THE TURF IS ALWAYS GREENER ON THE BUCKNER SIDE OF THE FENCE

Since the first "hose-less" system was Buckner-installed over 50 years ago at California's famed Pebble Beach Golf Course, Buckner Sprinklers have been the first choice in turf irrigation. Now in manual or fully automatic systems. Look in your Yellow Pages under "Sprinklers" or write for free literature.

DACCC 36-hole club is a magnificent distance from the center of Dallas, even in a country of magnificent distances, but the transportation operation was perfect. Women members, smartly attired in white sports outfits and wearing chic straw hats with blue and gold bands, drove a big fleet of courtesy cars. One shift of them began at 5:30 a.m., getting early starters to the course. Women scorers, wearing the very attractive white costume, standard for the tournament girls, looked refreshingly cool and poised on the course where temperatures were well over 100

and players and male spectators were soaking their shirts and larding the lean earth with sweat and dragging along looking beaten ... The DACCC Adorables at the PGA gave Dallas more fine golf fashion publicity than even the Neiman-Marcus organization has been able to get.

These Dallas golf girls are very, very soothing to tired eyes ... They certainly know how to dress for golf and how to keep their complexions from getting burned and weatherbeaten like the saddlebags of a pony express rider ... Business in Graham Ross’ pro shop was rushing ... Graham and his staff had a large stock of women’s apparel conveniently displayed ... His staff did a great job of shopkeeping in maintaining stock in neat order considering all the pawing it got.

Dick Tarlow of Foot Joy commented that Dallas people have two wise ways of ducking punishing heat in July ... One is air-conditioning everywhere under roofs and the other is to have on the thermometers only one reading: “It's somewhere around 100.”

Big seller in Ross’ pro shop at DACCC was a souvenir umbrella that Bud Walz of Haas-Jordan made ... On the yellow umbrella was printed in blue: “PGA 1963 Championship Dallas Athletic Country Club.” ... Great for protection against the blistering sun out on the course ... And for a shower just in case ... Umbrella sold for $5 in the shop ... Lyne Price,
Hogan sales manager, has been selling bales of these umbrellas as invitation tournament souvenirs.

Graham Ross who sold club members on taking the PGA Championship, can relax now that the tournament proved the club is one of the world’s top golf set ups... Some pros and club officials who got a chance to look at the huge car operation at the DACCC wish they had been as wise and foresighted as Ross and his club officials in working out car operation as mutually profitable and satisfactory to the club and pro... Without the car operation, the two 18s and the big clubhouse would be very short of business in the heat of July and August...

With all due bows to Dallas ACCC members, the Dallas Salesmanship Club members and Texas PGA members for their good management and hospitality, Dallas in July is not the best place for a national golf championship... The Dallas heat renewed talk about September being the logical month for the PGA Championship... I have a hazy recollection that the 1927 PGA championship, played at Cedar Crest CC, Dallas, was played in September... PGA record book does not give the date, the total and first prize...

money or the scores of the semi-final rounds... That information and dates and prize money of earlier PGA championships should be put in the records.

Quite a difference in the 1927 and 1961 PGA presentations to the winners... In 1927, Walter Hagen won his fourth consecutive PGA title for his total of five... The Haig, as usual then, was unconcerned about finances and was the target of parties intent upon discussing bookkeeping matters with him... So Alex Pirie, then PGA president, gave Walter the Wanamaker trophy, with the Caledonian oratory and courtly performance of the fine old pros... Alex gave Walter the check privately in the clubhouse boiler room... Nice Florida subdivision pitch Lou Strong, PGA president, made on TV in hailing Jack Nicklaus at the PGA champion... Jack is pro for an Arizona real estate operation.

Many PGA committee meetings at Dallas during PGA championship with vice presidents and other officials trying hard to find out what the score is on the PGA deal at Palm Beach Gardens... Reports varied about status of the building... Nobody seems to have thought of progress reports in photographs and figures that
provide correct answers easily in a businesslike manner.

During the British Amateur, Miss Vicky Macdonald, fiancee of Michael Lunt, the winner, hauled his clubs around the course on what we call a "bag cart", the New Zealanders call a "trundler" and the British call a "trolley" . . . Lunt beat four Americans, the 1962 British Amateur champion, Richard Davis, Billy Nicks, D'Edgar Updegraff and Chris Blocker . . . Tom Scott, British Golf Illustrated editor, forecasts that when Blocker gets out of the army and turns pro, he will develop into one of the U. S. stars . . . Henry Cotton and Bill Cox, British Ryder Cup veteran who does considerable teaching in England, say that the American amateurs' game from 75 yards into the hole is the reason the British have won the Walker Cup only once.

proves late play and helps utilize the course. A reduced car rental price for these periods has definitely brought out golfers at many clubs and is worthy of a trial at clubs that are looking for more traffic. Players who become accustomed to riding at reduced rates often become good customers at regular rates during normal playing hours.

Charter memberships sold at $250 plus 50 hours of personal labor or $350 without labor.

There can be some wild and woozy statements made in controversies over building or not building a municipal course . . . One fellow wrote a local newspaper about the proposed Danbury, Conn. muny course saying that "the total of the project, according to my mathematical calculations, amounts to $1,930,000 plus 30 years of maintenance, an additional cost amounting to $750,000 . . . making a grand total of $2,680,000 . . . A terrific price to pay for 130 acres of land." . . . The man must be looking for another deal with Indians who sold Manhattan island.

East Lakefront development of Orleans Levee Board will give New Orleans three
18-hole courses in the new park . . .

Mountain Home (Ida.) News, in advocating muny course, says: "Our own traveling salesmen point out that they sure wish Mountain Home had a course because this is their main form of exercise after traveling and selling all day.

Dixie Ranch offers 165 acres and $10,000 for clubhouse construction to Okeechobee, Fla., committee planning a golf club . . . Teachers in Kansas City area have a 9-hole, sand-green course at their Kansas City Teachers Golf & Swim Club in Bonner Springs, Kans . . . Alexandria, Ind., to build municipal course . . . It's No. 1 on Doubleday's fall publication list . . . "Play Golf the Wright Way," in which Joan collaborated with Mickey Wright about a year ago, is getting a big sale in both England and Japan . . . The American Classic, to be played at Firestone CC in Akron, Aug. 21-25 is advertised as a $50,000 event, but it adds $5,000 in bonuses to players who lead after the first, second and third rounds and shoot the low scores in each round . . . This strikes us as a fine incentive plan.

New club in Abbeville, Ala., which will have members in both Georgia and Alabama, is to be named Chattahoochee CC, after the river of the same name . . . The Mauna Kea Beach Hotel course, designed by Robert Trent Jones for Laurance S. Rockefeller, will present a view of the sea from practically every hole . . . It is on the Kona coast of the Big Island of Hawaii and is under construction . . . Finishing holes of the third and fourth rounds of the American Classic at Firestone in Akron will be telecast via ABC on Aug. 24-25.

Southwestern pros are screaming about the page ad in PGA championship program in which cut-price clubs on easy terms were advertised by a gigantic chain of stores . . . Complaining pros ask if cut-price competition with pro shops is officially approved by the PGA, or if the members were sold out . . . Same thing happened in the 1962 PGA championship program and pros around Philadelphia howled . . . But the complaints didn't do any good, obviously . . . Pros who protest
at the PGA championship program being used to invite club buyers away from pro shops wonder if Sears would sell Montgomery Ward advertising in its catalog.

Tobacco industry public relations advisors recommend that cigarette companies ease the cancer-cause heat that is on the manufacturers by curtailing cigarette drive on the youth market . . . Don't hold your breath, though, until the "boy makes girl" theme disappears from cigarette advertising . . . What probably will stop before long is use of athletes' testimonials for cigarettes . . . This will take some money away from pro golfers . . . There has been a lot of athletes' cigarette testimonial advertising using names of athletes who never smoked.

A golf public relations subject getting attention of club officials, playing equipment makers and other golfers is the way distillers and brewers accent their association with golf as a sales promotion gimmick . . . The high-powered use of golf to sell liquor doesn't fit in with the game's Junior promotion, say those who question the beer and whisky push of golfers . . .

The Haig was four feet away from the hole on the short seventh but only rimmed the cup . . . He three-putted the par 4 eighth and par 5 ninth to take bogeys . . .
