The Par Light Mfg. Co. is proud to present to you the revolutionary new Quartzline unit. This Quartzline unit features the most powerful filament ever developed and manufactured by General Electric.

Here is a unit for which the sporting and industrial world has been waiting. It has taken General Electric over eight years to develop this source of light. It is far ahead of anything on the market today.

Because of the narrow light distribution available from these lamps combined with a specially designed reflector many applications can be lighted with amazing results.

Manufactured and distributed by General Electric.

Kentucky's Gov. Combs wants to have a course at every state park. Says tourists stay longer if golf is handy. "World's Championship" TV golf matches, which are completed in one hour, including commercials, require 6 to 7 hours to shoot. Carrollton G&CC, Eldersburg, Md., hopes to have its 18 completed in summer. George Conley of Fanwood, N. J., and Lex Lucas of Keyport, N. J., expect to open their Storm View GC 18 in July. Paul Falls succeeds Jack Twiss as pro at Dedham (Mass.) CC. Jack has retired. Talk about building Metropolitan (Boston) District Commission course near Saugus, Mass. Bill Slavik is the newly appointed pro-mgr. of Bidwell Park GC in Chico, Calif.

Sam Eig plans to build 18-hole course adjoining his $15 million apartment building and Motel Washingtonian near Gaithersburg, Md. Mrs. "Dutch" Harrison who has visited a lot of golf clubs and who is a woman of excellent judgment and taste, says Rio Pinar CC clubhouse at Orlando, Fla., is most attractive small clubhouse she's ever seen. Robert Trent Jones designing 27 holes for Quail Hollow Club near Hartville, O., on estate of H. B. Stewart, Jr.

BALL MARKS ON GREENS

with this

DIVOT FIXER

Let's see what punishment the greens must take.
20,000 rounds of golf
means 20,000 shots to each
green.
If 10% hit the greens
it would mean 2,000 holes
per green each year.
Repairing these holes
is useless. The damaged
turf must be repaired at
once to avoid a brown spot.
Make your own test. Just
try to repair an old ball
mark. Then a new one.
Our little Divot-fixer tool
will help you solve this
problem.

Prices: for plain or imprinted

Why not green fairways?...

Use YARDLEY K PIPE for a dependable water system

Yardley offers a complete service for designing, recommending and supervising the installation of your watering system.

You can have a long-lasting, dependable watering system, even on a modest budget. The ease and speed with which K pipe can be installed saves time and money. Reports show savings as much as 50% to 75% of ordinary installation costs.

Yardley K pipe is made of high-tensile, high-temperature Kralastic material. It can't rust, rot or corrode; it is light weight—about ¼th the weight of iron pipe—yet offers up to 40% less friction or pressure drop.

Let us estimate your requirements.

MAIL THE COUPON TODAY.

Mallinckrodt®
PREVENTS FIVE MAJOR DISEASES
Spring, summer and fall... thousands of golf course superintendents now depend on KROMAD, the original broad-spectrum fungicide, don't delay any longer... see these benefits on your greens now.

ORDER YOUR KROMAD NOW!
If you aren't one of the thousands of superintendents who have already proved the benefits of a preventive program with KROMAD, the original broad-spectrum fungicide, don't delay any longer... see these benefits on your greens now.

EASY TO USE—SAFE FOR TURF
KROMAD is available in 25-pound drums and handy 2-pound boxes. Under normal conditions apply 2 oz. per 1,000 sq. ft. every 5 to 7 days. During severe disease weather, you may use 4 to 6 oz. per 1,000 sq. ft. KROMAD won't harm the finest turf! You save spraying time and labor costs, too.

SPRAY APRONS, TOO...
It makes good sense to keep disease away from your greens.

Call your MALLINCKRODT DISTRIBUTOR today for prompt service on KROMAD and other turf supplies.

in good condition are result of improper construction.

Salt Lake City commission approves by 4 to 1 vote, over objection of mayor, J. Bracken Lee, to complete Mountain Dell muny course ... About 500 citizens attended one of biggest, liveliest sessions ever held in the commission's chambers to push for new course completion ... Sale of Forest Dale, old muny course, was expected to pay for 18 at Mountain Dell and 9 at Rose Park ... Hack Miller, Salt Lake Desert News sports editor, commenting on Mountain Dell case said, "The mayor will learn that no other department of city government is so exacting in its bookkeeping and auditing as the city's golf courses whose figures are matter of detailed public records."

Par 3 course building boom grows ... Some of these popular nurseries are in public parks ... Looks to us as though the design of most of them has been especially mindful of player's safety ... Design and construction of these courses present problems of minimizing compaction from heavy traffic ... Another feature of golf's building program are number of courses adjacent to airports — Sterling, Colo., Fairmount CC in Chatham County, N. J., Santa Maria, Calif., and Santa Barbara, Calif., are among the airport golf course municipal and private projects.

The course and motel and the course and real estate development tieups are accounting for a large percentage of new course projects ... Some amazing examples of what course construction, on land absolutely not worth a damn for almost any other purpose, has done to establish attractive residential character and high value of adjacent property ... Bad feature of this is that the courses will be heavily burdened by taxes on values that the courses create.

North Hills GC building two 18's to design of Robert Trent Jones at Manhasset, N.Y., because high taxes forced it to sell its property at Douglaston which will be vacated by club at end of year ... Douglaston property sale financed North Hill's new $2 1/2 million plant ... Cedarbrook CC (Philadelphia dist.) to build $1 1/2 million course and clubhouse on 210 acres near Blue Bell, Montgomery County, Pa., with money from sale of its 150-acre present club site where a $50 million apartment, hotel and shopping center will be built ... Sale was delayed by members' disagreement over ownership of club ...
Members agreed on plan recommended by a court.

Tommy Murphy, goes from asst. job with Jack Grout at Scioto CC, Columbus, O., to pro job at Lancaster (Pa.) CC succeeding A. B. (Abe) Thorn who retires after 26 years there ... Murphy also has been asst. to Willie Goggin, Elmer Voight and Herman Barron ... Murphy's teaching under Grout, especially in Junior program which had Jack Nicklaus as a pupil, was big factor in getting him the Lancaster job ... Bus tours to courses in Texas and Mexico following USGA Green Section meeting in New York and GCSA conference in Houston gave 25 New England supts. a broad view of golf maintenance and a prolonged business study program.

Walnut trees at Modesto (Calif.) Dryden Park many course were auctioned to furniture manufacturers ... New Orleans talking about putting an Open tournament on Ladies PGA program in fall ... The women pros are steadily increasing their draw ... Smart golf and smart grooming have extended gallery interest and earning capacity of the girls ... Winter of heavy snows, quick melting saw considerable play by snowbird golfers at middle Atlantic and

An 80 inch roller with full oscillation for all sections. Water ballast 12-gauge welded steel rollers with rounded edges. Sand and dirt resistant alemite equipped hardwood bearings. Filled weight 600 lbs. per section. Frame of heavy welded steel construction complete with ball type hitch and mud scrapers. Painted rust resistant dark green.

2-SECTION ROLLER

Also, we have five-section rollers

TWO HEADS ARE BETTER THAN ONE!

EVEN WHEN IT COMES TO SHARPENING LAWN MOWERS

IF IT ISN'T A MODERN IT CAN'T BE MODERN

COMPLETE AS SHOWN IN PHOTO, SHARPS UP TO 53” WITH DUAL GRINDING HEADS AND ELEVATOR, COMPLETE $550.00

NEW MODERN PROFESSIONAL SHARPENER HAS TWO GRINDING HEADS AND A GRINDING AREA OF 53 INCHES.

The latest Modern Professional Lawn Mower Sharpener is one of three models that can handle the smallest or the largest gang or fairway mower made. The Professional Model has two grinding heads. One enables you to sharpen the reels and the other head the bed knife. You can do all this without taking the mower off the sharpener, or dismantling it. In addition you can also adjust the mower while it is in the sharpener. 14 major improvements have been made in this unit to help you set-up faster and save you time on the actual sharpening. Send for complete specifications today.

EDGE SAND TRAPS WITH MODERN'S POWER DRIVE EDGER

Here's the easy way to edge your sand traps, flower beds, sprinkler heads and driveways. The Modern Power Drive Edger is a heavy duty rugged machine that can do a full day's work day in and day out.

You'll save money, time and come up with a better job. (If you have a Modern Edger the Power DRIVE Attachment can be purchased separately.)

ADJUSTABLE GEAR-DRIVEN, ROTARY POP-UP SPRINKLERS

Buckner's exclusive adjustable feature gives full water utilization for best irrigation. Designed for automatic or manual systems. Three full and three part circle sizes.

NEW SUPER CAPACITY ONE-PIECE QUICK-COUPLING VALVE

reduces water hammer

Extra large water capacity gives better flow control of water while less pressure loss means a more efficient system. Only fool-proof, one-piece valve on the market.

SPEED REGULATOR

gives best single line turf irrigation

Another Buckner exclusive for tailor-made water coverage. Fingertip adjustment puts more water where sprinklers do not overlap, less where they do.

See Your Local Buckner Dealer
He's listed in the yellow pages.

northeastern courses . . . Very little winter golf on midwestern courses . . . Players never have gone for it.

Judging by pro, advertising agency and TV station requests that Golfdom and Golfing have received for program material, the coming spring and summer will have record number of TV shows featuring local pros . . . Some of these local shows will be out on the air just before or after the nationwide TV competitions . . . One of the healthy things about current golf boom is the many “do it yourself” courses in small towns . . . For instance, the Fabens, Tex., club of which the Fabens Independent says, “The course has developed from a sand and mesquite area to a fine recreation spot.”

Kissing Camels GC to open 18 holes this spring at Garden of Gods near Colorado Springs . . . Press Maxwell designed and built it for A. G. Hill of Dallas . . . It's surrounded by residential sites . . . One of the most beautiful course sites in the U. S. and Maxwell has done a great work of golf art on it . . . This is one of those achievements that can be marred by a landscaping plan that doesn't look entirely natural.

New Britain, Conn., honors Stanley GC pro, Stan Pisk, as the city's “Sports Man of the Year.” . . . Pisk, 17 years pro at Stanley, was combat hero in World War II . . . Jack Emich of Baltimore CC new pres., Maryland State GA . . . At the Maryland
