 Entirely New Golf Ball

Sales to date prove it! The Wilson energized liquid center ball provides the fastest getaway in golf!

- **New green X2F additive** in center sets off power reaction the moment your club touches the ball.
- **New more elastic rubber thread** seems almost alive as it accelerates the power transmission.
- **New dry lubricant** on thread eliminates any chance of reduction in power—makes the rubber strands extra lively under impact.
- **New Wilson cover** makes room for 24 yards more live rubber thread... this dynamic new ball leaps off your club face, rolls true for the cup.

This exclusive power construction is in both great Wilson golf balls...
