RESPONSIBILITY IS MEASURE
(Continued from page 40)
ning and research if capably handled.
This is where the experienced and suc-
cessful course superintendent must step
in, identify and prove his worth by selling
himself to the membership at large. This
can be done in the following manner; by
planning a long range program of upkeep
and improvement with the aid of his
chairman and other interested parties, im-
pressing the club president with the need
of appointing a well qualified chairman
who will explain to both directors and
members what the superintendent is try-
ing to do, and how they can help. The
superintendent must be ahead of his
chairman by always being alert and cor-
recting mad conditions before they are
brought to the chairman's attention.

MEL CARRIER WITH CADDY-ROLL
Mel Carrier is resigning from Saugan-
ash CC, Three Rivers, Mich., where he's
been pro-supt. 16 years, to become East-
ern representative for Caddy Roll rental
bag carts. Carrier has been 27 years in
pro golf and course maintenance and is a
member of the PGA Quarter Century
Club and of the Michiana Golf Course
Supe.' Assn.

The Caddy Roll cart was invented by a
Three Rivers golfer, Nolan Boughton, and
now is extensively distributed from coast
to coast. The Caddy Roll is put out on a
rental share basis, with all carts serviced
monthly on a free repair basis. All carts
are picked up each fall and replaced each
spring with factory rebuilt carts. The
company assumes all liability for damage,
fire, theft and breakage.

BRISTOL GLASS-SHAFTED CLUBS
TESTED AT DUNEDIN
Tom Higgins of Horton-Bristol Mfg.
Co. had a glass-shafted driver and 5-iron
that many of the senior pros and ama-
teers were testing at the PGA National
course in January. The shaft looks
clumsy in the test models but performs
very well, according to those who used
the experimental models. Possibility is
that if anything's done with the glass
shaft it will be made to hickory shaft
lines. Several players said they had a
satisfactory feeling of the ball staying on
the clubhead a trifle longer. There was a feeling of power to the shafts, so those who tested them said.

Horton Bristol also showed for the first time at Dunedin an approaching club and a putter, both with a shaft of adjustable length. The adjustable feature has a 6 in. span and is released by turning the shaft counter-clockwise and locked by turning it clockwise.

LEON D. FAUCETT IN SW FOR HOTZE AND KOUNTRY KLUB

Leon D. Faucett, for past 3 years asst. to Leland (Duke) Gibson at Blue Hills CC, Kansas City, Mo., now is representing Hotze bags and Kountry Klub sportswear in Texas, Oklahoma, Louisiana, Arkansas and Memphis, Tenn. He will make his headquarters at 1301 S. Meadowbrook, Garland, Tex.

Kroydon Co. presented contestants in PGA Seniors championship with an attractive golf glove. Contestants in the PGA Senior Women's event each got a white Kroydon golf glove.

TORO BUILDS NEW PLANT

David N. Lilly, pres., announces Toro Mfg. Corp. has started work on a new one-story building of concrete block and steel construction containing 24,000 sq. ft. of floor space, designed to house a greatly expanded research and experimental laboratory.

In addition to experimental and development work on power mowers, the laboratory building will also be used for defense projects the company is engaged in and some manufacturing.

NEW ADDITIONS IN THE 1952 POWER-BILT LINE

Numerous requests for a highly polished stainless steel iron club have prompted Hillerich & Bradsby Co., Louisville, Ky., to add the iron Model No. T2390DTC to the Power-Bilt selection. This fine iron club also features new flange back and water honed face. Advance orders indicate excellent acceptance of this new iron.

Golfers looking for the fine touch of a wood head putter will find it in the new P9 putter just added. This putter is of mallet head design, a style which has enjoyed great popularity.

Continuing its policy of furnishing the golf professional with a complete line in all price ranges to provide him every opportunity for merchandising, Hillerich & Bradsby is featuring also among its large assortment of woods the Model 651 wood. This model is designed for those golfers — man or lady — who require clubs of specifications between men's and ladies' standard. This wood has greater-than standard lofts, a Dynamic "A" flex shaft, and is of 42-inch length with grip between men's and ladies' specifications. In addition, Power-Bilt again has an outstanding selection of models in ladies' woods and irons.

Specialists in Golf Ball Manufacturing Machinery and Equipment

SUMMARIES OF RESEARCH STUDIES PRESENTED IN AGRI-CHEM REVIEW

Agri-Chem Review is the title of a new publication being distributed by the American Cyanamid Co., Agricultural Chemicals Div., 30 Rockefeller Plaza, New York 20, N.Y., for the dissemination of research reports covering results of work by the various agricultural experiment stations and the company’s own research organization on agricultural chemical products including fertilizers, herbicides, and defoliants.

American Cyanamid intends to make the Review a quarterly publication in which research information will be presented in summary form. Summaries of the following studies are included in the first edition: Comparative Studies with Crabgrass Herbicides in Turf — Gene C. Nutter and John F. Cornman, Cornell University; Potassium Cyanate, PMAS and Maleic Hydrazide in the Control of Crabgrass — C. G. Waywell and R. O. Bibbey, Ontario Agricultural College; Factors Altering the Effectiveness of Potassium Cyanate for Crabgrass Control — R. H. Beatty and B. H. Davis, Research Dept., American Chemical Paint Co.; and Increasing the Effectiveness of Herbicides by the Addition of Wetting Agents — E. Roland Laning, Jr. and Richard J. Aldrich, Rutgers University.

SPALDING OFFERS NEW GOLF CART

Being introduced for 1952 is a new Spalding tubular steel golf cart which is light in weight and yet very strong. It has big ten inch aluminum wheels with long wearing nylon bearings which require no lubrication, and the wheels are equipped with large semi-pneumatic rubber tires. The cart folds conveniently to fit into a locker or car trunk and can be prepared for use by pulling out the wheels, adjusting back plate to required position and adjusting the handle to height desired.
United States Rubber Co., with George McCarthy, head of golf ball dept., engineering the affair, was dinner host to pros, assistants and salesmen at Ft. Harrison hotel, Clearwater, Fla. during PGA seniors' tournament. Almost 200 attended and enjoyed a cheerful get-together which ended early so the boys could get to the tee ahead of time the next morning. PGA Senior officials spoke briefly. McCarthy, introduced among others, several US Rubber retired officials now playing golf near their Florida homes. Herb Graffis told about how the National Golf Foundation works, financed by US Rubber and other leading manufacturers of golf playing equipment, was working for and with pros to increase the number of golf courses and get more people playing golf.

**U.S. RUBBER HOST TO PROS AT CLEARWATER**

**CALOCURE IS NEW MERCURIAL FUNGICIDE BY MALLINCKRODT**

Mallinckrodt Chemical Co., St. Louis and New York, in cooperation with Rhode Island Agricultural Experiment Station, developed Calocure for control of brown patch and snow mold. Calocure is a formulation of mercury chlorides with additives which increase their killing power against causitive organisms of brown patch and snow mold. It has been extensively tested by course supts. and experiment station men in field trials across the country. Tests show it maintains or improves bent green color and over-all cost of effective use is low.

It is applied, for prevention, one to two oz. per 1000 sq. ft. every 7 to 14 days, as a spray or dry mixture with sand. Cura-tive application is at the rate of three to four oz. when the disease first appears.
ROSEMAN'S NEW WHEEL DRIVE FAIRWAY MOWER

Roseman Mower Corp., Evanston, Ill., announces that they have added a new rear-wheel-drive fairway mower to their line of gang mowing equipment perfected to meet the demand of users who prefer the wheel type of mowing equipment and yet are desirous of obtaining the advantages of a rear drive mower. Special feature is the engineering design of the rear-wheel-drive which permits the mower to hug the ground while mowing, assuring controlled uniformity of cut without raising, lifting or bobbing of the rear of the mower unit. The ability of the rear-wheel-drive to eliminate side slip on steep hills and bunkers is another advantage.

The new mower has no protruding side wheels, making it possible to overhang edges of traps and shrubbery beds without drop-off, eliminating unsightly fringe or hand trimming and permitting closer mowing around tees, greens, between trees and shrubbery planting.

Standard equipment on the new mower is a Hi-cut hitch for mowing high grass and the new “E-Zjust” hand reel adjustment which permits quick and easy adjustment of the bed knife without the use of hand tools. The new mower is offered on either steel or rubber wheels in 3, 5, or 7 gangs. Descriptive literature is available from the manufacturer.

SPALDING 1951 SALES INCREASE 5 PER CENT OVER 1950

A. G. Spalding & Bros., Inc. and subsidiaries sales for fiscal year of 1951 were $23,899,635 against $22,830,886 for preceding year. The increase was accounted for by increase in prices forced by higher manufacturing costs. Buying caused by start of Korean war was adjusted in Spalding sales by end 1951 fiscal year.

Consolidated net earnings of Spaldings for the 75th year of the organization were $1,220,132 ($2.34 a share). Previous year’s earnings were $1,623,384 ($3.12 a share). Increase in manufacturing costs mainly accounted for the difference.

February, 1962
1952 MONROE FOLDING TABLES CATALOG A HELPFUL GUIDE

Of special interest to golf club management is the 1952 Monroe catalog illustrating and describing the complete line of Monroe folding tables, noted for their strength, and ease of handling and storage. It features the widely used Monroe De Luxe Folding Banquet table and gives practical information on the company's specialized line of folding tables, benches and chairs. Details are given on Monroe's exclusive features which include rigid chassis, non-tip design, storage ease, no knee interference, locking device and pedestal installation. The Monroe company has been under family-owned management for three generations throughout which research has paced the development of its outstanding line. For their new catalog write, The Monroe Co., Colfax, Ia.

MEALMASTER HELPS SOLVE PROBLEMS OF CLUB FOOD DEPARTMENTS

A new type of service is available to golf and country clubs that will help solve some of the headaches managers experience in the operation of food departments. It is a service that will help get uniformly good meals out of the kitchen even with inexperienced help, plan menus that offer wide variety, speed up kitchen production, keep food costs under better control and get better production even with limited facilities and help.

Mealmaster Recipe File and Menu Service, developed by Mary T. Kavanaugh, noted quantity food service authority, helps eliminate guesswork and waste in buying and puts meal production on a simple, streamlined basis with more than 500 production-tested, simplified recipes—plus a daily menu planning booklet, and monthly merchandising suggestions. Complete information available from Mealmaster Recipe File and Menu Service, P. O. Box 1406, Chicago 90, Illinois.

HILLERICH & BRADBURY TEAMS WIN IN NEW INDUSTRIAL-COMMERCIAL ASS'N.
