Announce early start of 18-hole full size and 18 Par-3 at 107,000 acre Horizon City development southeast of El Paso, Tex. . . . Arthur Rubloff Co., Chicago real estate firm, in Horizon City deal.

Start building El Macero CC 18, near Davis, Yolo County, Calif. . . . Bob Baldock is architect . . . Warren Cantrell
AQUA-GRO®
A Blend of Non-Ionic Organic Soil Wetting Agents

During 1959, one of the most severe years in turf history, a number of superintendents in areas with adverse weather conditions, produced a turf that was denser, more disease resistant, better rooted, and, in addition, did not wilt. This turf was grown consistently under low soil-moisture-tensions, using AQUA-GRO. During 1959 these courses had more play than ever before, yet their greens proved to be better than ever.

These results were not obtained over night. Each of these superintendents followed this general program (see September, 1959, Golfdom):

1. Every year apply a total of 24 to 32 ounces of AQUA-GRO per 1,000 sq. ft. Each application should be at the rate of 8 oz. per 1,000 sq. ft.
2. Under severe conditions apply 8 oz. per 1,000 sq. ft. at monthly intervals during the season.
3. To promote deeper rooting make both an early spring and fall application.
4. For maximum performance keep this program on schedule.

These rates of application are based on using a blend of non-ionic wetting agents, that is 100% active ingredients — AQUA-GRO. The average cost for all greens, collars, and tees on an 18 hole course was less than $450 per year. These results certainly warrant your own individual investigation. Choose a portion of your course and find out for yourself!

Graham Webb building 9-hole pay-play course at Chesterfield in suburban Richmond, Va. . . Building 18 to design of James G. Harrison for Sewickley Heights CC in suburban Pittsburgh as part of residential development . . . John M. Brennan, Long Island golf writer, is campaigning for new public course in Bayside-Douglaston area of NY Met district . . . John points out that with North Hills, at Douglaston, and Oakland, at Bayside, doomed within the next two years, the present acute shortage of golf facilities will be accented.

Hunter Air Force Base, near Savannah, Ga., to have 9-hole course . . . Herb A. Davis, Cincinnati recreation director, says city needs 9-hole course in western section . . . Tells city's Finance committee that 9-hole course is most popular because many players go to Reeves muny course after work to play 9 before dark.

Course to be built in Estrella Park in Avondale-Goodyear-Litchfield Park area of Arizona . . . Madrid, Ia., to build course . . . Robert Trent Jones designs interesting and pretty . . . All seem to provide fun for their players and increase the golf market.

Precision Soil Shredding Costs
You Less: Here's Why

LESS HORSEPOWER. You save on original cost and operating expense with Lindig Model B Soil Shredders because patented dual shredder assembly is matched precisely to horsepower requirement. Proper operating efficiency produces more cubic yards of shredded material per hour for less horsepower.

HIGHER QUALITY SOIL MATERIALS. This same exclusive shredder assembly produces fine, even-textured materials that are well aerated and include all the valuable manures and other humus for vigorous plant growth.

REJECTS FOREIGN OBJECTS. Spring-mounted stationary blades allow stones and other non-shredding materials to pass through, protecting the blades and rotor from damage.

Thousands of Lindig Model B Shredders are providing trouble-free operation for nursery and greenhouse operators and growers throughout the industry. Added versatility is created by optional screening attachments and hopper extensions. Model B capacities range from 3 to 25 cu. yds. per hr. Optional gas or electric power units.

Get complete details on low cost power shredding with Lindig Soil Shredders. See your local dealer or write us.

Saint Paul 13, Minnesota
"AGRICO and AGRINITE produce when others fail!"

Side-by-side tests proved Agrico's superiority to Edward A. Chichunies, Supt., South Shore Golf Course, Hamburg, N. Y.

"I have used Agrico and Agrinite for several years, and have always been rewarded with beautiful dense turf. From time to time I have tried other fertilizers but never had as good results. For my money, you can't beat Agrinite as a summer turf food for greens.

"In the last few years I have fed my greens through the proportioner and I have been very well satisfied. The course including the fairways looked their best this year!"

Best by actual comparative tests—that's the experience of Mr. Chichunies and leading Superintendents everywhere with Agrico and Agrinite!

course for North Hills CC at new site near Manhasset, L. I., N. Y. . . . Club will move in 1961 . . . Bob Watson from Ardsley to pro job at Fairview CC (NY Met dist.) succeeding Johnny Inglis who retires after nearly 50 years there.

Pine Crest CC, par 57 course with 2705 yds for men, 2364 yds for women opened at Largo, adjoining Clearwater, Fla. . . . Holes vary in length from 105 yds to several par 4s under 300 yds . . . Jack McDowall is pro . . . Robert L. Moore, Jr. of Sheraton Hotel chain, and others, to build course, Sheffield Island Yacht & CC, they're planning on island off Norwalk, Conn.

Sea Pines course at Hilton Head, S. C., de luxe island resort, scheduled to be completed this fall . . . Ground formerly solely occupied by Ramsey County (St. Paul, Minn.) Old Folks Home now is site of golf course and sports arena . . . Makes it look like "the good old days" are here . . . Fort Walton Beach, Fla., discussing building course.

Ed Furgol to pro job at Westmoreland CC, Pittsburgh, from Montauk Downs CC (NY Met dist.) . . . Zion, Ill., Chicago North Shore suburb, considering building park course . . . Kokomo, Ind., talking
about adding 9 to American Legion's 9-hole park course. Rockford, Ill., park district considering building city's 4th public course. In 1955 there were 105,000 rounds played at Rockford's Sand Hollow, Ingersoll and Sinnissippi public courses. In 1958 play on the 3 courses exceeded 150,000 rounds.

Hollywood, Fla., to add 9 at Orange Brook. University Park, 3000 acre tract three miles northwest of Boca Raton, Fla., which recently got city charter to build 18-hole course. Haddonfield (N. J.) Cabana & CC, will build 9-hole course. Waukesha County (Wis.) Park Commission consults architect Edward L. Packard, LaGrange, Ill., about design for Nagawicka-Pewaukee Lake park site.

Fielding Abbott, formerly of Paradise Valley CC staff, signed as pro for Webb Development Co.'s 9-hole course at its "retirement community" northwest of Phoenix. Milt Coggins, Encanto pro, designed the course. Wm. B. Langford designs 9-hole par 3 course for Winnetka, Ill., Park district. Bill and Dave Gordon design 18 for Frosty Valley CC, Bloomsburg, Pa. New club will care for members of present Bloomsburg GC which is becoming property of Bloomsburg State Teachers College.

THANKS 3 1/3 BILLION TIMES

That's a lot of thanks, but we mean every one of them. You who take care of the nation's finest turf are responsible for our success. The figure stands for the 3,342,434,051 pounds of Milorganite sold between 1926 and October 1959. Twenty-three acres of Milorganite stacked 85 feet high should grow grass! It has. Recent research at Rutgers and the University of Florida show why Milorganite is best. Less dollar spot disease, less wilt, fewer nematodes, and top quality when Milorganite is compared with other nitrogen sources, including the urea-formaldehydes, is their story.

Whether continuing or starting a Milorganite program, be sure to keep these vital fringe benefits in mind. Nothing else is as sure, as safe, or as economical as the proven fertilizer for turf — MILORGANITE.

If you have a turf problem, consult: TURF SERVICE BUREAU.

PUTTING GREENS TOO HARD?

Here's what Terra-Lite Vermiculite Soil Conditioner did for one country club

"Greens are in fine shape now and with less watering" writes Superintendent W. J. Isiminger

Until 1959, Green County Country Club of Waynesburg, Pa., had two serious putting green troubles—compaction and brown-outs. Both vanished completely after greens were conditioned with Terra-Lite Vermiculite Soil Conditioner.

"Am very happy with the results," says Supt. Isiminger; "plan to use Terra-Lite again next season and don't hesitate to recommend it to anyone else with problems like ours." Why not get Terra-Lite and put your greens in prime playing condition right now? If you'd like more information, just mail the coupon.

Terra-Lite Vermiculite Soil Conditioner

BATTERY CHARGERS

HEAVY DUTY GENERAL ELECTRIC

Will charge up to 36 volts at 100 amperes — 220 volt, three phase input. Original cost $900.00. Reconditioned and Guaranteed.
