That’s good advice whether you’re playing a course, or

**TAKE IT EASY!**

MOWING A COURSE!

**USE IDEAL’S NEW TUBULAR GANG MOWER WITH “NEW BULLDOG” CUTTERS**

You can stay within your budget and still “take it easy” when mowing your fairways — and keep the turf in better condition. Lower costs are possible with Ideal’s New Tubular Gang Mower with “New Bulldog” cutters. You have the advantage of much wider cuts — you can haul more mowing units with the same motive power formerly used, as all excess frame weight has been eliminated. Easier to maneuver — less trimming around trees and traps — gangs available for cutting 7’ to 25’ widths. Specially designed for golf course mowing.

Ideal’s “New Bulldog” cutting unit (Model GC) has a newly developed clutch throw-out, and the sturdy dependability of Ideal’s other “Bulldog” mowers. All “Bulldog” cutting units are adaptable for proper mowing in various sections of the country where soil conditions differ.

The reliable Ideal “Greensmower” is famous for producing greens surfaces so perfect that the correctly aimed putt drops in.

Your Ideal Dealer will be glad to discuss the advantages of Ideal’s Golf Course Equipment.

If you want the grinder whose users say —
"We are able to turn out a perfect job in far less time than ever before"
here it is — the

CARPENTER
LAWN MOWER GRINDER

In its 15th season serving the nation's leading golf clubs, the Carpenter Grinder is a marvel of precision, simplicity and speedy work. Study these features. NO OTHER GRINDER OFFERS SUCH A DESIRABLE COMBINATION OF ADVANTAGES.

1. Machine is complete without accessories, no hoist or auxiliary holding device needed.
2. The one cradle holds either reel or bed knife.
3. Accommodates all sizes of mowers including the largest tractor drawn units.
4. Grinds to any desired bevel, following manufacturer's grind.
5. Coarse and micro adjustments of grinding head provide speed and precision.
6. Overhead grind and EXCLUSIVE ARC-ADJUST TRAVERSE positively assure AN EVEN CUT ALL ACROSS. THE GRAHAM DEFINITELY EXCELS IN THIS RESPECT.
7. Entire setting and operation is without tools.
8. No mechanical teaming or grinding experience needed to operate with 100% results.
9. Mechanically RIGHT, extremely rugged. We have plenty of 15-year-old grinders in use today.

Here is THE grinder for a club that must have velvet greens and well-kept fairways, and wants to keep its mowers on the job, not always lined up in shop awaiting grinding. Get complete illustrated bulletin and price data NOW.

GRAHAM MFG. CO. 10 Bridge Street
E. Greenwich, R.I.
We are very well pleased with Soilicide ... there was no browning of the bent grasses at all ... crabgrass was virtually eliminated and the bent grass had grown in where the crabgrass had been. There was no trace of brown patch on the greens that had been treated with Soilicide.

—Ludvig Nelson, Minikabda Club
Minneapolis, Minn.

During 1947, TAT Soilicide was used on eight of the worst greens at the Essex County Country Club ... Dollar Spot and Brown Patch were eliminated entirely or at a complete minimum ... crabgrass seedlings were (also) killed and crabgrass reduced to a negligible quantity. Bent and other turf grasses treated with Soilicide were not injured.

—John Anderson, Essex County C. C.
West Orange, N. J.

Letters like these come from all over the country — from Maine to Florida, from Virginia to California. Hundreds of greenkeepers are unanimous in their praise of Soilicide, both as a crabgrass killer and for effective control of fungus diseases. TAT C-LECT and Soilicide are odorless liquids, extremely economical, and will not endanger the most delicate turf grasses. Each application does two important jobs, and if purchased in bulk, the cost per application for a 5000 sq. ft. green is less than 75 cents.

TAT C-LECT BULK SPECIAL. This is identical to TAT SOILICIDE except in more concentrated form. Can be appropriately diluted for use as a fungicide or for crabgrass control on greens, fairways, tees or aprons. Represents lowest cost for large users. Only available in 15 and 53 gallon drums.

TAT WEED C-LECT. The only 2,4-D formula specifically compounded for mixing with TAT C-LECT SPECIAL or TAT SOILICIDE to permit killing most broad leaf weeds during same treatments. Packed in 1-5 and 53 gallons. Order now from your dealer. If he cannot supply you, please write us enclosing his name.

helpfulness and great service in building American golf. . . . He was one of the grand old guard who'll be missed by thousands of us.

Illinois PGA-Midwest Golf Course Supts, golf tournament rained out on May 10 at Tam o’Shanter CC. . . . The boys had an informal dinner meeting and planned holding their get-together in Sept. . . . Tam’s head, George S. May, had Mgr. Herb Koepke pop with champagne for the dinner crowd. . . . George is the guy who helped put tournament pros on a champagne diet. . . . They take it only in mild doses, though, and only for medicinal purposes after making out their income taxes. . . . Some day somebody like George is coming along to put star greenkeepers in the big money spotlight.

With courses being given arsenic treatment for grubs this is a bad time of the year for members to nervously chew grass, reminds Long Island City Star & Journal golf writer John Brennan. . . . Failing to remember the name of Nebuchadnezzar the proud king who had to “eat grass as oxen” I consulted the concordance and found there were 49 references to grass in the Bible. . . . Quite a few of them will console the greenkeeper and

FOR TOP-DRESSING
"Both of our Aerifiers are on the go six to eight hours daily. Enough soil is brought up to topdress the area cultivated — and such an economical way to do it!"
O. S. Baker, Greenkeeping Supt.
Indian Creek CC, Florida.

IMPROVE SOIL STRUCTURE
"To us, it looks like you have a machine that will, if used regularly and with the proper top-dressing mixture, be able to completely change the physical structure of soils without greatly disturbing the playing surface."
J. E. Hamner, Greenkeeping Supt.
The Memphis CC, Tennessee.

PREPARE SEEDBED
"Aerification of existing turf before seeding is beneficial. Seed has a chance to become established in the loose, moist soil in the holes made by the Aerifier."
M. McLane, Greenkeeping Supt.
Oakwood Club, Ohio.

PLANT STOLONs
"We intend to change our greens over to Arlington Bent. The Aerifier is being used to perforate greens before stolons are planted."
James Thomas, Greenkeeping Supt.
Farmington CC, Virginia.

EFFICIENT FERTILIZING
"Cultivation of turf with the Aerifier enables us to place necessary chemicals down in the soil where they are needed, instead of on the surface where they may be washed away."
Joseph Valentine, Greenkeeping Supt.
Merion GC, Pennsylvania.

FOR FAIRWAYS
"We intend to make aerification a regular part of our maintenance program. All fairways should be aerified at least once a year, preferably before fertilizer is applied."
Emil Moshie, Greenkeeping Supt.
Onwentsia Club, Illinois.

FOR GREENS
"Aerification of greens with the half inch diameter spoons did not cause any more disturbance to the playing surface than would have been caused by applying top-dressing."
Gus DeFelicie, Greenkeeping Supt.
Wilmington CC, Delaware.

JOHN BEAN SPRAY BOOMS are ideal for spraying turf chemicals. Separate feed lines deliver equalized amounts of material to the right, left and center boom. Boom wings fold back to avoid obstacles, or for traveling and drag markers indicate areas that have been sprayed.

COMPLETE RANGE OF TYPES AND CAPACITIES TO FIT YOUR NEEDS

TRUCK MOUNTED OR POWER TAKE-OFF. Your choice of engine powered or power take-off models to suit your needs and equipment.

BIG OUTPUT RANGE. John Bean sprayers deliver from 4 to 60 gallons per minute at 10 to 800 pounds pressure, depending on the model selected.

FIRE PROTECTION. For emergency control of grass or building fires, John Bean high pressure sprayers are ideal stand-by units.

Chairmen who have troubles... Hallelujah, brother... Drop a dime on the drum and get saved.

Harry and Emma Cooper back from Hawaii on a brief trip... Sammy Schneider, River Oaks CC, Houston, Tex., pro, says amateur Ed White would have been in class with Nelson and Hogan if he'd made golf his business... Byron Nelson in line for Warner Brothers picture... Jimmy Demaret to do a book on his merry career as a golf headline... Add to the yammering about Locke not being allowed to play in the PGA championship... American pros before they can play in any British money event except the British Open, must have British PGA membership cards... The cards cost about $10... U. S. PGA admission costs about $45... With U. S. PGA championship requiring about 10 days for practice and play into the finals for 1st prize of $5,500 and runner-up money of $2,000 a fellow like Locke could make as much money on exhibitions as he could in PGA championship competition... With other stars tied up at PGA, exhibition dates are easy to get at that time... PGA winner gets his prize money doubled by manufacturer whose clubs he plays... Winner also gets $250 for each appearance at
CALO-CLOR*, applied wet or dry, controls large and small brown patch...snow mold...earthworms in hard-to-replace turf. Calo-Clor is fast...sure...economical. Only one to three ounces per thousand square feet is required to keep greens and fairways in perfect playing condition. Specify Calo-Clor Regular for dry application, or Calo-Clor Suspension for use in sprayers.

tournament clinics and top crack at some exhibition dates. The title should be worth about $18,000 gross.

Harry Hillhouse named mgr., Delphi (Ind.) CC. Mme. Didrikson Zaharias trying to fit in Women’s Western Open at Skycrest CC (Chicago dist.) June 21-26 between exhibition dates. The Babe could use the WW title as gallery magnetism. Frankfort (Ky.) CC building new clubhouse. Indian Hill CC (Chicago dist.) has one wing of clubhouse burned in $100,000 fire.

Central Michigan GA to hold its first junior golf championship at Portland CC. Work started on new Emmetsburg (Ia.) CC clubhouse. Pella (Ia.) CC building new clubhouse. Jack Swink pres., new Montezuma (Ia.) CC. More than 50 Open and Invitation tournaments scheduled in Texas this year. Texas GA pres., Ben Lee Boynton, says about the state’s golf, “Club memberships are increasing everywhere and fortunes are being spent this year on club improvements.”

Most persistent malapropism in golf is use of “invitational”. You won’t find “invitation” in the dictionary any more than you’ll find “openal” or “amateural”.

Choose the Right Fence

- The right fence for you is made by PAGE, pioneer maker of Chain Link Fence. It can be the one of several styles which is best suited to your needs, and it can be had in a choice of metals. Our nearby Association member will confer with you on the fence you need and submit cost estimates without obligation. Write for illustrated information and we will send his name. Address PAGE FENCE ASSOCIATION, Headquarters: Monessen, Pennsylvania.

A PRODUCT OF PAGE STEEL & WIRE DIVISION AMERICAN CHAIN & CABLE • BRIDGEPORT, CONN.
NOW YOU CAN HAVE

Weed-Free Turf

at far less cost than former weed-eradication methods

USE ONLY 1 TO 2 PINTS PER ACRE OF

AGRICULTURAL

WEED-N0-MORE

A Proven Ester Formulation of 2,4-D

Highly Effective! Authorities have found that the ester forms of 2,4-D used in Agricultural Weed-No-More penetrate weed leaves within 5 minutes or less, then begin to work instantly.

Saves Time and Money! Using the new Weed-No-More spraying method developed and proved by Sherwin-Williams Research, one man can spray as many as 100 acres in a single day. The use of Weed-No-More results in beautiful, weed-free turf.

New Movie Tells All. Committees and boards should see the new full-color, 16mm sound film "Agriculture's New Conquest." It tells the full story of weed control with 2,4-D on farms and large turf areas. See your dealer or write direct to Agricultural Chemicals Division, 1231 Midland Bldg., Cleveland 1, Ohio.

Easy to Apply! Agricultural Weed-No-More is effectively applied with a simple, low-cost spray attachment quickly assembled and mounted on tractor, Jeep, or truck. Pump can be driven by power take-off or small gas engine. Hand sprayers can be used for small areas. One to 2 pints of Weed-No-More in only 5 gallons or less of water per acre kills dandelion, plantain, buckhorn, and other turf weeds.

For full information phone your supply dealer or write direct to Agricultural Chemicals Division, 1231 Midland Building, Cleveland 1, Ohio.
