south division and Tom Kelly of the Sunset Valley GC., Highland Park, Ill., as director of the north division.

One copy of the inventory is mailed to each divisional director who furnishes his divisional members with a composite of the inventory reports. Reports are requested not later than the third of each month.

AIR-AUTO BAG IS LATEST ITEM IN HINSON LINE

Waterloo, Iowa—Hinson Mfg. Co. is introducing to the travelling public its new Air-Auto Bag, a container which hangs inside the rear door of any car and is roomy enough to accommodate three suits of clothes or dresses on metal hangers, in addition to shoes, toilet articles, etc., in convenient pockets.

The bag is made of water-proof Swavel, a suede cloth of chestnut brown color. Weight of the bag is 4½ lbs. Size is 36x22x3½ inches and when folded for carrying, it is only 10x22x7 inches.

The Hinson Co. is looking for sales outlets for this new item in their line and claim it has met with amazing success in the few short weeks it has been on the market. Dealers' price is $7.50, jobbers' trade discount, 25 percent.

NEW SCORE CARD IS COMPACT AND CONVENIENT

Oak Park, Ill.—A. J. Callaghan, 1228 Columbian avenue, has developed a new idea in golf score cards. The card folds so the out nine hole-by-hole scores appear alongside the out total, the in total, 18-hole total, handicap and net scores.

The new arrangement is convenient and unique. Samples and prices of the new card will be supplied free by Mr. Callaghan.

BUTCHART-NICHOLLS CHANGES CONTROL AND LOCATION

Newark, Ohio.—Butchart-Nicholls Co. has been bought by local interests headed by Col. Harry C. Bratt, well known in the golf business as president of the Dayton Handle and Golf Co. Factory operations in the future will be conducted at Newark.

The Butchart-Nicholls Co. was organized in 1925 by Cuthbert Butchart and Gil Nicholls, operating first in New York and then at Glenbrook, Conn. The company always made interesting models and built up a good volume of pro business. This business was allowed to slip due to lack of close, expert attention but under Bratt management looks very likely for a quick and substantial comeback. A steady volume of orders has continued during the last two years while Butchart-Nicholls was
Protect your greens and your reputation with DOLGE DIWORMA

August, as you well know, means humid days—and that means brown patch. Sometimes it can be cured if you're quick and lucky. But it's cheaper and safer to prevent brown patch by regular applications of Diworma. One pint makes 50 gallons of spray, enough for 1,000 square feet. Stops both large and small forms of brown patch before they start and, at the same time, discourages worms and grubs. Perfectly safe for grass. Does not need to be washed in. Write for prices and special offer on special sprinkling cart. No time to wait; write today.

Write today for prices and samples.
ILLINOIS GRASS CO., Homewood, Illinois
J. A. Carter Sls. Agt., 75 W. Wacker Dr., Chicago
NEW BEER DISPENSING SYSTEM ELIMINATES WASTE

Newark, N. J.—Economy, convenience and a properly palatable drink are outstanding claims made for a new beer dispensing system made by the Kristal Engineering Co., 30 Nicholson street, under the name of the Kristal-Vac dispensing system. Designed by skilled engineers as a perfectly co-ordinated unit rather than an assembly of various stock parts, the new beer dispensing system eliminates "wild" beer waste, thereby making for economy, while at the same time maintaining uniform temperature and quality in the dispensed beer.

Combining the tank cooling and coil features with the Kristal-Vac trap for the elimination of "wildness" and the delivery of uniformly gasified beer, for which patent application papers are being prepared; the new dispensing system permits of tapping a fresh keg with little or no waste, as well as the delivery of salable beer immediately upon tapping.

An automatic air pump supplies pressure at any predetermined poundage. The beer passes from the keg through the cooling system in a straight line to the vacuum tank where the "wildness" is taken out of it, while any sediment present is eliminated. From the vacuum tank the beer passes to the cooling tank where it is pre-cooled to within 5 degrees of the desired temperature. From the cooling tank it passes through a short coil where it receives its final cooling immediately before delivery to glass or pitcher.

In actual practice 20 glasses of beer be-
Cut Expenses While Cutting Grass

“Budd” gives you four cutting edges to every blade. You attach the Budd as easily as the old-style blade and change in a moment. For Better Service!—Less Expense!—Long Life for every mower!—switch to the Budd now.

Cut Cost of Treating and Fertilizing Your Greens Way Down

McCLAIN HYDRO-MIXER
Treats a Green in 10 to 15 minutes by pumping only 25 gallons of water. Insures perfect application of soluble Fertilizers, Fungicides, Vermicides, etc. Reduces labor costs to bottom. Faster than power rig. Eliminates sprinkling carts and expensive sprayers. A real money saver. Write for details.

McCLAIN BROS. CO., 121 2nd St., CANTON, OHIO

TIGHT BUDGETS HELPING SALES OF HYDRO-MIXER

Canton, O.—McClain Bros. Co. is having a record year on sales of its barrel pump Hydro-Mixer shower nozzle outfit. The apparatus is small and inexpensive. It hooks onto the water system of a golf course and does a good job of handling a lot of the work for which power sprayer outfits are needed. The savings and utility of this low-priced outfit have been so convincingly demonstrated at golf clubs that sales have continued to climb despite restricted budgets.

ROSEMAN MOWER ADDS TWO MORE MEN

Evanston, Ill.—Roseman Tractor Mower Co., 800 Davis street, has added to its staff Lou Nobbe, formerly with the Worthington Mower Co., and Arthur B. Hagan who has been connected with pro golf for some years. Both men are working in the Chicago territory.

A price advance goes into effect on Roseman mowers and tractors December 1 because of government regulations governing manufacturing operations. Increase will be about 20 percent.

Term payments will be arranged for clubs ordering before the increased prices become effective.

ROSEMAN STANDARD FIVE-GANG MOWER REDUCED $155

Write for literature describing the most modern of fairway mowers

Young is in Chicago's Golf Capitol

When the L. A. Young Golf Company began it established Chicago headquarters in the Lytton Building. That was a natural, thoughtful thing to do because the Lytton Building is the center of the golf business in Chicago.

Thousands of times professionals have visited the Young Company's offices in the Lytton Building; it's helped their business and of course, has helped business for the Walter Hagen line. These visits were made easy by the convenient location of the Lytton Building and the fact that it's a habit for pros to do their golf goods shopping with companies in this capitol of Chicago's golf business.

Tom Robbins, Hagen's Chicago manager, says:

"The Lytton Building is an ideal location for a company in the golf business. It's handy for the pros and they're accustomed to dropping in there.

"When Messrs. L. A. Young, Link, Hagen, Chapman or any of our other officials come to Chicago the best hotels are convenient to our office.

"I think the building is kept up in better shape than any other in the loop. The offices are large and light and the rent is reasonable. I don't see what more could be asked. The place is the "ultra" in golf company Chicago headquarters."

T. C. ROBBINS,
Chicago Manager, The L. A. Young Golf Company.

Mr. Robbins' remarks will be confirmed gladly by other prominent factors in the golf business whose offices are located in the Lytton Building. Among such other companies are The Burke Golf Co., Kroydon Golf Company, Golfdom, Golfing, Chicago Golfer and Country Club Review and the Chicago District Golf Association.
