Compact, cellophane-overwrapped tray has been adopted by Plymouth Golf Ball Co., Plymouth Meeting, Pa., for merchandising new Stylist steel-center ball. Tray is sparkling showpiece and gives extra long heat seal. In red, white and blue, it is divided into three sections.

**Ball Mark Eraser for Superintendents**

A ball mark eraser made by Poppet Corp., 8707 Hudson blvd., North Bergen, N.J., is a tool recommended for the supt. by the manufacturer. It works through a series of pins (about the size of nails) in a cluster that is pressed into the soil and then withdrawn. The cluster removes compacted turf which has been pressed between the points of the pins. To remove the ball mark, the pin cluster is withdrawn through matching holes in the base. The base plate strips off the turf at the ground level. In practice, the turf is merely raised to ground level and is not actually torn away from surrounding turf. The Poppet Ball Mark Eraser can be bought on a money back arrangement.

**Halts for Crabgrass Is New Scott Product**

Halts is the new product developed by O. M. Scott & Sons, Marysville, O., to help beat the crabgrass problem. It is said to kill crabgrass seeds as they sprout and without thinning the turf or causing it to turn an unsightly brown. Tests, Scott says, have proved that as high as 95 per cent of the summer crabgrass crop can be destroyed by pre-emergent treatment. Halts and all Scott products are specially priced to golf courses.

Pedersen Sales Co., Wilton, Conn., has added a “guide” to its full-finger golf glove, that it is said, automatically shows the golfer the correct position of the left hand on every shot. Pedersen’s “Hold-Rite,” for men and women, in black leather is specially treated to a fine tackiness to help with the grip.
MacGregor Flame Ceramic Irons on Launching Pad

Taking a cue from aircraft and missile engineers, MacGregor is using powdered ceramic material in its new FC-4000 Flame Ceramic irons. The ceramic is fused to metal at 4,000 deg. F for wear resistance and longer “touch.” What is said to be unique vertically scored black face permits the player to frame the ball for easier line up. The new Pro-Pel Action shaft has exclusive stepdown pattern and graduated wall thickness that is claimed to give increased power. FC-4000 is available in four flexes.

Linck Has Weed Control Product for Southern Turf

For its Southern market, O. E. Linck, Inc., Clifton, N. J., is offering TAT-42, said to be a true pre-emergence weed control especially compounded for Bermuda and St. Augustine turf. A single application lasts from three months to a season, according to the manufacturer, and it works on weedy grasses as well as broadleaf weeds without injury to turf.

Five Uses for JR-1 Aerifier

In its West Pointers bulletin for March, West Point Products Corp., West Point, Pa., points out that the JR-1 Model Aerifier can be used in five different ways: (1) with standard Aerifier Reel; (2) with Super Reel; (3) with Spiker Reel; (4) with Roller attachment; and (5) with Aeri-Punch. The company reports that at the GCSA show in Chicago, the Aeri-Punch was getting the most attention from supt.

Reinforced Rubber Matting

Ace Kleen Sweep All Purpose matting, made by Ace Rubber Products, Inc., Akron, O., is said to be extra durable, resisting spikes and hard wear. It is made of a wear-resistant rubber compound reinforced with chopped rayon and nylon fibers. It has been thoroughly tested in lockerrooms, field houses, bowling alleys, etc.

Pins for Lady Golfers

For the lady golfer, Shirley Spork, PO Box 637, Palm Desert, Calif., is offering pins and charms in 14k gold. They are recommended as gifts or for tournament prizes and are said to reflect superb taste and excellent craftsmanship. Catalog information can be obtained by writing to Miss Spork at the above address.
Hillerich & Bradsby officials and sales reps are shown at annual Power-Bilt meeting, held in Louisville's Brown Hotel, Mar. 5-6. Lady Goodwin Grip Prevents Slipping, Absorbs Shock

The "Lady Goodwin," manufactured by C. S. I. Sales Co., Solon Center Bldg., Solon, O., is especially designed to help women improve their golf. Even when a club is held lightly, the manufacturer says, the grip's textured surface prevents fingers from slipping. Of resilient rubber compound, the cushioning action of the grip absorbs shock. In wrap-on style, it can be ordered for new or old clubs. The color combination is shadowlight gray with vermilion stripe.

Swinging Around Golf (Continued from page 97)

by champion liars ... Trend of suburban development being directed in several cities by owners of considerable acreage giving property for course that will boost value and quicken salability of real estate near course.

Travel agent proposed charter plane flight in early May for members of Illinois Seniors' Golf Assn. and their families from Chicago to Europe and return ... Plan to play courses in England, Scotland, France, Switzerland and Europe in 3 weeks.

Edward R. Carr, Inc., developers and home builders having Springfield (Va.) CC 18-hole course built to plans of Ault and Jamison ... Will have about 500 homes surrounding course ... Interesting part of this project is that it isn't especially suitable for home sites but is fine for golf ... John E. Warner expects to open first 9 of his Silvermine GC, Norwalk, Conn., on Memorial Day ... Pete Zan-
