All Putting Greens Are Mowed With Hollow-Roller-Drive Mowers. Why Not Give Your Fairways The Same Benefits.

IMPROVED FAIRWAYS
Smooth, uniformly cut putting-green surfaces are the result of mowing with roller-type green mowers. This same desirable quality can be had in your fairways by using Roseman Hollow-Roller-Drive Gang Mowers.

LOWER LABOR COSTS
Roseman Mowers mow faster, more uniformly without kicking up in the rear. Roller design permits overhang of traps — slow costly hand trimming eliminated. No protruding side wheels permits close cutting, eliminates fringe around trees. Narrower overall width permits mowing in tight places.

LESS DEPRECIATION
Top quality, nonbreakable materials mean reliability and long life. Added life means less depreciation — lower cost every year.

Quick facts that make WORTHINGTON your best tractor buy

Worthington Model F Chief Tractor

1. Low gas consumption with Ford Industrial Engine.
2. Pivitally mounted axle for safety on hillsides.
3. Adjustable steering column for driver comfort.
5. Hydraulic brakes and engine governor standard — no extra cost.
6. Reserve gas tank — eliminates “running out.”
7. Front-mounted mowers permit operator to look ahead when mowing.
8. Smoother mowing — mowers cut grass ahead of wheels — no compaction.

This is just a sample. A demonstration by your Worthington dealer will tell the whole story. See him now.

for All-American $25 for men pros... For men pros in World championship $50... World field to consist of 32 leading money winners for 1951, 22 low players in 1952 All-American, a maximum of 10 named by May and 16 foreign invitees. Making maximum field of 80... All-American Women's to have $3,450 cash prizes... Women pros to shoot for $12,000 in Women's World event, with $5,000 first.

May's announcement says on account of spectator demand for wearing of numbers by players (which was discontinued last year) will be required of contestants this year... In the men's pro section wearing numbers must be optional but intention to wear — or not to wear — number must be declared on entry blank.

Joe Kirkwood, Sr. dropped in between exhibitions on a crowded schedule to tell about going to Leo Diegel's funeral with Walter Hagen... Joe left Philadelphia at 6 p.m., drove through the night to Detroit where he picked up Walter to attend the final rites for their old pal... They were 15 minutes late to the services and while listening to the minister suddenly realized they were at the wrong church... They sped 2 miles to the church in which the Diegel obsequies were held.

Andy Manero, last year pro at Tarton Club of New Hampshire, now pro at Boothbay Region CC, Boothbay, Me. George

"MILORGANIZED" TURF GROWS BETTER LOOKS BETTER

Fairways, greens and tees fertilized consistently with MILORGANITE, the natural organic nitrogen plant food, are distinguished by rich, deep green color, uniform texture and a healthy, closely knit root system. "MILORGANIZED" turf resists disease and withstands many of the climatic rigors to which less sturdy turf succumbs.

These are reasons why Golf Clubs use more MILORGANITE than any other commercial fertilizer. Our Soil Testing Laboratory and Turf Service Bureau are available to you upon request.

Jacobsen Greens Mower is powered by an engine that's dependability plus — the Jacobsen engine. Check these advantages:

**Double-Quick Starting.** Jacobsen engines deliver power strokes at every revolution of the crankshaft. Ordinary engines deliver power strokes at every second revolution of the crankshaft. The average pull on the starter produces six crankshaft revolutions — double power strokes mean double-quick starting.

**Positive, Fresh Lubrication.** Jacobsen engines are positively lubricated by mixing oil with gasoline. Vaporization of the fuel oil mixture insures fresh lubrication of ALL MOVING PARTS, ALL THE TIME — uphill, downhill or on the level. No separate oiling mechanism required — no oil level to check.

Only three moving parts — piston, connecting rods and crankshaft. Jacobsen engines have no valves to grind, no camshaft, push-rods, timing gears or valve springs to require adjustment or repair.

CARLON is easier to install. Furnished in long lengths, CARLON requires fewer fittings. It is lightweight... can be installed quickly without special tools... and is guaranteed against rot, rust and electrolytic corrosion.

CARLON lasts longer. Because it is impervious to the chemical attack of corrosive soils and waters, CARLON pipe assures years of trouble-free service. It will not accumulate scale or sediment.

CARLON is easier to install. Furnished in long lengths, CARLON requires fewer fittings. It is lightweight and easily handled by one man — no rigging equipment needed. Because CARLON is flexible, it curves to follow irregular surface contours and eliminates many fittings needed for rigid pipe.

A complete line of molded plastic fittings is available for joining this new pipe or connecting it to established metallic systems.
Bothered with Weeds?

It's easy to get rid of them and feed the turf in one time-saving operation with Scotts WEED & FEED. Or to just kill weeds and clover it's 4-XD, the new dry applied control... safer, faster. For outstanding turf always use Scotts TURF PRODUCTS. Write today for full information and prices.

“FLEXI-COMB”
for fairway mowers

Reduce thatch
Smother cut
Overcome weeds

Begin Flexi-combing early in the season. Comb out accumulated plant material to provide better growing conditions. A thatch layer sheds water, prevents fertilizer from getting down to the soil.

Reduction of thatch by Flexi-combing promotes healthier growing conditions — reduces disease.

Use Flexi-combs on mowers to overcome existing thatch and prevent its reoccurrence.

Flexi-combs fit Toro and Worthington mowers... Combs are mounted permanently on mowers — easily locked out of operating position when their use is not required... Improved design provides easier depth adjustment.
