ball should be placed to the left of the center position as regards the feet. This gives a longer arc with which to generate clubhead speed, encourages "hitting thru the ball" and also aids in keeping the player "behind the ball" at impact. This ball placement was emphatically recommended for all except the unusual and special type of shots.

4. A preliminary waggle of the clubhead with the hands and a "forward press" with the legs. This promotes "feel of clubhead" and releases tension, thereby enabling the player to take off in coordination and a smooth start.

5. The weight of the lower part of the body moves with or ahead of the swing, particularly on the downward swing. In other words, the golfer must be balanced and his weight must be working with the swing. This proper use of the weight enables the player's mass to reinforce the effort of the arm, hand and clubhead action during the swing.

While the PGA Teaching Committee positively agreed that the fundamentals of a good golf swing are almost standard, it wishes it known that the application of such fundamentals is quite individual. This latter point emphasizes the need for intelligent professional supervision in that it features the fact that knowledge is not sufficient—it's the application of such knowledge that is vital.
