A Reliable Source of Supply Since 1920

. . . A circular letter from the PGA says "You can't win by using the abbreviation, 'pro', which some think is "deroga-
tory," . . . The implication of reprisals is considered by amused sports writers as unbefitting to pros or professionals in golf, but nothing to worry the newspaper pros who must fit "pro" into tight column space . . . No complaints from amateurs yet on "pro-am" . . .

GOLFDOM explored this subject some
time ago among experts who are proud to be
called pros in newspaper business and was.JPanel asked not to bother them about any pro golfer with an inferiority
complex. The sportswriters added they had
trouble enough getting space for club pros
without being told how to use that space . . . Some sportswriters asked if they were
ordered by the PGA to use "professional"
instead of "pro", and were they also ex-
pected to use "Professional Golfers' Asso-
ciation" instead of PGA? . . . Oh, well, as
Shakespeare said "A rose by any other
name is still a rose."

CBS will telecast the last two days of
the PGA Championship at Aronimink, which is to be played July 19-22 . . . The
Saturday show will start at 5 p.m., EDT, and on Sunday at 4:30 . . . PGA Cham-

RECOMMENDED
by golf course engineers and
superintendents for its
- performance
- dependability
- versatility
- maintenance

Look at the record. Las Vegas finest — the Tropi-
cana and Stardust golf courses are relying on com-
pletely automatic Rain Bird Rotor Pop-Up systems to
keep them in top condition year 'round. Many country
clubs are replacing present equipment with the Nelson-
Rain Bird line. All across the country, it's the same
story. Definitely, the trend in golf course sprinkling
equipment is to Nelson-Rain Bird — the fastest grow-
ing line of its kind in the world! Don't follow the
leader — be a leader: specify Nelson-Rain Bird!

Mechanization! Savings! ROYER

A Royer Shredder blends, mixes and aerates your materials. It removes sticks, stones and other refuse you don’t want and delivers the fluffed, textured mix you must have to build or renovate your turf—at a real savings in cost.

There is no need to tie-up your manpower when processing your soil mixes. Now you can mechanize this operation with a shredder that fits your budget.

Bulletin 8-61 gives all the facts on Royer’s mechanically fed shredders. Send for a copy. It pictures and describes 24 models, with capacities up to 150 cu. yds. an hr.

Royer Shredder Model 16, with Batch Hopper. Capacity up to 20 cu. yds./hr.

“Leaders in the Science of Soil Conditioning”
TORO'S NEW ELECTRIC CADDY CART PROMISES YOU

Happier Golfers, Fewer Caddy Problems and a Profit!

Solves these four golf course problems:

1. **Golfers who want to walk, but not work.** Toro's new battery-powered "Caddymaster" is ideal for the golfer who refuses golf cars because he wants to exercise, but doesn't want to work pulling a cart.

2. **Shortage of caddies.** A life-saver when school, illness or absenteeism leaves you short of caddies. And you pocket the fee. Solves problem of off-season and odd-hours golfers.

3. **High caddy or golf car fees.** Many golfers don't want to pay $6 to $8 for a golf car or go to the expense of caddies. The "Caddymaster" at a suggested $2 a round is the answer.

4. **Snail-paced golfers.** "Caddymaster" keeps the golfer from getting tired and slowing down profits. Gently but firmly it keeps him moving. Fun for the golfer to operate, too.

**Plenty of Power.** Easily goes 18 holes before charging. Easy to charge—each battery has its own charger and timer. 110 AC current. Change to a fresh battery in 30 seconds.

Follows Golfer with a Touch of the Handle. Just push down on the handle and the battery takes over. The "Caddymaster" follows the golfer, matching his stride at any speed he sets. The more pressure on the handle, the greater the speed; the less, the slower. Highly maneuverable—inside turning radius of 11". Climbs hills easily.
Try the "Caddymaster" on your golf course for one week...

FREE!

HERE'S HOW OUR FREE, NO OBLIGATION, NO COST GOLF COURSE TRIAL WORKS.

- Use the "Caddymaster" for one week.
- Rent the "Caddymaster" to your golfers at $2.00 a round.
- At the end of one week you keep 50% of all rental fees.
- Then the Toro salesman will contact you to pick up the demonstration model. That's all there is to it.

MAIL THIS COUPON TODAY TO GET A FREE TRIAL "CADDYMMASTER" ON YOUR GOLF COURSE. Within one week your Toro distributor will reach you by phone or mail and arrange for a demonstration at a time convenient for you. Absolutely no obligation or cost. But hurry. Fill out, tear out and send in the card today. This unique offer is good for a limited time only.

Moist O' Matic's gear driven rotor pop-up turf sprinkler heads lead the field in durability, adaptability, performance and low costs. The entire gear mechanism is isolated and sealed. Even water distribution is assured by three nozzles in the pop-up head. Up to 180° diameter water coverage means low cost for new installations or conversions. 1° part circle adjustments from 40° to 320° can be made while in operation without special tools. These exclusive advantages and the rugged, compact MONITOR controller have made Moist O' Matic the turf irrigating performance leader.

GAM has awarded 283 scholarships in the last 14 years... Montour Heights CC in Coraopolis, Pa., putting $675,000 into expansion of course and new clubhouse... Course is going from 9 to 18 holes... James G. Harrison designed the addition.

Herman Woehrle, supt. at Kankakee Valley CC, Kankakee, Ill., and well known in Midwest turf circles, died on May 13... He was 59 years old... Long a member of the GCSA, Mr. Woehrle came to the U.S. from Germany in 1923 and worked at Ravisloe CC for several years before taking a position with the Illinois Grass Co.... In 1940 he got back into golf as supt. at Kankakee Valley... Survivors are Mrs. Woehrle, two daughters, and a son, Ted, supt. of Beverly CC in Chicago.

John F. Polakovic, 65, owner of Midwest CC, Hinsdale, Ill., for the last 15 years, died in June after suffering a stroke... A onetime newspaper owner, Mr. Polakovic "tried" to retire around 1947 but bought an 18-hole golf course instead... He built Midwest into a 36-hole layout, making it one of the finest semi-private clubs in the middle west... He is survived by his wife, Josephine, and two daughters... Purse for the 1963 Colonial National Invitation, a Ft. Worth, Tex., fixture, is being increased from $40,000 to $50,000... Richmond (Calif.) GC estimates that its operation expenses have been going up about four per cent a year every year for a long time... Golf course being built 18 miles west of Washington, D.C. in Fairfax County, Va., is first of five which will be constructed in 10-mile square community known as Reston... Reston itself is to be a "leisure living" area dotted with courses, lakes, parks, etc.

One of the most recent newcomers to the Ladies PGA circuit is Sherry Wheeler, 1962 graduate of Arizona State U., and formerly one of the top women collegiate players... She won the 1957 Western Junior Girls' championship, was runnerup in the 1958 DSGA Junior, winner of the Southwest Women's Am in 1960 and '61 and second place finisher in the 1959 Trans-Miss... Sherry made her pro debut in the Beaumont Women's Open and won $200 for her 11th place finish... Fourth annual Harry Haywood Memorial tourney for Calif. pros, Juniors and ladies to be played this month... Helen Lengfeld and Northern Calif. PGA are co-
THE IDEAL PUTTING SURFACE...

Thanks to VAPOR SHIELD
Improved CALO-CLOR produces a continuous, protective micro-climate that blankets turf, mat, thatch and root zone in a long-lasting vapor—keeps greens disease-free far longer with a single application.

Even after mowing or rain, CALO-CLOR regenerates its effective fungicidal Vapor Shield that continues to kill invading air-borne, rain-borne and soil-borne spores.

HOW CALO-CLOR VAPOR SHIELD WORKS—AND WORKS!
The rapidly soluble mercuric chloride compound of CALO-CLOR immediately controls turf disease . . . killing fungi instantly on contact. The residual mercurous chloride clings to the surfaces on which it is deposited and continuously produces vapor . . . the CALO-CLOR Vapor Shield. This vapor reaches in, under and around every part of the micro-climate—penetrating places on turf grass plants that droplets of ordinary "contact" solutions simply never touch. When mowing and rain remove some of the mercury, the residual quantities effectively replenish the Vapor Shield and its full disease control.
SELF-REPLENISHING
LONGER-LASTING
TURF DISEASE CONTROL

CALO-CLOR—the Micro-Pulverized Mercurial

CALO-CLOR is now micro-pulverized by an exclusive Mallinckrodt process . . . it mixes faster and more completely in the spray tank and stays in suspension. This way, the fungicidal value you put in the tank gets to the turf . . . not wastefully washed down the drain when you clean the tank. Only with CALO-CLOR do you get this full, even and longer-lasting protection for your greens.

GET VAPOR SHIELD PROTECTION FOR YOUR GREENS NOW!

CALL YOUR MALLINCKRODT TURF FUNGICIDE DISTRIBUTOR TODAY.

In less than 4 minutes... you can see the outstanding difference between micro-pulverized CALO-CLOR and the ordinary type of mercurial fungicide. Both tubes contain the same amount of fungicide, but the ordinary type settles out—in less than 4 minutes. Fungicide settled on the bottom of your spray tank never gets a chance to work on your greens! CALO-CLOR stays suspended throughout your spraying operations, assures full, even application . . . complete and long-lasting protection for your greens.
Mallinckrodt's COMPLETE Turf Fungicide Line

CALO-CLOR—This product was the first specific turf fungicide ever developed—developed by Mallinckrodt. A powerful mercurial, it controls the most serious brown patch attacks and is more effective against snow mold than any other fungicidal formulation known. It controls brown patch and dollar spot effectively at levels of 1-2 oz. in 5-10 gal. water per 1000 sq. ft. applied every 7-14 days. Controls snow mold with a single 3 oz. per 1000 sq. ft. application in late fall.

CALOCURE®—The mercurial fungicide with the extra margin of safety—even in extremely hot and humid weather. Controls brown patch and dollar spot, protects and improves color of bent grass. Used every 7-14 days at levels of 1-2 oz. in 5-10 gal. water per 1000 sq. ft.

KROMAD®—The first and foremost broad-spectrum turf fungicide. This combination of ingredients is more effective on a wide range of diseases than any other single fungicide. Controls brown patch, dollar spot, pink patch, copper spot and leaf blight diseases due to Helminthosporium and Curvularia. Urea content stimulates growth; iron content produces rich green color. Complete control with 2 oz. minimum in 5-10 gal. water per 1000 sq. ft. every 5-7 days.

CADMINATE®—The outstanding cadmium fungicide for control of dollar spot, copper spot and pink patch. Disperses easily in water. One-half to 1 oz. per 5-10 gal. water effectively treats 1000 sq. ft. when used only once each month.

THIRAM-75%—Controls brown patch, dollar spot and copper spot. Use 3 oz. in 5-10 gal. water per 1000 sq. ft. weekly.

PMA-10%—The standard, stable 10% solution of phenylmercuric acetate organic complex. Controls copper spot, snow mold, dollar spot, brown patch and leaf blight diseases due to Helminthosporium and Curvularia. Use ¾-1½ oz. in 5-10 gal. water per 1000 sq. ft. for summer diseases; 3 oz. for snow mold and other winter diseases.
sponsors . . . Haywood was golf editor of the San Francisco Examiner for many years.

Three of the eight girls selected to represent Britain in the Curtis Cup matches at Broadmoor CC, Colorado Springs, Colo., Aug. 17-18, are married . . . They are Mrs. Marley Spearman, Mrs. Michael Bonallack, wife of the British Amateur champion (his sister, Sally, also is on the team), and Mrs. Alastair Frearson who will not be 19 until after the matches . . . it's the youngest team ever to play in Curtis Cup matches for Britain . . . All the girls are English . . . The captain is Mrs. Frances Smith (nee Stephens) who has been on six British Curtis Cup teams.

Harry Robb, jr., pro at Milburn G&CC, Overland Park, Kan., has his uncle, Fergus Auld, from Sunderland, Eng., visiting the Robb family . . . It's Uncle Fergus' first trip here . . . Harry met him at the airport and, starting home, reached out of the car to get his parking ticket, reached out again to pay a bridge toll, stopped at a drive-in where the men were served a couple of soft drinks, stopped again while Harry posted some letters from his car at a roadside box, then visited Milburn and saw golf cars in use . . . At the end of his first day here Uncle Fergus said to Harry, "Call me a taxi, I am going to bed . . . You do everything by driving in this country."

Oak Glen CC, R. O. Burns, pres., building first 9 of eventual 18 at Robinson, Ill. . . . Asbury College, Lexington, Ky., opens 9-hole course . . . Don Miller instructing students . . . Redwoods G&CC being built at Renton, Wash. . . . E. R. Head and Henry Corbly to build 9-hole course at Lebanon, Ind. . . . Building 18 for Royal Palm Beach CC to plans of Mark Mahannah . . . It's a feature of the Lefcourt Realty Corp. development at West Palm Beach, Fla.

Charles Mullin heads group building 9 for Britt (la.) Golf Assn. . . . Robert F. Floyd and others propose to build 9-hole course at Fairmont, N. C. . . . With open-
