WHEN YOU PURCHASE A
ROYER YOU BUY "HOURS"

... valuable manhours now spent in the preparation of top dressing. A Royer Compost Mixer operated by one man can prepare as much material as could a crew of men with manual methods, and the hours saved represent time purchased for other important golf course maintenance. Records show up to 89% reduction in the labor needed for preparing top dressing. And the Royerized top dressing is better top dressing... sand, dirt, humus and fertilizers are completely shredded, blended and mixed into a smooth, fluffy product, free of contamination... ready for application to greens.

Write for Bulletin 46 giving complete details on this valuable golf course tool. It is available in many capacities and models to suit your requirements.

Roberts, Waterman board chmn., is golf enthusiast who demands the best for his customers.

Widely known Carnoustie import Andy Mortimer, who began his American career with Clarence Hackney, came with Lakewood when he got out of World War II, during course construction... Booterbaugh has been sup't. for 3 years, coming from Milwaukee CC... Teaching with Andy is Bud Werring, who has scored with his very competent and thorough handling of pro jobs in Wisconsin and Minnesota... Managing Grand Hotel is Harry A. Peters, Jr., widely known to golfers because of his previous association with Kenilworth Lodge, Sebring, Fla... They make a stand-out, smoothly coordinated team.

Mortimer goes on the basis that a pro job at a resort course, private club or public course, is primarily a public relations job... Anything the pro can see to do to make the public happy is the pro's job, from teaching a pupil how to cure a shank to picking up a stray scrap of paper on the course while he's giving a playing lesson... Werring shares Mortimer's conviction about that fundamental point of the pro job... So does Andy's shop man, the pleasant, businesslike Kramer youth... While course supt's. are talking about their public relations they should see how Booterbaugh handles the public at Lakewood, taking

Bulletin, deflates the garden and general magazine ballyhoo about tolerance to close mowing, drought-resistance, disease resistance, crabgrass—and other weed resistance of Merion bluegrass . . . John, who was an early investigator on Merion and other bluegrass when he was with Green Section about 12 years ago, says Merion is superior to commercial Kentucky bluegrass but at 3 times the price of commercial Kentucky bluegrass the superior merits of Merion are something to be carefully rated by a fat pocketbook and expert turf maintenance practices . . .

Cornman’s opinion is that violent hair-trigger general publicity about Merion bluegrass as the super wonder grass may unfairly backfire on sound golf turf experts such as Grau, Wilson and Valentine . . . He points out that general ballyhoo for crabgrass eradicators has been so extreme that the home lawn owner reads the fervent pieces and expects to work miracles right now . . . A little look into Florida, Gulf Coast, southern California, Arizona and New Mexico, studying the vast capital that followed golfers into these localities, might be enlightening to the man who questions the investment value of the proposed course.

Bertie Way, who played in the 1896 National Open, played 36 holes in the 1952 PGA Seniors at Dunedin and was an easy winner in the 79-year division... George Duncan, the British vet who last played in this country as a member of the 1931 Ryder Cup team, has written a book of memoirs,
Give them a WARM-UP HOLE near the first tee, with an EDERER GOLF NET ... where they can loosen up and get off to a good start ... where they can practice and take lessons when you're shy of shag boys. Clubs always profit when play improves.

THE EDERER "INVINCIBLE"

"Invincible" — the full size Ederer golf net is the standard throughout golfdom for outdoor or indoor instruction and practice. Hundreds of clubs and pros have found the "Invincible" one of their most popular and profitable features in developing better and happier players.

THE EDERER "PORTABLE"

Sturdy, compact, lightweight—handles the full range of iron and wood shots. Ideal for limited space practice, indoor or outdoor. Folds into a compact unit 3 ft. x 6½ ft. x 5 in. Weighs 23 lbs. with backdrop.

individual holes during 1951 Amateur at Saucon Valley showed 3827 or 58% as pars, 8% as birdies, 31% as bogies, 5 eagles, 201 double bogies and 4 triple bogies... Average length of drive on No. 7 was 232 yds., on No. 8, 252 yds., and on No. 10 250 yds. Slight wind was against players on 7. On 8 and 10 when drives were measured air was quiet. Longest drive measured was one of 290 yds. Drives were measured as total of carry and roll.

Francis Gallett, pro at Blue Mound CC (Milwaukee dist.), sent "handsome" check back home for New Year's Day competitions at Carnoustie and New Taymouth clubs of which he is honorary life member. Francis also sent each club two 10 lb. hams so the milk from wild Scots cows would have something to splash against on Hogmanay.

Other communities could take Los Angeles as a leader in foresighted community planning — Los Angeles county plans now being discussed call for 18 18-hole golf courses to be constructed between proposed major highways and tied in with flood control projects. Rumors have two major L. A. dist. private courses not far away from purchase as residential property.

Pro Shows Gift Stock in Club Dining Room

A Scotch pro, J. P. MacLeod, Haggs Castle GC, Glasgow, put across a Christmas golf gift selling idea that many American pros might file away for use when next Christmas comes close. The idea also is one that could be adapted for evenings at northern clubs before the season opens.

MacLeod got permission from the club to hold a week-long exhibition of Christmas gift golf merchandise in the club dining room from 7 to 9:30 each evening. In his letter of invitation to the members he said that members seldom have time on their occasional visits to the club, at that season of the year, to visit the pro shop and inspect the stock.

The exhibition was well attended.

Six New England Supts. Receive 25 Year Pins

Forty-four members of the Greenkeepers Club of New England attending the recent annual meeting at Waltham Field Station, Waltham, Mass., honored six of the group with 25 year service pins. Frank Wilson, past officer and charter member, made the presentation to H. Mosher, J. Counsell, M. O'Grady, J. Latvis and P. Hayden. E. Phinney was unable to be present to receive his pin.

Officers elected for 1952 are: Pres., Arthur C. Cody; 1st VP, Michael O'Grady; 2nd VP, Manual Francis; 3rd VP, Albert Allen; Secy., N. J. Sperandio; Treas., John L. Counsell; Trustee for three years, George Volmer.
