tractor-fed ROYERS really
cut turf-care costs

Cutting turf care costs really isn't much of a problem when you own an "R" or "Y" Series Royer Shredder. These tractor-fed models process up to 12 cu. ft. of top dressing in 15 seconds. When "dressing" greens and fairways, quantities like this are important.

"Royerated" top dressings are thoroughly mixed, aerated and reduced to fine particle size. They soon work into the soil, developing luxuriant, healthy turf that can withstand broiling sun and rugged play.

Write today for our new bulletin "Royer Shredders for Turf Conditioning Materials" and the name of your nearest distributor. He'll be glad to arrange for an on-the-spot, obligation-free demonstration.

WOOD'S ROTARY
- 12 Models... for every tractor
- Mows grass, shreds brush, mulches leaves
- Quick detachable, free-swinging blades
- Trouble-free, simple construction
- Costs less to buy and operate

The Wood's Rotary Mower with leaf mulcher adds days to the golf season. Encourages more late play because of fewer lost balls. Members spend more time playing—less time hunting. The Wood's Rotary will end your leaf worries forever. It's ideal for large acreage grass and weed control—brush cutting, too. The Model 80 takes nearly a 7-foot swath, covers up to 4 acres an hour. Maneuvers easily around banks and ditches. For cutting it's more dependable and less expensive than reel-type or sickle bar machines.
