Greens, tees and fairways at the Roselle Golf Club have been fed with Agrico fertilizers for more than ten years. Today the Roselle turf is outstanding in the excellent color of top-growth, vigorous root development, and freedom from weeds. Superintendent Grady attributes the fine condition of the Roselle course to a program of three fertilizations a year with Agrico and Agrinite.

Says Mr. Grady: “In this business of turf maintenance, it is very important to use the finest quality fertilizers along with sound management procedures. Agrico Country Club Fertilizer and Agrinite have provided outstanding results year after year.”

Jack Campbell Produces Good Turf and Fine Curling Rinks for Seigniory Club

This fine year-around club is situated on the Ottawa River between Montreal and Ottawa. Golf is the popular sport in summer, and curling in winter.

Seigniory has one of the finest golf courses in Canada. Greens, tees, and fairways are ranked among the best in North America, thanks to the skill of its Greens' Superintendent, Jack Campbell. He built this Stanley Thompson masterpiece and has been at the club ever since. He keeps a well-turfed and well-groomed course.

MILORGANITE is, and always has been, his favorite fertilizer. During the winter, Mr. Campbell produces artificial ice for curling. Seigniory Club has an indoor rink with four sheets, considered by many curlers as the best ice in Canada.
