Ed Furgol Wins Hogan Trophy

U. S. Open Champion Ed Furgol received the Hogan Trophy from its famous namesake at the annual meeting of the Metropolitan Golf Writers at the Plaza Hotel, New York City, January 27. Furgol was selected by a nationwide poll of golf writers for "... overcoming a physical handicap to play golf and proving an inspiration to others. . . . "

Golf immortal Bobby Jones presented the Metropolitan Golf Writers Association Gold Tee award to Billy Joe Patton as the "outstanding golfing personality of 1954." This presentation was highlighted by a congratulatory telegram from President Eisenhower which lauded Patton on: 

"... combining a mastery of golf with a never-failing sense of humor. . . . "

Other golf champions of 1954 who received awards from the golf writers included: Mrs. Mildred (Babe) Zaharias, U. S. Women's Open Champion; Chick Harbert, PGA Champion; Ellis Knowles, U. S. Senior Champion; Frank Strafaci, metropolitan amateur champion; Otto Greiner, metropolitan open champion; Barbara Bruning, women's New York State champion and Mrs. Sophie Untermeier, women's metropolitan champion.

SUPTs. AND PROS EXHIBITS FORECAST BIG BUYING YEAR

Exhibits at the Golf Course Superintendents' Assn. at St. Louis and at the PGA National GC during PGA Seniors' week received buyer interest indicating 1955 may be record year in golf business.

At the GCSA exhibits it was obvious that aerification of golf turf now has become almost standard practice and that chemical treatments are extending rapidly and widely to become as routine procedure as watering, fertilizing and mowing.

One of the healthiest signs was increase in course fertilization. For some reason, or lack of it, this primary element in good maintenance hasn't been getting the attention it requires, in many budgets.

At Dunedin the outdoor exhibits set up near the clubhouse showed pro shoppers getting an early start on ordering their requirements, particularly apparel items.

A factor frequently mentioned was the increasing pro shop business with women and, in some cases, the necessity of revision of pro buying procedure to get to quality apparel items to sell at strictly competitive prices.

A decided trend toward wider price range in women's clubs at pro shops often was commented on by pros and manufacturers' salesmen.
NATIONALS' JUMBO BAG

National Sports Co., Fond du Lac, Wis., are announcing a Jumbo bag for 1955. It has a big 7" x 10" top, mansized combination jacket and shoe pocket and extra large front ball pocket with two zipper openings. Giant 9" diameter round, one piece all leather molded bottom with steel ring reinforcement. Beautifully tailored from colorful and durable fabrics or Vinyl Ducks. Trimmed with genuine natural leather. Entire upper part trimmed with leather to protect against cart wear.

Lock-style protective hood and convenient umbrella holder. All leather sling, sponge rubber padded. For more information, write NATIONAL SPORTS CO.

Hand Knit Hosiery Co., Sheboygan, Wis., has new Foot-Hugger sports sox that will fit any size foot from 10 to 13.

MACGREGOR GOLF MOVES N. Y. OFFICE

MacGregor Golf Co.'s office and warehouse in New York City have been moved to improved quarters at 45 West 18th St., New York 11. New telephone number is Algonquin 5-4410.

CORNELL HOST TO MID-ATLANTIC SUPERINTENDENTS, CHAIRMEN

C. L. Cornell Co., course equipment and supply dealers in the Mid-Atlantic territory, was host to 225 supts., green chmn., equipment factory men and golf writers at the company's annual steak and oyster fiesta.

The affair was held in the company's office, shop and warehouse at 4715 Miller ave., Bethesda, Md.

TURF EQUIPMENT CO. IN NEW BUILDING AT CINCINNATI

Turf Equipment Co., Inc. is in its large new home at 7525 Kenwood Rd., Cincinnati 27, O. The building is 50 ft. wide by 100 ft. long and on a large lot.

The show room is 50 ft. by 50 ft. A large show window in which tractors and gangmowers are displayed is a feature that attracts much attention.

The service department is completed and modernly equipped. It has among other equipment a large hydraulic lift to

facilitate working on heavy equipment. The parts department is set up on a perpetual inventory system.

Among lines handled by Turf Equipment, Inc. are Worthington and Jacobsen golf mowers, Midwest mowers, Kapco fertilizers, Skinner sprinklers, Standard Mfg. Co. course equipment, G. B. Lewis ball washers, and Ryan sod-cutters, trimmers and edgers.

FLEXO-ROLL, NEW SELF-SERVICE ISLAND WITH CASTERS

Add Sales Company, 935 York Street, Manitowoc, Wisconsin, announces the addition of Flexo-Roll Self-Service Island (with caster) to their line of self-service pro shop fixtures. The cut-outs in the photo show the casters. This new, easy-glide, low priced Flexo-Roll makes it possible to quickly change display locations. Flexo-Roll also gives 200% more selling space in the same floor area than one flat-type counter, an important factor in pro shop display and selling. This Self-Service Island occupies only 10 sq. ft. of floor area, but gives 30 sq. ft. of profitable selling space.

The middle shelves are adjustable permitting you to sell merchandise of any size or shape. The Self-Service feature creates impulse buying, speeds up service, and lowers your selling costs. For a limited time it is being offered pros at an especially attractive price. Immediate shipment. For free catalog and other information, write Add Sales Co.

NEW CHIPMAN WEED, GRASS KILLER

A non-selective weed and grass killer has been announced by Chipman Chemical Company, Inc., Bound Brook, N. J. The new product called "Chlorea" kills all types of vegetation. It is a uniform, non-separating combination of sodium chlorate, borate and CMU . . . combining the effectiveness of chlorate on deep-rooted weeds with the prolonged soil-surface action of CMU on shallow-rooted grasses.

The Greens Air Special was developed by a leading turf expert at one of America's finest courses... continuously field tested and improved over a five year period to assure utmost safety, ease and efficiency of operation. Precisely cuts and ejects cores from perforations of 1/2 in. diam., to depth of 3 in. or more, 2 ins. apart. 30,000 holes to 1,000 sq. ft. at rate of 5,000 sq. ft. in 2 hours.

Write for complete information to:

C. S. and H. COMPANY
106 Seventh Avenue So. Hopkins, Minnesota

Results determine the worth of an aerifying machine. The above photo from Frank Svehla, Supt., Colonia CC., shows results you get with

The GREENS AIR Special

Note in this action photo, the clean cores ejected by tynes, moving down slides—note freedom of disturbance to putting turf.

February, 1955
and annual seedling growth. It also has a lasting residual effect to inhibit regrowth. Chlorea is non-poisonous and, because of its borate content, does not create a fire hazard when used as directed. It can be applied dry or used as a water-mixed spray. Further information and literature may be obtained from the manufacturer.

"FAIRWAY FLYER" MAKES BOW

The Detroit firm, exclusive sales representatives for the Fairway Flyer, emphasizes design and construction features that have lowered costs without affecting quality.

"The electric golf car is here to stay," says the company promotion, "and in keeping with Detroit tradition, we're bringing out an improved model at a lower cost. The Fairway Flyer is designed and built by golfers, for golfers. It's rugged and powerful, with all-steel welded frame and body, ball-bearing electric motor and sealed-in lifetime lubrication. It's smooth, quiet and simple operation will appeal to women. We've made it 100% safe: Even a youngster can use it.

"There's no gear shift, and pressing the brake cuts off current—keeps car from rolling. You can park on a hill or any down grade in complete safety. Oversize balloon tires do not harm turf. It will travel 36 holes around the average course for about 3¢. Heavy-duty batteries under the hinged rear seat are easy to reach and recharge. The roomy 20" by 40" seat is finished in weather resistant Leatherette upholstery."

"We think the Fairway Flyer has an unlimited future," a company spokesman stated. "As more and more people discover how much pleasure it adds to their game, the use of the electric golf car will multiply . . . and so will its profit possibilities."
MICHIGAN PEAT EXPANDS NAMES NEW OFFICERS

Miss Ethel Poppel, Pres. of Michigan Peat, Inc., announces new and enlarged offices have been opened at 67 West 44th St., New York, N. Y.

Philip Hamerslough, Jr., has been elected to the office of vice pres. and will be in charge of sales and merchandise. Hamerslough was previously assistant to the pres. of the Jacques Kreisler Mfg. Corp., makers of watch bands and men's jewelry.

Joseph Hartman has been elected vice pres. in charge of Production. Hartman was previously an officer of the Hartman Tobacco Co.

Heavy booking of orders for 1955 indicate a banner year for Michigan Peat Products and Soils.

ROSEMAN MAKES NEW APPOINTMENTS

Roseman Mower Corp. announces the appointment of Robert “Bob” Duguid as Sales Mgr. with headquarters in the home office in Evanston, Ill., and E. H. Schoonover, well known for many years in superintendents’ circles in Ohio, New York, Pennsylvania, will represent Roseman Mower Corp. in the Eastern U. S.

“Schooner”, as he is popularly known in the turf industry, will make his headquarters in Cleveland, Ohio, but will serve Roseman dealers and golf courses in an active demonstration program in this eastern area.

Duguid is the son of the well known golf course superintendent Robert Duguid, Sr. of Timuquana Country Club, Jacksonville, Fla. “Bob” is particularly well qualified for his new activity, having been closely associated with golf course maintenance since early youth.

Recent additions to the Roseman Dealer Organization include such well known firms as Hardie Mfg. Co., Los Angeles, Calif.; Dixie Lawn Supply Co., Louisville, Ky.; Berger Mfg. Co., Cincinnati, Ohio.

Extensive sales promotion plans are under way for 1955 with several new models of mowers embodying new design features in gang mowers ready to be announced.

GREENS KEEPER!

Greens Zephyr is an easy to push putting green mower that gives a short, perfectly smooth 16” wide cut to golf and practice putting greens, as well as fine lawns. Operates perfectly on Bent, Bermuda and all fine grasses. Ball bearings with Alemite fittings. 12 hardened Sheffield steel blades. Two section drive roller insures non-scut turning. Speedy adjustment, height of cut—1/4” to 1½”. Absolute tops in design, materials, workmanship. Greens power mowers also in stock. Imported from England. Service parts on hand. Write for specifications and very attractive prices.

TRU-CIZE HOLE CUP

TRU-CIZE HOLE CUPS Are Best Because:

1. Made by the new “Precise Die Cast” method, accurate to a few thousandths/inch. 2. Made of 99% pure zinc — rust proof. 3. 25% lighter than cast iron cups, with three times the tensile strength of cast iron. 4. Years of use on hundreds of golf courses have proven their superiority. 5. They comply with USGA Rules and Measurements. Cup tapered 1/8 in. 6. Built with particular attention to high quality; stronger pole sockets; drainage and smoothness, inside and out.

February, 1955
NEW TWEED-TEXTURED FLOORING
DEVELOPED BY AMERICAN MAT

A beautiful new rubber floor tile with a modern tweed-textured surface has been developed by the American Mat Corp., 1802 Adams St., Toledo, O.

This new "Do All Tweed Corded Rubber Tile" is non-porous and dirt cannot become embedded, thus reducing maintenance requirements.

The tweed-textured surface is obtained by a new process, using a special rubber compound which is extremely durable and fade-resistant. It is, furthermore, resilient — affording comfort underfoot, and has high sound-absorbing qualities.

Do All Tweed Corded rubber tile comes in three colors — white on black, red on black and green on black. It is obtainable in three sizes, 9 by 9 in., 9 by 18 in. and 27 by 27 in., affording numerous attractive installation designs and patterns.

It may be applied directly to concrete, wood and steel floors, using any good rubber tile adhesive, without felt or paper between the tile and the floor.

GODWIN NAMED DISTRIBUTOR OF
IMPORTED GREENS MOWERS

Godwin is currently stocking the Zephyr hand mower, the lightweight master power mower and service parts. Both mowers are designed for Bent, Bermuda, and other fine grasses. Hardened Sheffield steel blades cut full width of the mower because of the roller drive which is split to permit easy, non-scuffing turning. Both have self-aligning ball bearings and Alemitte fittings and there is a self-locking adjustment for height of cut from ¼" to 1½".

Greens mowers are fully guaranteed by the manufacturer and Hiram F. Godwin and Son. Complete information, specifications and illustrated literature available from Hiram F. Godwin & Son, 22366 Grand River Ave., Detroit 19, Mich.
drives, is equipped with semi-pneumatic tires and has a hopper capacity of 100 lbs. of fertilizer.

Pre-calibration makes for economic and efficient application of fine seed and turf fertilizer as well as several dry-applied weed controls also available under the Scott label.

**WHEELBARROW WORK MADE EASIER**

The Workhorse, the new Worthington wheelbarrow, promises to be a welcome piece of equipment on any job where wheelbarrows are used. Utilizing an easy-to-start 4-cycle, 2 1/2 horsepower motor mounted on supports behind the tray, the Workhorse can carry a full, 400-lb. load up a 16% grade with little effort by the operator. Throttle and clutch controls are located on the wheelbarrow handles, making starting and speed control a smooth, easy and natural motion. Speed can be maintained at an easy walking pace.

Semi-pneumatic drive wheels have a thick tractor tread which enables the wheelbarrow to ride and drive over rough, irregular ground without trouble.

Steering is easier than with an ordinary wheelbarrow. Two drive-wheels directly under the load eliminate tipping and the tray is so balanced that dumping is a

MALLINCKRODT DISTRIBUTES TURF FUNGICIDE APPLICATION CHART
A turf fungicide application chart and disease timetable for use by golf course superintendents is being distributed by Mallinckrodt Chemical Works, St. Louis.

The chart is used for recording year-round turf disease control and has a timetable showing active periods of nine destructive turf diseases. It is a handy chart for planning an effective disease prevention program and for double checking to make sure all greens are effectively treated.

Mallinckrodt displayed the chart in conjunction with its turf fungicides, Cadmionate, Calo-Clor and Calocure, at the National Turfgrass Conference in St. Louis, January 18-21. Charts were mailed to all superintendents the following week. For additional charts, write to Mallinckrodt Chemical Works.

U. S. RUBBER HOST TO PROS DURING PGA SENIORS

John Sproul, George McCarthy and their U. S. Rubber Co. golf ball teammates were hosts to 352 professionals at dinner at the Ft. Harrison hotel, Clearwater, Fla. Jan. 24.

The U. S. Rubber affair generally gets PGA Senior Week started fast and strong and this dinner meeting was the largest one the U. S. Royal men have staged.

McCarthy was toastmaster, bringing Harry Moffitt, Gene Sarazen, Hugh Bancroft, Billy Burke, Denny Shute, Johnny Farrell and other celebrated elders of the congregation to the mike for brief addresses and bows. There was considerable singing (28 handicap by Metropolitan opera rating) by the pro golfers and amateur singers with Scotch ballads and Irish tunes tying.

Sproul gave interesting details of the U. S. balls, merchandising and advertising plans for this year, presenting a number of new sales helps for pros, among them being pro shop and clubhouse wall cards of the 10 "most violated" rules of golf. The new Queen Royal, a top quality ball for women golfers was introduced. For the first time the new U. S. Diamond counter display container was shown. The new model shows construction elements of top U. S. balls.

Sproul also went into the profit arithmetic of golf ball selling, showing convincingly how pros could dangerously cut their net profit and sacrifice their command of the ball market by putting any accent on the cheaper balls.

Entertainment feature of the dinner was a talk with slides of historic old scenes in golf, by Herb Graffis. Graffis in giving "Highlights of American Pro Golf History" showed significant points of the splendid job done by pros in building the game in the U. S.

SOUTH BEND PRODUCT SALES

Associates of — City Awning Company,
1422½ Mishawaka Ave. South Bend, Indiana
SPALDING SHOWED INCREASED SALES, PROFITS, IN 1954

A. G. Spalding & Bros., Inc. and subsidiaries, sales in the fiscal year of 1954 were $27,192,645; more than $1 1/2 million above the preceding fiscal year.

Consolidated net earnings for 1954 were $779,553 as compared to $677,092 for the previous 12 months. Earnings were $1.47 a share in 1954, against $1.30 a share in 1953. The company made an excellent showing in improvement of current assets and in improving manufacturing and distributing facilities.

SPRAY AS YOU MOW

Lawrence J. Meisel Co., 444 S. Brentwood, Clayton, Mo., report lively interest at the GCSA annual conference in the Meisel weed sprayer attachment which combines spraying and mowing into one operation. The tool box is removed and without drilling holes the attachment fits the Toro Professional model mower with the 7 1/2 hp Wisconsin motor. The copper sprayer tank holds about 9 gals., sufficient for 1 1/2 acre broad leaf weed control. A gear type pump operated by V belt from starter pulley shaft provides the pressure. Spray booms are on front of cutting units and nozzles may be changed for type of material or rate of application. Pressure gauge and shut-off valves are on the handle bars.

Several of the Meisel sprayer attachments are being used in the St. Louis area where experience has shown that there is no pronounced difference in results whether the weed killer is applied before, during or after cutting. The Meisel unit is being used for liquid fertilizing and dyeing dormant Bermuda as well as weed control. Write the company for complete particulars.

JACOBSEN'S NEW EDGER-TRIMMER

The new Edger-Trimmer designed by the Jacobsen Manufacturing Company, Racine, Wis., with a cutter head adjustable to any position through a 90 degree arc, from vertical for edging to horizontal for trimming.

For curb edging, adjustable-height axle permits lowering the outside wheel to the depth of the gutter for 3-wheel support while edging along the curb. The unit maintains level position on curbing up to 12½ inches in height.

A self-locking lever, controlled by the operator, adjusts the cutting height to nine positions. Edging depth has a maximum of 1½", and the trimming height a top of 2½".

Powered by a 1½ hp Jacobsen engine and weighing only 45 lbs, the Edger-Trimmer has a nine-inch hardened reversible steel blade with sharpened edge for trimming. Cutter head locks in an elevated position for convenient transport.

PAR AIDE BALL WASHER ADDED TO PROGRESS LINE

Progress Pattern and Foundry Co., St. Paul, Minn., showed its aluminum Par Aide ball washer at the GCSA convention exhibition, along with the company's aluminum tee and yardage markers.

This new and attractive ball washer is made of cast non-corrosive aluminum and is easily installed by insertion into a 2 in. pipe. The golf balls are inserted into helical containers which, when the exposed handle is operated vertically, bring all parts of the balls into contact with nylon brushes which are immersed in water.

Plan now to improve your greens and fairways with Scotts TURF PRODUCTS. The results are certain to win enthusiastic player acclaim. Write for recommendations of our turf specialists and estimates on your program.

O M Scott & Sons Co, Marysville, Ohio
also Palo Alto, California

February, 1955
James Beattie, who succeeded the late Bob Haggerty as manager of Wilson's pro department at New York, now rates as one of the younger old-timers. Jim came over from Scotland in 1923 and has been with Wilson since 1933.

He's got together a fine young team. Bob Haggerty, Jr., Leo McNamara (Tom's son), Wes Cornetta, Bob Slocum, Jimmy Blassi and Bob Cordiano provide Beattie with the sort of lads he was when he was fresh in selling to golf pros.

Jim's been around golf since he was 12 and went to live with an uncle who was manager of a golf club in Scotland. He caddied for David Kinnell, then the Scottish professional champion, and for another top man of the Scotch pros, Charlie Hunter.

When World War I came Jim, still in his teens, became one of the pioneer military fliers. He was going into aviation as a career but after due deliberation switched to four years as a student at Edinburgh university. Right after he graduated he came to the U. S. at the urging of Bill Potts, who served as pro at Apawamis and Pinehurst.

Jim had a variety of jobs before he decided that golf was his inescapable destiny. He went with Jim White and White's old Allied Golf Co. Those were the days when George Braid, Johnny Miller, Tom Frainey, Tom Robbins and others were conducting an informal and briskly competitive salesmen's training school out of their Chicago headquarters, and lectures in salesmanship at Minkley's drugstore were the golf pro salesmen's antecedent of today's sales conferences.

The depression hit Allied and the rest of golf business and Beattie left Allied to go with Worthington Ball Co. With those companies and with Wilson Jim got acquainted with practically all the pros from Nebraska to the Atlantic and the Canadian border to somewhere south of the Mason-Dixon line. Among the pros on his beat were relatives of his two idols in the old country; Harry Kinnell at Princeton and Dave Hunter who now is in Florida.

Jim is a better than fair talent scout. Julius Boros is one of the fellows he picked for the Wilson staff when The Moose generally was regarded merely as a nice and possibly promising member of the host of young golfers.

Where Jim loses all of the traditional Scotch reserve is in talking about his all-star team. He says that Bob Haggerty taught, helped and inspired him to working on every idea that possibly could help pros' business. Jim deeply feels that he owes an obligation to Bob's memory in continuing the constructive influence Bob had on pro golf business.
Bob, Jr. covers New Jersey for Wilson. Leo McNamara, scion of one of the finest of the pioneer homebreds and one who was with Wilson for many years, covers Westchester and lower Connecticut. Leo, by the way, has a remarkable collection of old clubs and balls and other items of golf historical interest.

Beattie counts himself very lucky in having Jimmy Blassi as his assistant, a responsibility Blassi also filled with Bob Haggerty, Sr. Blassi has been in charge of all the inside work for Wilson's N.Y. pro department. Beattie, the salesmen and the pros in the territory say that if Blassi hasn't got the answers the answers ain't.

Blassi's assistant is Wes Cornetta, a baseball star who is rapidly learning the pro golfers' problems and their solutions.

Bob Slocum, a golfer since his caddie days, came to Wilson after service in the Air Force and graduation from Ithica college. Bobby Cordiano, a Brooklyn lad, came with Wilson when he got out of the Army. Cordiano was educated by the complete inside treatment, coming up from shipping room, stock room, office and floor selling jobs to take over the Long Island beat, succeeding Beattie.

George Gelhar now is covering Illinois, Wisconsin and Minnesota for Stan Thompson of Los Angeles on Stan's custom-made clubs.

Eddie Williams, pro at Louisville (Ky.) CC, has wall cards of Jack Redmond's nine suggestions of "How to Become Unpopular on the Golf Course" which have on the bottom an ad of the Williams' Developar instruction device. These wall cards will be supplied free on request to pros.

ORGANIC SOIL CONDITIONER AVAILABLE FOR GREENS

Of interest to superintendents is the announcement by David R. Smith, agronomist of Jaffee Cotton Products Mfg. Co., Dallas, that their organic soil conditioner, Flo-Crop, used for years by a selected group of horticulturists, is now available to quantity users.

Beneficial as a natural soil conditioner, mulch and rich humus and as a soil builder and restorative, Flo-Crop contains no commercial chemicals, rocks or added soil. It has all the elements for healthy greens, requires no extra labor in its application, blends well for rapid and even growth of the turf.

GIVE TURF A PROFESSIONAL LOOK fertilize with PROFESSIONAL 8-6-4 (50% nitrogen derived from natural organics) Formulated especially for the long growing season. Write for low cost fertilizer program.

SOLE DISTRIBUTORS YOUNG & HALSTEAD CO. Mt. Kisco, N.Y.
growth of grass, has exceptional water holding properties and acts as a reservoir for the water, releasing it to plant life as required. Flo-Crop will not burn growing grass when applied according to instructions.

FLO-CROP has been registered with the U. S. Patent Office and with various state agricultural agencies where required. Samples and information by request to David R. Smith, P. O. Box 5184, Dallas, Texas.
