Here's a great new asset to a more successful range operation! Flexi-Fabrix combination range mats — the dual purpose mats that are increasing play and profits in hundreds of ranges all over the country. They have stopped turf destruction, drastically reduced costly maintenance expense and most important — have doubled and tripled play on every mat! Customers can now play faster, better and will continue to come back for more. Large replaceable mat insert provides a soft "grass" lie for irons, and firm "tees" insure a proper foundation for wood shots. Low in cost, easy to install, they're tough, long lasting and practically indestructible. Made of 7/8" thick airplane tire carcasses. All clamping plates are cadmium plated to resist rust and are rubber covered to prevent club damage. Ideal for indoor and outdoor use and perfect for "par-3" golf courses.

FRED HAAS CLUB CLEANING & POLISHING MACHINE

In the new 1954 model we have realized our ambition to perfect a machine that enables the professional to maintain the highest standard of club cleaning service.

Among the improvements are: a new impeller type electric motor assures positive flow; new, permanent aluminum brush backings; double extension of main drive shaft with wool drying or polishing bonnet at one end and fine soft wire brush at opposite end for removing heavy ball marks on irons.

* Cleans grooves on both woods and irons * Cleans all or any one spot on clubs * Clean—no splashing or dust nuisance * Simple and safe to use—no mechanical knowledge required for proper operation or maintenance * Speedy for "peak" period operations * Cleaning solution continuously filtered * One year guarantee on material and workmanship * Practical, dependable—it really does the work that gives "Member Service Deluxe".

Simple, fast, efficient—streams of a non-rust polishing wax fluid mixed with water play on rapidly revolving wear-resistant nylon brushes to accomplish a completely efficient job with safety and speed

Price . . . $300

A. BRUSHES: DuPont nylon bristles set in permanent aluminum backings. Backings split in halves for easy accessibility in rotating or replacing brushes. Cleans both Woods and Irons.

B. PUMP: Quiet, efficient, impeller type, electric pump. Permanently sealed and lubricated. Provides a continuous circulation of cleaning fluid.

C. BEARINGS: Heavy-duty, self-aligning, ball bearings. Require a minimum of attention.

D. WIRE BRUSH: Fine, soft brass wire brush. Whisks excessively heavy ball marks off rapidly and easily.

IT TAKES CONSISTENT PERFORMANCE ON THE GREEN to be one of golfing's all-time greats

The final test of a champion golfer is his consistent accuracy in putting. And the final test of a greens mower is its ability to work day after day, green after green, and produce the same flawless putting surface every time. That's why golf course superintendents everywhere have come to bank on Jacobsen. Its balance, precision and dependable power have established this greens mower as an outstanding performer.

Let your dealer show you the many quality features that have made the Jacobsen Greens Mower standard on America's fine courses.

"AGRICO greens show excellent growth and color"

— Cosmo Piantedosi, Superintendent, Commonwealth C. C., Newton, Mass.

"Regular feeding of AGRICO COUNTRY CLUB for greens has always given my greens excellent growth and color," reports Cosmo Piantedosi, superintendent at Commonwealth Country Club, Newton, Mass.

"In November, I applied AGRINITE to my greens after I last cut them," he goes on to say. "The results in the spring were very good. The color was good, too, and remained a long time. Also the turf thickened up considerably. Use of Agrico and Agrinite has given me the utmost satisfaction and I shall certainly continue to use these fine products."

Order Agrico now — it's America's premier Golf Course Fertilizer. Contains both organic* and inorganic plant foods. Ask your regular supplier or write to The AMERICAN AGRICULTURAL CHEMICAL Co., 50 Church Street, New York 7, N. Y.

*Organic derived from AGRINITE, the better (over 8% nitrogen) all-organic plant food.

After a dieldrin treatment

"The green grass grows all around all around!"

Top quality turf in fairways, parks and estates is at the mercy of many varieties of turf pests both above and below the ground.

With dieldrin you can be sure of getting dependable turf pest control. Tested in all areas, dieldrin has proved that such turf pests as Japanese beetle grubs, white grubs, lawn chinch bugs, sod webworms, cutworms and others cannot survive dieldrin's lethal power, above or below ground.

Dieldrin is available in three forms—1 to 5% granules, 25 to 50% wettable powders, and 1 1/2 lb. per gallon emulsible concentrate. Any of these three formulations are easily applied with conventional equipment.

Technical information on dieldrin and its application is available on request.
