Near you is a Briggs & Stratton service organization — factory trained and supervised — ready to tune up, repair or rebuild your Briggs & Stratton engines with original Briggs & Stratton parts.

If your Briggs & Stratton engines are not busy during these winter months, now is the ideal time to have them serviced — to insure continued peak performance.

Only Briggs & Stratton maintains such complete world-wide authorized service facilities — a big "plus" you get only when you specify Briggs & Stratton engines on gasoline powered equipment you buy and use.

MEMBERS WANT
FULLY SATISFYING SHOWER BATHING

This all clubmen know: that fatigue from work or play can be washed away and the feeling of fitness restored if the shower is completely satisfying. To measure up to their wants the SHOWER HEAD must deliver a full spray, evenly distributed in an undistorted pattern, and directed as desired.

Management Wants Gratified
Members and MONEY SAVINGS
— BOTH ARE THE CONTRIBUTIONS OF

THE NEW SLOAN
Act-O-Matic
SHOWER HEAD

In this revolutionary new shower head you get the Desired Dozen Features:

1. Self-cleaning. Patented automatic action thoroughly flushes the interior of shower head with each use.
2. No clogging. All clogging particles are automatically and completely discharged.
3. Simple, reliable, long-lasting. Only one moving part inside the solid brass, high chrome finished housing.
5. Fingertip volume control. Foolproof volume control increases or decreases rate of water flow to suit bather.
7. No dripping. New design principle prevents dripping after shower has been turned off.
8. Water economy. Exclusive design provides efficient bathing with big water savings.
9. Fuel savings. It costs money to heat and pump water; thus water economy means saving of costly fuel.
10. Maintenance eliminated. Since this shower head is always free from clogging and other faults it requires no servicing.
11. Easily, quickly installed. Equipped with connector that fits all standard shower arms on old or new installations.
12. Vandal-proof model. To prevent tampering or theft, a vandal-proof model is available at slight additional cost.

**“Percentage of Bent Increased with AGRICO”**

Solid bent fairway at Lochmoor Country Club, Detroit in Spring 1952. Extensive areas had been flooded out. But by August turf had made an excellent recovery. G. Ward Cornwell, superintendent (and president of the Michigan and Border Cities Golf Course Superintendents Association), explains it thus:

“In our use of AGRICO COUNTRY CLUB Fertilizers here at Lochmoor, I have preferred the 6-10-4 analysis. Our aim has been to steadily increase the percentage of creeping bent in our fairways, and I feel Agrico Country Club 6-10-4 has been a big help in this direction.” Mr. Cornwell assures us that he believes Agrico encourages and promotes the spread of healthy creeping bent.

Order Agrico now—it’s America’s premier Golf Course fertilizer—contains both organic* and inorganic plant foods. Ask your regular supplier or write to The AMERICAN AGRICULTURAL CHEMICAL CO., 50 Church Street, New York 7, N. Y.

*Organic derived from AGRINITE, the matter (over 8% nitrogen) all-organic plant food

Now you can be one of the many 
Golf Course Superintendents that 
have already discovered the 
numerous cultural and economic advan-
tages of liquid feeding with FER-
MEL.

A few of the outstanding benefits 
obtained from FER-MEL are:

Simple and positive GROWTH 
CONTROL of putting green turf, 
especially during periods of ad-
verse weather conditions.

Simplicity in maintaining a 
normal, steady growth during summer 
months; with healthier, disease resis-
ting turf.

You will be pleased to learn the 
low cost of FER-MEL plus its la-
bor-saving economy.

Webster Evans, in Golf Illustrated, London, says that R&A alarm about shortage of funds to finance 1953 British Walker Cup team calls attention to need of British golf financing plan instead of passing the hat ... R&A letter posted in British golf clubs says unless golf clubs are generous the Walker Cup competition will have to be abandoned ... Evans is in error saying 1953 Walker Cup competition will be at “Merion Club, Mass.” ... It will be played at Kittansett Club, Marion, Mass., Sept. 4 and 5.

Tom Boyd, 64, for 38 years a pro in the NY Met dist. and for past 18 years pro at Dyker Beach muny course at Brooklyn, died in Maimonides hospital, Brooklyn, Nov. 29 ... Boyd had been in poor health for several years ... Boyd, a native of Belfast, Ire., for 21 years was pro at the defunct Fox Hills GC on State Island ... He was a pioneer PGA member and official and was a vigorous factor in building that organization ... He is survived by his widow and a son, Capt. Thos. W. Boyd, US Army ... Boyd was a beloved and valuable builder of American golf and many a pro and amateur benefitted from his help and service, former collegiate golf star, has been in pro golf for 3 years in Detroit dist. ... Porky Oliver-Norman Von Nida hassle during Ampol tourney in Australia settled amicably when the boys practically kissed and made up before Oliver’s return to the USA ... The Von’s putter seems to have started jumping like a kangaroo and he blamed it on Porky ... Oliver later withdrew from the tournament ... Poor planning apparently accounted for crowd complaint about Mangrum and Oliver not going through with clinic program for big crowd at Waratah club ... Mangrum shot a 68 exhibition round there and won Ampol tourney at Melbourne by one shot from Peter Thomson in exciting Mangrum finish.

Pat Stanley, protege of Jack Mackie when Jack was at Inwood, signed as pro by Island Hills CC on Long Island ... Club in beautiful location and recently changed to private organization ... Extensive course rebuilding job being done ... Florida pros report winter play hasn’t had the early rush it got in the 1951-52 season ... Indoor class lessons among office and factory workers in north seem to be far in excess of any previous winter.
