They forget they didn’t make pars—when they get Powers in their showers

Powers safety mixers assure players the perfect shower that makes it a perfect day. No sleety shocks or scalding surges to upset them.

Powers Thermostatic Shower Mixers are safe, because they make dangerous extremes in temperature impossible; comfortable because the temperature stays constant wherever set; economical because they do the job quickly without wasting hot or cold water.

Keep your players happy and relaxed with Powers mixers—and protected against shower water accidents. Just one accident might cost your club many times the amount required to equip all your showers with Powers.
