The Titleist 100 — the new Dynamite Thread liquid-center ball with super extra tight winding. First choice of Pros in Big Money Tournaments.

The Dynamite Thread liquid-center ball with extra tight winding. Ideal for the long-hitting, low-handicap golfer.

A clear liquid-center ball with a sharp click and longer service. For those who get more distance out of a ball less tightly wound than the Titleist.

Liquid center — a long ball that's hard to cut or bruise. For the good golfer who sometimes hacks and tops.

A well-made, low-cost ball for those who want a lot of good golf at a thrifty price.

There's a ball for every game ... a ball for every player ... a ball for every purse ... and all of them are Acushnets!

Tommy Meehan and Bob MacDonald have opened a 4 net golf school in Sear’s store at Store and Van Buren, Chicago. One net has the Electrogolf length recording equipment. Lot of lessons and practice at 50 cents a pall. Badges at the Club Managers Assn. 25th Jubilee convention had clips instead of pins for attaching to lapels. A little detail but one of those things that shows good management is a lot of details and improvements.

Tom Walsh, former pres., PGA, and operator of Westgate Valley GC (Chicago dist.) elected director of Mount Greenwood State Bank on Chicago’s far south side. Charley Hall, another former PGA pres., some years ago was made director of a Birmingham (Ala.) bank. Oakland Hills CC celebrated its 35 years by burning its $124,000 mortgage. Club’s income from 1951 National Open, after taxes, was $69,402.58. At one time club’s indebtedness was up to $800,000. Part of the club’s income now derived from North Hills GC, part of Oakland Hills’ original layout, which was converted to semi-public course during depression of the 30s.

WHEN YOU PURCHASE A ROYER YOU BUY "HOURS"

... valuable manhours now spent in the preparation of top dressing. A Royer Compost Mixer operated by one man can prepare as much material as could a crew of men with manual methods, and the hours saved represent time purchased for other important golf course maintenance. Records show up to 89% reduction in the labor needed for preparing top dressing. And the Royerized top dressing is better top dressing ... sand, dirt, humus and fertilizers are completely shredded, blended and mixed into a smooth, fluffy product, free of contamination ... ready for application to greens.

Write for Bulletin 46 giving complete details on this valuable golf course tool. It is available in many capacities and models to suit your requirements.

Your fairways deserve
“PUTTING GREEN-
like mowing treatment”

All Putting Greens Are Mowed With Hollow-Roller-Drive Mowers. Why not Give Your Fairways The Same Benefits.

IMPROVED FAIRWAYS
Smooth, uniformly cut putting-green surfaces are the result of mowing with roller-type green mowers. This same desirable quality can be had in your fairways by using Roseman Hollow-Roller-Drive Gang Mowers.

Roseman Rear-Wheel-Drive Gang Mowers Advocates of wheel drive mowers can now obtain the advantages of Roseman quality and design in the new Roseman Rear-wheel-drive mower.

LOWER LABOR COSTS
Roseman Mowers mow faster, more uniformly without kicking up in the rear. Roller design permits overhang of traps — slow costly hand trimming eliminated. No protruding side wheels permits close cutting, eliminates fringe around trees. Narrower overall width permits mowing in tight places.

LESS DEPRECIATION
Top quality, non-breakable materials mean reliability and long life. Added life means less depreciation — lower cost every year.
