Yardley offers a complete service for designing, recommending and supervising the installation of your watering system.

You can have a long-lasting, dependable watering system, even on a modest budget. The ease and speed with which K pipe can be installed saves time and money. Reports show savings as much as 50% to 75% of ordinary installation costs.

Yardley K pipe is made of high-tensile, high-temperature Kralastic material. It can’t rust, rot or corrode; it is light weight — about 1/8th the weight of iron pipe — yet offers up to 40% less friction or pressure drop.

Let us estimate your requirements.

Full Water Economy

Positive, adjustable-speed control guarantees full water economy and maximum efficient coverage over large turf areas. Sandproof bearings and self-cleaning heads mean longer sprinkler life, lower maintenance costs. Use with Buckner's Quick Coupling Valves or hose stands.

See your Buckner Dealer

For more than a year there's been hot controversy in Springfield, Mass., about moving 110-acre Memorial Park muni course to another site and selling present site as factory locations. Veterans' organizations and muni course players apparently not sure that city will quickly build a good course replacing Memorial. Others say that Memorial property would attract new factories and provide new jobs the area needs, particularly in view of Westinghouse transferring production to an Ohio plant and leaving 1,500 Springfield area employees facing loss of jobs. Southern communities making strong and effective feature of excellent golf at moderate prices in attracting industry.

Dayton, O., proposes to fit two new public courses into flood control plan. Suffolk County, N. Y., considering 18-hole course in Yaphank to be built by prison labor. Prescott Bush, jr., son of U. S. senator and former USGA pres., named chmn. of committee to prepare report on feasibility of muni course at
and you’ll buy ROSEMAN GANG MOWERS - - - - 
Every Time

Why Roseman
High mowing costs, wasted man hours and excessive repair bills are not found in gang mowers of Roseman design and quality.

Save on Repairs
Exclusive non-breakable malleable side frames and bed knife shoes. Tough chrome-nickel alloy steel heavy duty reels with riveted blades—not welded—to avoid hard spots and breakage. Timken adjustable bearings. Vanadium steel bed knives. All assure faithful service for many years with almost non-existent repair bills.

Save on Labor
Exclusive ability of Roseman hollow-roller-drive gang mowers to overhang traps and shrubbery beds and cut close to fences and structures eliminates the need for much hand trimming. Hundreds of man hours can be saved or devoted to other tasks.

Save on Time
Roseman mowers are rear drive mowers. They mow faster, more uniformly without kicking up the rear. Faster mowing with considerable savings in time and man hours are the result. To say nothing of smoother cut fairways.

Save on Equipment
Roseman mowers, with combination rough and fairway hitch can be used to mow areas quickly and at less cost. No need for the smaller club to buy an additional gang of rough mowers. Just flip the mowers into high cutting position. Also useful where grass on rain flooded fairways “gets away.”

Compare ’em all
You are invited to compare the Roseman mower with any other mower. Be sure and compare Roseman quality, design features, low upkeep costs, and performance. We believe that you, too, will join the swing to Roseman mowers.

STOP 5 MAJOR TURF DISEASES WITH 1 FUNGICIDE...

BROAD-SPECTRUM kromad

BROWN PATCH ▲ RED THREAD

DOLLAR SPOT
ORDER YOUR KROMAD NOW!
If you aren't one of the thousands of superintendents who have already proved the benefits of a preventive program with KROMAD, the original broad-spectrum fungicide, don't delay any longer...see these benefits on your greens now.

PREVENTS FIVE MAJOR DISEASES
Spring, summer and fall...thousands of golf course superintendents now depend on KROMAD. Dollar spot, copper spot, red thread, brown patch or leaf blights such as those incited by Helminthosporium and Curvularia...KROMAD stops them all.

Call your MALLINCKRODT DISTRIBUTOR today for prompt service on KROMAD and other turf suppliers.

EASY TO USE—SAFE FOR TURF
KROMAD is available in 25-pound drums and handy 2-pound boxes. Under normal conditions apply 2 oz. per 1,000 sq. ft. every 5 to 7 days. During severe disease weather, you may use 4 to 6 oz. per 1,000 sq. ft. KROMAD won't harm the finest turf! You save spraying time and labor costs, too.

SPRAY APRONS, TOO...
It makes good sense to keep disease away from your greens.
for construction of park included amount earmarked for course which hasn't been started.

PGA National course at Dunedin, Fla., being extensively reconditioned with several fairways and greens being rebuilt in an effort to correct conditions that had pros screaming and embarrassed every winter when they played the PGA Seniors' championship at Dunedin or brought members from their home clubs as guests. Some pretty good course maintenance men were unable to lick the problems rooted in bad construction and years of neglect. PGA Executive committee, Frank Sprogell and/or anybody else who made the decision for a major operation may have solved an expensive problem that has plagued the organization.

PGA spokesman says nothing doing yet on proposals to have PGA course at Naples, Fla., as part of real estate deal, or on offers for PGA to promote a course at other localities away from PGA headquarters at Dunedin. Raritan Valley CC, Somerville, N. J. in its new $300,000 clubhouse. Highest score recorded in golf is believed to be 236 made by Mrs. Phyllis Randell on par 72 Bob-o-Link in Detroit district. It was Mrs. Randell's second game. She played in the National Golf Day competition and should get a medal for honesty, endurance and mathematical competency.

Robert E. Parks elected pres. of private club that's building course at Ft. Myers, Fla. Dick Wilson designing course. Start building course, clubhouse, pool of Country Club of Ft Collins, Colo. To build Mason County CC course at Point Pleasant, W. Va. Ocean City (Md.) Golf & Yacht Club 18 opened. Rut Coffey is pro and George Gumm, supt. Fort Custer GC building new course at Hardin, Mont.

Mary Diane, daughter of Mr. and Mrs. Harold Sargent married to James Paul Nowlen, jr., June 1 at Southside Baptist Church, Anderson, S. C. The pretty daughter of the PGA pres. is a journalism student at the University of Georgia and so is her husband. Best of luck to the happy team in writing That Book.

Wellesley CC, Framingham, Mass., plans selling present 9-hole course and building 18-hole course to design of Robert Trent Jones. Organize to build course at Wilson, N. C. Open second 9 of Tennanah Lake House course at Roscoe, N. Y. Vee Lawkins is pro

In September of 1957, Superintendent Stephens first applied AGRICO FOR TURF 10-6-4 WITH UREA FORM to the greens at Niagara Falls Country Club. The following spring, Mr. Stephens had this to say:

"We now have a firmer turf and much deeper roots than ever before. And even more striking, the lasting power of AGRICO U. F. was much longer than any other fertilizers I have tried. The fall application held through the winter, and gave my greens a good early start this spring. I am well satisfied with the root growth and the color it produced. I am using AGRICO again this year in my feeding program."

Your Ryan Sod Cutter Investment Now Pays These Dividends

The versatile Ryan Sod Cutters do many important turf maintenance jobs. First and foremost, with Ryan Super-Kut blade, you can cut all types of sod, even finest bent grass varieties without tearing. Sharp blade edge slices toughest roots easily, producing perfect, uniform sod.

Ryan Tilling Blade is ideal for loosening and pulverizing compacted soil up to 3 in. deep. Insures a fast start for new sod or seeding. Use as cultivator between row planted stock to control weeds.

Ryan Edging Blade eliminates 90% of your edging problems. Trims sharp, neat edge up to 3 in. deep and 4 in. wide around sand traps, base lines, flower beds, walks, driveways, etc.

Ryan Stripping Blade simultaneously cuts two 3 in. strips of sod for transplanting into established turf areas. Ideal for introducing new strains of Zoysia or Bermuda without marring appearance of fairway or lawn.

Ryan Trenching Attachment cuts a 7 in. deep trench for easy installation of underground sprinkler systems. Turf can be easily replaced in original position to quickly eliminate all signs of construction.

Ryan Aerating Blade cultivates subsoil to 3½ in. depth; clean narrow slit leaves turf undamaged. Blade points break up compacted soil in root zone, facilitating healthy growth.

LANDSCAPING EQUIPMENT

DAVIS SPRINKLERS
The prime requisite of fine turf, greens, tees, fairways and lawns is a sprinkler which can give uniform distribution and coverage of large areas, rotate evenly and stand up under hard usage. We have sprinklers with these and many more qualities. Write us today

George A. Davis Inc.
5440 Northwest Highway, Chicago 30, Ill.
More lugging power with the Model “G”. This rugged tractor pulls 9-gang units up hills that other tractors can barely climb with 7-gang mowers. That’s because the Model “G” is geared properly for mowing.

Here’s a mowing tractor that defies comparison…the Worthington Model “F” Tractor. Test it today on your own grounds! See how this unique tractor cuts the grass before any wheel can mat it down. Out-front mowers reduce the width of overlap…cutting more acres per hour!

The “F” is available with Fairway or Blitzer mowers. Either type may be used with “Wing-Lift” control that makes the “F” a versatile mowing combination. With a choice of 3-, 4-, or 5-gang capacity, the “F” can cut in areas usually mowed with power-mowers. Try cutting right up to an obstruction, lift a wing unit till you clear, then quickly lower it. Saves hours of hand trimming.

Here’s a mowing tractor that’s the finest available for large area grass maintenance. Put it to the test on your own turf at your own convenience. Ask for a NO OBLIGATION demonstration today!

WORTHINGTON MOVER COMPANY
STROUDSBURG, PENNSYLVANIA

Safest on side hills. Worthington Model “G” Tractor and sickle bars can mow on hillsides as steep as 36° with complete safety to the operator. Eliminate the “upset” accidents of high wheel tractors.

The MASTER Automatic Ball Washer

Designed for Golf Driving Range Use

A compact unit that will handle up to 10,000 balls per hour, to provide clean practice balls for your customers.

In use, balls are dumped on inspection tray, after soaking, and are fed into the inlet tube to the washer, where they are picked up by a stream of water and carried into contact with the revolving brush. Balls are discharged at the top and fed to a receiving basket for drying.

Sturdily constructed, the MASTER Ball Washer carries a full guarantee and is designed for a lifetime of service.
