Rx for healthier turf this summer:

SUPER REEL Aerification
followed by

VERTI-CUT® Mowing

Better Water Penetration

With the West Point SUPER REEL Superintendents get four-way aerifying with just one operation. SUPER REEL'S many more spoons and accurate depth adjustment mean thorough cultivation at the right depth for the kind of turf... type of soil... section of the country... time of the year.

Aerify with the SUPER REEL this summer to keep the soil open for better water penetration and greener, healthier turf.

Better Disease Control

The blades of the Verti-Cut mower cut down into turf to trim thru runners and outspread leaves. Verti-cutting removes dead material that harbors disease. It controls thatch which complicates every phase of management.

No need for heat and humidity to give you a hard time this summer. Follow the proven prescription: SUPER REEL aerification and Verti-cutting.

FORD ... FOR TOP PERFORMANCE
WHEN YOU'RE UNDER PRESSURE

Golf course maintenance is a year-round problem and Ford owners keep their tractors working steadily from job to job and season to season. But one big reason for Ford's popularity is its performance as a "pressure partner."

When peak-summer sun is searing greens and wilting fairways... when heavy rains seem to double the speed of turf and weed growth... when any extreme of weather adds to the work load and all parts of the course need help at once... Ford rises to the occasion with the fire of a challenger and the steadiness of an "old pro."

Quick-change versatility and fast transport permit quick handling of many jobs all over the course with no lost time, no lost motion. Simple design makes Ford operation as easy as driving an auto. And the new Ford tractors, as always, take it easy on your turf, provide featherweight footwork with heavyweight lugging power! Check your nearby dealer for more details, or write to Tractor and Implement Division, Ford Motor Company, Birmingham, Michigan.

YOU SEE MORE FORDS BECAUSE THEY SAVE MORE MONEY!

June, 1958
Beautiful Pine Hollow Country Club in East Norwich, New York, one of America's leading courses, is host to the Pepsi Open, June 25-29.

Since the beginning of the course, three years ago, ARMOUR VERTAGREEN has been used to condition the turf. Proof of VERTAGREEN superiority is in this comment from Carl Fechter, greens superintendent: "We tried other makes of plant foods but found none could compare with VERTAGREEN for holding color and heavy turf, even through hot, dry weather."

VERTAGREEN gives superior results, builds a dense, deep-rooted drought-resistant turf of outstanding health and color. It's the best plant food for your golf course; because VERTAGREEN is specially formulated to promote sturdy, healthy growth for greens, fairways and tees. VERTAGREEN is fine for trees and shrubbery.

Start using longer-lasting VERTAGREEN now... and maintain the finest playable turfgrass.

ARMOUR FERTILIZER WORKS

- LOWER REPAIR COSTS

THERE'S A ROSEMAN MOWER TO FIT EVERY GOLF COURSE NEED

ROSEMAN MOWERS

Roseman Mowers do a beautiful mowing job. There are also many outstanding features that make ROSEMAN your best buy.

Park Challenger mowers raise hydraulically for quick transport between scattered sites. Note how roller design overhangs curbs, trimming as it goes. A tremendous labor saver. Cannot be done with wheel-type mowers where outer wheel drops off curb or trap. This exclusive ROSEMAN trimming feature also applies to flower and shrubbery beds. Roller design also eliminates unsightly wheelmarks for a beautifully cut turf.

High mowing costs, wasted man hours and exorbitant repair bills are not found in gang mowers of Roseman design and quality.

Save on Labor
The exclusive labor saving ability of the Roseman hollow-roller-drive gang mower to overhang traps and edges of shrubbery beds and to cut close to fences and structures, eliminates the need for much hand trimming. Hundreds of man hours can be saved or devoted to other tasks.

Save on Time
Roseman mowers are rear drive mowers that mow faster, more uniformly without kicking up the rear. Considerable savings in mowing time and man hours.

Save on Equipment
Roseman mowers with lift hitch are combination rough and fairway mowers. Rough areas can be maintained faster, at less cost, with no expense for additional gang of mowers. Just flip the mowers into high cutting position. Also a time and money saver in mowing flooded or low lying fairways where grass sometimes "gets away" before tractor can get in.

Save on Repairs
Exclusive non-breakable malleable side frames and bed knife shoes. Heavy duty tough chrome nickel alloy steel reel blades, riveted—not welded—to avoid soft spots and breakage and give long life. Timken adjustable bearings and vanadium steel long-life bed knives assure faithful service for many years and almost non-existent repair bills.

Compare 'em all
You are invited to compare the Roseman mower with any other mower. Be sure and compare Roseman quality, design features, low upkeep costs, and performance. We believe that you, too, will join the swing to Roseman mowers.

BENT GRASS STOLONS

- Washington • Cohansey (C7)
- Congressional (C19)
- Arlington (C1) • Pennlu

Our stolons are true to name, weed and seed free and in vigorous growing condition. As a proof that we know how to keep our strains pure, our present Washington exactly matches that we sold in the 1920's.

A Reliable Source of Supply Since 1920
HIRAM F. GODWIN & SON
NEW! 20% STRONGER FORMULATION
makes DI-MET Crab Grass Killer even more effective!

NEW LOWER PRICE FOR GOLF COURSES

Now bulk users of Liquid Di-Met get the advantage of a pepped up formulation and pay less for it! Your overwhelming preference for Di-Met, the country’s No. 1 Crab Grass Killer, makes it possible for us to give you more for less. The new 30% DSMA Hexahydrate formulation is available in gallon, 5-gallon, and 50-gallon drums. See your supplier, or write direct.

DI-MET Concentrated Water Soluble Powders in 3 Formulations

These Di-Met Powders can’t be beat for ease of application in any spray equipment, or for greater kill at lower cost. Compare the active ingredients in these Di-Met Powder compounds with those in other DSMA products. See how much more coverage you get for the money.

DI-MET 98% Powder. DSMA Hexahydrate 98% (as anhydrous 61.5%, Total arsenic 25%). Safest and most effective crabgrass and dallis grass killer. For bent putting greens and other turfs.

DI-MET 90 WA. DSMA Hexahydrate 90.27% plus concentrated Wetting Agent. For faster action and greater penetration.

DI-MET Plus 2. DSMA Hexahydrate 61.74%; plus 2,4-D Sodium Salt 26.75%; plus concentrated Wetting Agent. Fastest acting crabgrass and dallis grass killer ever offered! Synergistic action of formula kills more kinds of weeds and obnoxious grasses than separate applications of DSMA and 2,4-D.

O. E. LINCK CO., INC.
Dept. G., Clifton, N. J.

You need these LINCK products, too, for your COMPLETE TURF MAINTENANCE PROGRAM

MO-GO — Kills moles and gophers. Preferred since 1938.

LINCK’S LAWN FUNGICIDE — A 10% mercury formulation. For brown patch, dollar spot, Helminthosporium leaf spot and turf spot, gray leaf spot, Curvularia melting-out.

STAYZ-GREEN — Safe pigmented compound produces lush green turf color instantly. Fade and water resistant.
MODERN Heavy Duty Lawn Mower Sharpener

Fastest most accurate lawn mower sharpener ever used. Sharpens all mowers, power, greens mowers or fairway units. Bed knives may be sharpened without removing from mower. Full floating rails may be turned as desired, retain perfect alignment. Grinding head feeds in or out and will hollow or flat grind.

MODERN Bed Knife Grinder

Engineered for grinding power mower, greens-mower or fairway mower bed knives as well as most other straight edge tools. Clamps adjust to hold any length blade. Blades rest against solid base when clamping, eliminating all distortion. 100% steel, precision ground rails, 1/2 HP Motor.
