THE TITLST IS BACK!

YES! it's the same Titleist with the same sharp click and distance and accuracy as ever. The same Titleist that broke records on your course and in your cash register before the war... as it will again.

We say "the same Titleist" with pride. What we learned during the war when Acushnet was not making golf balls, but was winning five Army-Navy "E" Awards, confirms us in the belief that nothing takes the place of scrupulous care in production methods and insistence on uniform perfection in every article bearing the Acushnet name.

And you'll find the result in the new Titleist... and you'll like it! But a word of warning... quantities will be limited! Rubber for unlimited production has not yet been released and we've not had time to build up inventories. Ration your allotments.

Whatever the quantity, Acushnet's policy of selling "through pro shops only" stands. All the balls there are, are yours and yours only... and always will be. Acushnet Process Sales Co., New Bedford, Mass.

KILLS WEEDS, WON'T HARM TURF

Now you can get famous 2,4-D for turf weed control—in Easy-to-Use Tablets! It’s KARMEX*—an entirely different form of 2,4-D—made by Du Pont.

Just drop KARMEX tablets in water to make spray solution—they dissolve in 30 seconds. One tablet in 2 qts. of water covers about 100 sq. ft.—kills weeds in 1 to 4 weeks.

Especially effective against dandelions, white clover, narrow-leaf plantains and broad leaf annuals. Yet won’t harm blue grass (Canadian or Kentucky) or Bermuda grass. Not recommended for bent grass. Jars of 25 or 100 tablets.

KILLS POISON IVY, POISON OAK

AMMATE* is well known on every course—for the quick, permanent kill it gives against poison ivy, poison oak, poison sumac, chokecherry and other woody perennials in roughs. Good for clearing brush or second growth—also kills Johnson Grass, Ragweed, Milkweed—and many other annuals.

Kills both foliage and roots—only temporary soil sterility results. It’s safe to use—and effective. Only ¼ to 1 lb. of AMMATE in a gallon of water kills 100 sq. ft. of poison ivy. Apply with hand or power sprayer. Non-inflammable. Available in jars of 2 or 6 lbs.
