Pennsylvania Club Has Fine Pool

ONE of the newest swimming pools in the east, at Centre Hills C. C. (Penna. State College course) State College, Penn., was put in operation in early 1932. A photograph of the pool accompanies this article. John R. Haswell supplies GOLF-

DOM with some interesting details concerning the methods used to keep the water in proper degree of freshness. He writes:

"Part of the water supply is from the waste of the refrigeration plant in the clubhouse from the second floor of which the photo was taken. This water enters the pool through a concrete trough at the ground level. The clubhouse has a 2-inch supply line from the borough water system at State College and, while it is not enough to fill the pool rapidly, it does take care of most of the requirements for wastage.

"The pump house on Slab Cabin creek, just beyond the pool down in the valley is for irrigating the golf course, but the creek was dry most of the time this summer. The suction pipe from the pump was then connected to the swimming pool and the water used a third time to irrigate the greens. When the creek is running normally, quick changes in the pool are made through the irrigating pump and the water is chlorinated in the trough above mentioned."

Scott's Seeds MARYSVILLE OHIO

Keep your GREENS and FAIRWAYS free of Brown Patch

Every greenskeeper knows what may happen to his course if brown patch gains a foothold. DIWORMA, the powerful Dolge compound, fortifies greens and lawns against both large and small types of brown patch. One pint of Diworma, in 50 gallons of water, will cover 1,000 square feet. Easy and economical. Write for prices and details of special offer on sprinkling cart. Don't delay. Brown Patch can get in its work over night!

THE C. B. DOLGE CO.
WESTPORT, CONNECTICUT

LET FUNGOL KICK BROWN PATCH OFF YOUR GREENS

Protect Greens Now with FUNGOL
Keep Positive Control of Turf Disease and Soil Vermin
Adopt the "McClain Economy System"

The existing demand for maintenance economies may be readily met by your usage of FUNGOL this year.
This approved fungicide and vermicide is most effective for prevention and treatment of Brown Patch and other fungous diseases, as well as control of Soil Vermin.

The savings you can make with FUNGOL come from its LARGE COVERING CAPACITY for Brown Patch, and its extra vermicidal value for eradication of grubs, beetles, sod webworms, and earthworms. No other vermicides necessary.

Save your Greens and bank account with FUNGOL and the "McCLAIN SYSTEM." Write today for complete details, free Record Charts for your own use, and testing samples of FUNGOL and VEG-E-TONIC.

RAIN SQUARE IS NEW SPRINKLER
Ann Arbor, Mich.—A new sprinkler has been announced by the Hoover Steel Ball Co. It is called the Rain Square and sprinkles a square area. The Rain Square retail price is $3.50.

The Rain Square revolves when in action, but an ingenious engineering development controls the flow of water in such a way as to limit the area sprinkled to a perfect square, ranging in size from 3 ft. to 30 ft., depending upon the water pressure applied. The sprinkler revolves on Hoover stainless steel ball bearings.

DOLGE ISSUES NOVEL MANUAL AND CATALOG COMBINED
Westport, Conn.—C. B. Dolge Co. is distributing to interested consumers a new and most attractive loose-leaf booklet of almost 100 pages, entitled “A Maintenance Manual; Sanitation, Cleanliness, Care of Grounds, Pest Extermination.”

Each Dolge product is described at length in the booklet and instructions are given for combating unsanitary conditions and pests of all kinds. Also included is a price list of the full Dolge line. The loose-leaf feature of the Manual makes it possible to keep it up to date at all times.

GRIPTEX, NEW RUBBER FERRULE, OFFERED PROS
Toledo, O.—Griptex is a new replacement rubber ferrule of great strength and elasticity which can be applied in less than a minute and covers string windings.

Griptex ferrules are offered for any string windings that are in bad shape, and as a protection and finish for good windings. They are permanent, neat and weather proof.

Application is quick and easy with a patented applicator which, without extra cost, is included with each set of 12 ferrules. Griptex is manufactured by Griptex Co., 542-548 N. Erie st., Toledo, Ohio.

RUBBER GRIP FOR CLUBS IS APPROVED BY PROS
Detroit, Mich.—A rubber grip called “The Ideal,” made by the Sport Specialties Co., 130 Cadillac Sq., is getting into big sales at pro shops. The grip is slipped over the end of the shaft, which has been moistened with a little soapy water. A bicycle pump hose, which is equipped with a special valve supplied with the grips, is put into a hole at the end of the shaft.

The New PEERLESS JR. Mower Sharpener
A high-grade Mower Sharpener of ample size and capacity at a very low price. Grinds all makes of power mowers and tractor units with blades up to 16 inches wide, as well as putting green and hand lawn mowers, without removing wheels or reel knives. Equipped with Reconditioner for “lapping in” with emery paste. Write for descriptive folder and price.

THE FATE-ROOT-HEATH COMPANY
133-169 Bell St. Plymouth, Ohio
WHEEL SPUDS

Quickest to put on and take off. Doubles traction. Durable and low priced. All sizes for all purposes. Samples and circulars sent free on request. Advise make of tractor and purpose intended.

If your Ford or equipment dealer cannot supply, write direct.

Immediate shipment. Prices reduced.

Golf wheels and all Fordson parts on hand.

SOILICIDE GETS FINE RESULTS WITH THALATE ANT TRAPS

Upper Montclair, N. J.—Since ants often detest even minute traces of arsenical poisons, Soilicide Laboratories employs thalium sulphate, an odorless and tasteless poison in its Thalate ant traps and reports this permits much higher poison contents to assure results.

Thalate traps are put in convenient form, a small metal box containing the bait, which is so prepared that it will attract both sweet and grease-eating ants. Bait is impregnated in peat moss.

The poison acts slowly, so the ants have time to carry it into the nests, thus killing the young ants in the colony as well. A nest will be eradicated in from three days to two weeks, according to Soilicide.

For control on golf courses, makers recommend leaving the traps on the aprons of greens during the day and moving them onto the green during the night.

Thalate ant traps are guaranteed to control ants or your money back. Price per trap, including bait, 25c.

KROYDON'S NEW FLEXIBLE SHAFTS GRADED TO SWINGS

Maplewood, N. J.—The Kroydon Co. has introduced new lines of its clubs having new Kroydon Hy-Power flexible shafts. These shafts are available in three grades: Stiff, "if you lash out your drive"; semi-flex, "if you have a medium swing"; and full-flex, "if you have a slow swing."

The shafts are available in all clubs from the driver to the putter.

Flexible shafts are selling well these days and solely as something new the Kroydon company retail outlets would be certain of business on the new flex-shafts. However, the idea of the steel shafts fitted to the speeds of the players' swings has been so solidly endorsed by many pros that the new clubs have a solid foundation for sales other than the novelty basis.

Early pro demand for the new Kroydons was such that enough of the clubs were hard to get. Now, however, orders are being filled on a normal schedule.

Burke is in Chicago’s Capitol of the Golf Business

The Burke Golf Company Chicago branch has been in the Lytton Building for 10 years, during which we have seen the golf business grow to big dimensions and the Lytton Building become recognized as the center of the Chicago District’s golf business.

Now any location for a golf office that’s over a few steps away from the Lytton Building is out of bounds.

Every transportation facility is handy. Parking spaces are close by and leading hotels are convenient.

Everyone connected with the operation of the Lytton Building from the scrub-women and window-washers right up the line, takes pride in keeping this building the cleanest, brightest one in the loop.

We found that we can do good business in the Lytton Building economically and efficiently.

N. W. COOK,
Chicago Manager, The Burke Golf Company.

What Mr. Cook has to say about the Lytton Building as the Chicago home of golf companies is heartily echoed by the executives of other companies that are prominent in golf.

Among those golf companies located in the Lytton Building besides Burke are L. A. Young Golf Co. (Hagen playing equipment), Kroydon, Chicago District Golf Association, Golfdom, Golfing, Chicago Golfer and World’s Fair Golf Registration Bureau.
