rental boats for the members.

Our membership at present is close to 200 stockholders and about 40 non-resident members from nearby towns. Our stock is still only $100 per share, with $61.00 yearly dues.

Local people can only come to the club as guests four times a year; but we have no limit on guests from outside the county. The “four times a year” rule is waived in the case of teen-agers. They can come as guests of members as often as they like but all guests must be accompanied by a member at all times.

Our golf course is open to the public by paying the green fee of $1 on week days, $1.50 on Sundays and holidays. We have made numerous changes in our original rules to meet the occasions. All in all, I believe we are organized on a pretty sound basis throughout. I honestly believe that we have one of the finest small town clubs in United States. It will continue to improve.

Like all other clubs the world over, we still have a few members who will not repair ball divots on the greens and think only of themselves; but most of the members are considerate of others and are proud of our club.
