soft touch ... on fairways and greens

The John Bean Rotocast® provides better spray coverage of greens, fairways, roughs ... or into wooded areas for mosquito control. Coverage from a distance ... not tracking through ... an ability your greens committee will appreciate. The Rotocast combines the best features of both air and hydraulic spraying, and in most cases reduces water use. You can apply insecticides, fertilizers—or even windrow leaves away—faster and more easily. Ask for a Rotocast demonstration. It will pay off for you.

Fairway and green fertilizing. Weed, brush and mosquito control. Tree spraying. Adaptability for high-pressure hand gun "spot" spraying. John Bean sprayers will do your job better. Write for a free sprayer catalog.
