Here is the fast modern way to better weed control. Notice how completely the Worthington cuts down weeds—improves the appearance of the entire area.

The Worthington Poynter rotary power mower cuts your rough, weedy areas quickly, efficiently, and does a smooth, clean cutting job on tough, wiry types of grasses. Here is what you can do with the Worthington:

- Easily cut down weeds four feet high.
- With its narrow 20½ inch overall width you can do close quarter mowing.
- Cut to within ½ inch of obstructions.
- Cut turf at heights of from one to three inches from the ground.
- Propelled by a sturdy 1½ hp. engine, it gives you all the power you need for tough going.

Widely used at parks, cemeteries, institutions, along roadways, fence lines and on golf courses for bunker work and trimming and as an auxiliary mower for miscellaneous cutting jobs.

Worthington rotary disc mowers are available in five sizes with cutting widths ranging from 25 inches to 62 inches. Your Worthington or Jacobsen dealer can give you the full story on these compact, economical power mowers. See him now.

Worthington Mower Company
Stroudsburg, Pa.
Subsidiary of Jacobsen Manufacturing Co., Racine, Wisconsin
