3 ways to better turf with triple-acting

AERO® CYANAMID, GRANULAR

...kills weed seeds
...hastens decomposition of organic matter
...and in addition, supplies 20% nitrogen, 70% lime

1. WEEDED COMPOST. You can render well-decomposed compost practically free of weeds by incorporating Cyanamid at the rate of 13 lbs. per cubic yard of material. After 4-6 weeks, weed seeds are killed and finished compost, fortified with Cyanamid's 20% nitrogen, is safe to apply.

2. FIELD COMPOSTING. For simplified, mechanized compost production, a satisfactory material can be made in one year by incorporating cover crops, crop refuse, manure, rotted sawdust or other sources of organic matter into a loamy soil. Cyanamid, disked in with each addition of organic matter at the rate of 75-100 lbs. for each ton of dry matter, will hasten decomposition. For weed control, Cyanamid can then be mixed with the top 2-4 inches of soil-compost at 75-200 lbs. per 1000 square feet. Wait 4 to 6 weeks before applying compost.

3. SEEDBED WEED CONTROL. To produce a weeded seedbed, simply broadcast Cyanamid at the rate of 50 lbs. per 1000 square feet on the surface of a prepared seedbed, and rake lightly. Water thoroughly and keep moist during a 3-4 week waiting period. Result: a practically weed-free seedbed, ready for the production of the finest turf.

USE A COMBINATION OF THESE PRACTICES to produce better fairways, greens and park turf... the modern way... the Cyanamid way. Remember—Cyanamid contains 20% long-lasting nitrogen—it fertilizes and weeds in one operation. Write today for additional information on the Cyanamid way to better turf.

Supplies of AERO Cyanamid, Granular, are now available. See your nearest fertilizer dealer. If you find Cyanamid difficult to obtain, please write directly to American Cyanamid Company.

West Point Products Corporation West Point, Pa.
Necessary for Fall Renovation

the AERIFIER*

Many golf course superintendents consider the Aerifier a necessity for fall renovation. All other treatments show up better as a result of aerifying. Aerify to obtain greater value from fall fertilizer application. Aerify to allow seed to come in contact with soil. Aerify so fall rains can soak deep into the soil.

The Aerifier breaks through crusted soil and matted plant remains at the surface. It stirs and loosens soil in the root zone. The Aerifier is just one tool in the maintenance program, but it is an important one.

You cannot revive turf on wornout soil. Renew the soil with the Aerifier as the first step in the renovation program.

Here is the
Shower Head that's
AUTOMATICALLY
SELF-CLEANING
each time it's used
NO CLOGGING • NO DRIPPING

There is no shower head like the new SLOAN Act-O-Matic. The exclusive feature which sets it apart from all others is its automatic self-cleaning action. The unique spray disc moves downward into shower position when the water is turned on. A cone-within-cone spray of maximum efficiency is delivered. When the water is turned off the disc is moved upward, draining the head instantly.

Because the water is completely removed, the Act-O-Matic shower head does not clog or lime up, and therefore it will not deliver irregular or distorted spray patterns. The Act-O-Matic is also economical in use. It saves water, fuel and maintenance service. (Institutional models available.)

TURF that Speaks for Itself!

MILORGANITE IS USED REGULARLY BY HENSON MAPLES AT PINEHURST

During the winter season from early fall until late spring of the following year, Pinehurst is a paradise for golfers with four fine courses to choose from and another nine holes in prospect.
Henson Maples, and his father — Frank Maples — before him, have the reputation of producing and maintaining as fine winter greens as there are in the south. Even the best golfers consider their greens the equal of bent grass greens in the North.
Year after year Henson and his father have used and relied upon Milorganite because they believe it to be the best source of nitrogen for rye grass greens.

The NEW Model
FERGUSON
NIGHT
CRAWLER
GREEN AERIFYING
MACHINE
—with these 12 important improvements:

1—New one-piece, die formed, hot rolled 3/4 in. steel frame. 2—New, stronger one-piece cast ram housing. 3—New, durable airtight compensating bellows protect ram bearings. 4—New jack shaft casting assures positive chain and belt alignment. 5—Uni-ball joints replace upper Pittmans at walker beam ends. 6—New one-piece head casting assures walking beam bearing alignment. 7—Yoke springs have been eliminated. 8—New one-piece steel tube handle; vibration reduced to amazing degree. 9—New one-piece axle construction. 10—New belt guard and deep groove pulleys. 11—New, heavier single main chain and sprockets. 12—Oilite bearings throughout. Abundantly powered with AKN Wisconsin engine. Change-over kits are available for all previous models.

More than ever, in this new model, the power driven, vertical tine action of the NIGHT CRAWLER proves outstanding in its operating advantages and its fast, clean-plug aerifying results. It really works turf improvement wonders, with trouble-free efficiency, safety and economy.

LET THE NIGHT CRAWLER PROVE TO YOU THESE 10 DISTINCT ADVANTAGES:

1. No damage to putting surface. The Night Crawler can be used any time.
2. More holes per square foot.
3. Deeper penetration under all conditions.
4. Fast (18 greens in two days).
5. Clean cutting tines will not transplant crabgrass and Poa Annua.
6. Turns around on green while in operation.
7. No mechanical clutches — cam operated from one lever.
8. Climbs steep banks and approaches.
10. Straight-in straight-out aerification.

"AGRICO greens show excellent growth and color"

Regular feeding of AGRICO COUNTRY CLUB for greens has always given my greens excellent growth and color," reports Cosmo Piantedosi, superintendent at Commonwealth Country Club, Newton, Mass.

"In November, I applied AGRINITE to my greens after I last cut them," he goes on to say. "The results in the spring were very good. The color was good, too, and remained a long time. Also the turf thickened up considerably. Use of Agrico and Agrinite has given me the utmost satisfaction and I shall certainly continue to use these fine products."

Order Agrico now — it’s America’s premier Golf Course Fertilizer. Contains both organic* and inorganic plant foods. Ask your regular supplier or write to The AMERICAN AGRICULTURAL CHEMICAL Co., 50 Church Street, New York 7, N. Y.

*Organic derived from AGRINITE, the better (over 9% nitrogen) all-organic plant food.
host. Then to Ft. Worth and the super blue plate special and oratorical classic back in the old home town with the J's of Texas ringing clear. Now Ben is sure enough worn down and badly in need of a rest. People forget that the nature of his nearly fatal injury is such that he can't subject his system to beating that would crack an iron man.

Hogan, when he gets rested, intends to start a custom-made club plant in Ft. Worth. Says he doesn't want a big business, but strictly de luxe clubs with some new features. Doesn't plan to play in any competitive event prior to 1954 Masters' . . . His decision means he won't play on the PGA's Ryder Cup team at Wentworth, Eng., Oct. 2-3.

Next to Hogan's conquests biggest national golf publicity this year has been on Babe Zaharias and her valiant battle against cancer. Babe's return to competition in George S. May's World championships at Tam O' Shanter, Chicago, made sports page headlines all over the world. George opened his gala schedule with big cocktail party and dinner to foreign contenders.

WORRIED ABOUT "BALLOONING" MAINTENANCE COSTS?

A Royer Compost Mixer will help bring them down. This labor-saving machine reduces the time needed for manual preparation of compost and top dressing by as much as 89%. Expensive, hard to get man-hours can be spent on other essential golf course maintenance.

Further, the top dressing prepared with a Royer is perfectly mixed and shredded, finely granulated, completely aerated and free of all trash. Spreads quickly and evenly, furnishing food to hungry greens.

Many sizes available in electric motor, gasoline engine or belt-to-tractor drives. Write for Bulletin 46 giving complete details.
