SOLUBLE FERTILIZER

Peters 30-10-10 soluble fertilizer is manufactured by the Robert B. Peters Co., Inc. leading soil fertility control specialists and consultants to the florist greenhouse trade, from the results of over 80,000 soil tests done by them over the past 15 year period. Peters 30-10-10 soluble is a completely sequestered (no-precipitate, no residue) type fertilizer that contains ALL REQUIRED TRACE ELEMENTS in a chelated (completely available) form. It is compatible with all commonly used spray materials and is most effectively used to supplement the regular preventive spray program to obtain controlled fertilization. NOW, THEREFORE, before the taking of any testimony and without trial or adjudication of any issue of fact or law herein, and upon consent of the plaintiff and each defendant, it is hereby

ORDERED, ADJUDGED, and DECREED as follows:

I. This Court has jurisdiction of the subject matter of this action and of the parties hereto. (A) To fix, establish, maintain, or enforce prices or other terms or conditions for the sale or resale of any shaft or golf club to third persons; provided that after the expiration of five years following the entry of this Final Judgment each defendant may, acting independently, and not in concert with one another or with any other person, exercise such lawful rights, if any, as each may have under the so-called Miller-Tydings Act with respect to golf clubs sold by it;

VI. (A) Defendant True Temper is enjoined and re-
strained from directly or indirectly:

(1) Fixing, suggesting, or influencing or attempting to fix, suggest, or influence the price or prices (including resale prices), terms or conditions upon which any golf club or shaft may or shall be sold by any other club manufacturer, jobber, or dealer.

(2) Hindering, restricting, limiting or preventing, or attempting to hinder, restrict, limit or prevent any other person from (a) manufacturing and selling any golf club or shaft or golf club for or to any third person or class of persons, or (b) purchasing any shaft or golf club from any manufacturer thereof;

(4) Giving, or offering to give, to any club manufacturer in the United States, in connection with any sale of standard shafts, any price, rebate, or other allowance, except such as (a) are lawful under applicable laws of the United States relating to price discrimination, (b) shall have been published generally to the trade, and (c) shall be available to all purchasers upon the published terms and conditions; provided, however, that in any suit or proceeding hereafter instituted by the plaintiff against defendant True Temper, in which the plaintiff shall have established a prima facie case that defendant True Temper has violated this section, defendant True Temper may rebut such prima facie case by showing that the difference in price, discount, rebate, or other allowance, term or condition of sale was (i) lawful under the applicable laws of the United States relating to the meeting of competitors, and (ii) shall be available to all purchasers.

(5) Entering into any contract, agreement, understanding, plan, or program with any club manufacturer whereby defendant True Temper or any other person may be induced or compelled, or in any manner, attempting to coerce, compel, or otherwise require, any golf club manufacturer in the United States to enter into any contract or agreement obligating such golf club manufacturer to purchase all or any designated portion or percentage of its requirements of shafts from any defendant club manufacturer, or (b) limit or restrict its production of shafts to special shafts to any other club manufacturer, or (c) the person or persons to whom defendant True Temper sells, has sold or will sell any standard shaft;

(B) Defendant True Temper is ordered and directed to sell standard shafts to any club manufacturer in the United States which makes application to defendant True Temper, upon its usual and normal trade terms and conditions, including credit requirements; provided, however, that such subject to a refusal to sell any shaft (other than special shafts) to any other club manufacturer, or (b) limit or restrict its production of shafts to special shafts to any other manufacturer;

(1) If at any one time defendant True Temper manufactures or sells special shafts for or to three or more of the defendant club manufacturers, then, upon the request of any other club manufacturer in the United States and the submission by such manufacturer of a firm order in writing for a minimum of 15,000 special shafts of one grade for woods, or a minimum of 15,000 special shafts of one grade for irons, defendant True Temper may manufacture special shafts for such club manufacturer upon True Temper's normal and usual manufacturing and trade terms and conditions and to schedule the manufacture or production of such special shafts as is pursuant to such order in accordance with its normal and usual scheduling procedures, without any discrimination whatsoever against any non-defendant club manufacturer, and without offering or affording to any defendant club manufacturer, any preference or priority over a non-defendant club manufacturer; provided, however, that True Temper may, in good faith reflect in the prices at which such special shafts are sold any differences in the cost of manufacture, sale, or delivery of such special shafts.

At any time after five (5) years from the date of entry of this Decree, defendant True Temper may petition the Court to be relieved of this Section VI(C) for or appropriate modification thereof, and such relief shall be granted upon a showing by defendant True Temper that the relief incorporated in this Section VI(C) is (i) not then necessary or appropriate and (ii) that substantial and effective competition exists in the manufacture and sale of special shafts.

In any suit or proceeding which, at any time, may hereafter be brought or instituted by the plaintiff or a non-defendant club manufacturer, it is made, offered, or given in good faith by defendant True Temper in order to meet an equally low price, discount, rebate, advertising or other allowance, or term or condition of sale, offered, or given by a competitor;

(VII) The defendant club manufacturers are each individually enjoined and restrained from directly or indirectly:

(A) Coercing, compelling, or otherwise seeking to require or induce dealers or jobbers to observe or adhere to such defendant's suggested resale prices for golf clubs manufactured by defendant; provided that each defendant club manufacturer may disseminate to its jobbers or dealers suggested resale prices on golf clubs of its own manufacture if each separate document or paper, or the first inside page of each separate document or paper, purporting to contain suggested resale prices bears a clear statement, in bold type, on the face thereof, or on such page, to the effect that the prices therein contained are suggested prices only, and are not binding upon any person;

A golf club manufacturer may individually and independently elect to sell particular grades or types of golf clubs to particular customers or categories of customers, provided such golf clubs bear the brand name or names of the selling defendant or the purchaser;

Fairway Top Dressing Machine

What? You say that's the West Point Grasslan Aerifier? So it is. But it is a lot more than that. A top dressing machine, for example. A machine that removes and deposits on fairway turf from 6 to 12 tons of soil per acre, depending upon the size Spoons used. Think what this means in money! At a minimum of $10 a ton for buying, screening and spreading top soil, that's $60 to $120 per acre SAVED!!!

Think, too, of the Grasslan as a FAIRWAY LEVELING MACHINE . . . because it is built to hit the high spots so that it can level out turf areas and not settle in the furrows and make them deeper. ALL THIS, plus exclusive cultivating action, make the Grasslan the machine for you to use on your fairways this fall!
