The AMERICAN ANNUAL GOLF GUIDE

Thirteenth Edition

A REAL GUIDE TO GOLF LAND

The Authentic Year Book of the Game in America

This book is the only annual publication of its kind published in the United States. Cloth bound, over 600 pages, freely illustrated with portraits of leading amateur and professional golfers, making it an invaluable work of reference for every golfer.

It contains among many features:

FIRST—A directory of American golf clubs in every State and Territory, also Canadian golf clubs, giving names of officials, descriptions of courses, visitors' privileges, fees and other desired information.

SECOND—The results of important tournaments and championships from the beginning of the game in America.

THIRD—A general summary of Golf of the year in the United States and Canada by recognized authorities of the game.

FOURTH—The leading champions and their records.

FIFTH—List of national, sectional, state and district champions.

SIXTH—The leading professionals and clubs they are with.

SEVENTH—Trade Directory. Listing Manufacturers and Dealers in "Everything for the Golfer."

EIGHTH—The latest rules of the game.

LEWIS GOLF BALL WASHERS
—at every tee!
Standard equipment for golf courses in the United States and Canada... The LEWIS GOLF BALL WASHERS has stood the test for five years and Mr. Golfer demands it at his club... But are you providing one at every tee, two at the first and tenth and two at the congested water holes?
It is economy for your members to properly distribute LEWIS WASHERS... Play is speeded up as fewer white balls are lost... Have you seen the new patented automatic brush adjustment? It also fits old WASHERS. Write for price list and literature.

Olympia's Colony Rules
(Continued from page 30)
Members of Terrace must empty all slop pails in service house.
A charge will be made for any special service rendered. Members are requested not to ask Club employes to perform any such service, but to file their requests with the Club manager. All employes have been instructed accordingly.
Any infringements of the above regulations will be acted upon according to the by-laws governing the conduct of members.
Penalty for second offense will be the loss of cottage privileges.
In the line of improvements, the Terrace is wired for electric lights and each cottage is permitted as many outlets as desired. This current serves to operate electric heaters in the early spring and late fall when the evenings are chilly. A master meter records the amount of electricity consumed during the season by the colony as a whole and each fall the cottage owners are billed for the cost on a pro-rata basis, with no attempt to equalize the amounts consumed by each individual cottage.
No running water is permitted in the cottages, but a pipe line runs through the center of the colony and convenient faucets and drinking fountains are located along its length. In the center of the colony are toilet rooms for the convenience of the residents; sewage flows through septic filters (which the club put in at an expense of $3,500) and out in sanitary, odorless and colorless condition into the club creek which flows along one side of the area.
Automobiles are permitted to drive onto the Terrace, during the daytime only, for purposes of loading or unloading supplies.

Carrier Fertilized Turf

Before You Make Out Your 1930 Budget Try

LECCO

the world’s best balanced scientific fertilizer for fine turf. Old traditions are giving way to science in turf main-
tenance as well as in everything else. Lecco produces perfect turf. The ex-
 pense of a compost pile is wiped out by the regular use of Lecco.

Try Lecco on your greens this fall and you will include this remarkably com-
plete grass food in your 1930 budget.

You save time and money by answering GOLFDOM ads.

At night the gravelled pathways are illumin-
ated by shaded light globes and may be
used by pedestrians only. A watchman
patrols the area and enforces, when neces-
sary, the regulations.

Obviously the Terrace must be kept in
apple-pie order at all times and must be
maintained in harmony with the beautiful
landscaping which prevails throughout
Olympia's grounds. For this purpose, and
also to serve as handy-men to make minor
repairs to the cottages, a superintendent
and two helpers are on constant duty
throughout the season. They mow the
grass, trim the shrubbery, water and cul-
vate the many flower beds which form an
important part of the landscaping scheme,
and perform such other work as is neces-
sary to maintain the area.

There is harmony but no uniformity to
the size or design of the cottages. There
are small, unpretentious ones with a sin-
gle 10x12-ft. room which cost not over
$500 to erect. At the other extreme, there
are really palatial structures handsomely
finished and furnished, of the maximum
368 sq. ft. of ground area, which cost their
owners better than $5,000 to complete.

The great majority of the homes, however,
run around $1,500, for which figure it is
possible to erect a very comfortable, home-
like cottage containing two 10x12-ft. rooms,
a clothes-closet, a small porch, and French
windows all around.

Olympia could well afford to donate the
sites for the erection of these cottages, but
has never found this necessary. Members
are perfectly willing to pay the small
ground rent (now 35c per sq. ft) which
even with the largest structure permitted,
runs only $128.00 per year, cheap enough
rental for, if desired, seven months’ resi-
dence in ideal surroundings for a summer
home. As a matter of fact, the colony
rentals amount to approximately $9,000
yearly and the club’s treasury is enriched
over $4,000 each season after expenses,
which run around $5,000, have been de-
ducted. Just how much the club gains
indirectly through increased departmental
business cannot be computed.

FALL TOPDRESSING
This fall when you are making your topdressing for winter cover of your greens use Hyper-Humus mixed with sand and top soil. Due to its great power to retain moisture in the soil, Hyper-Humus surpassed all other organic covers this past hot dry summer. Insist upon Hyper-Humus as it is the only well rotted, genuine humus on the market today.

**PREMIER POULTRY MANURE CO.**

308 W. Washington, St

CHICAGO, ILLINOIS

---

**Best for turf because:**

- It is a natural grass food and stimulant.
- It is a balanced manure containing 6% Ammonia, 2.50% Phosphoric Acid and 1 to 2% Potash.
- It contains no live weed seeds.
- Being organic, it aids humus and aids bacterial action.
- It can be applied with a minimum of labor and expense.
- Being more soluble than other manures, it is more available.
- Being finely pulverized, it is quickly absorbed into the soil.
