TORO'S NEW ELECTRIC CADDY CART PROMISES YOU

Happier Golfers, Fewer Caddy Problems and a Profit!

Solves these four golf course problems:

1. **Golfers who want to walk, but not work.** Toro's new battery-powered "Caddymaster" is ideal for the golfer who refuses golf cars because he wants to exercise, but doesn't want to work pulling a cart.

2. **Shortage of caddies.** A lifesaver when school, illness or absenteeism leaves you short of caddies. And you pocket the fee. Solves problem of off-season and odd-hours golfers.

3. **High caddy or golf car fees.** Many golfers don't want to pay $6 to $8 for a golf car or go to the expense of caddies. The "Caddymaster" at a suggested $2 a round is the answer.

4. **Snail-paced golfers.** "Caddymaster" keeps the golfer from getting tired and slowing down profits. Gently but firmly it keeps him moving. Fun for the golfer to operate, too.

Plenty of Power. Easily goes 18 holes before charging. Easy to charge — each battery has its own charger and timer. 110 AC current. Change to a fresh battery in 30 seconds.

Follows Golfer with a Touch of the Handle. Just push down on the handle and the battery takes over. The "Caddymaster" follows the golfer, matching his stride at any speed he sets. The more pressure on the handle, the greater the speed; the less, the slower. Highly maneuverable — inside turning radius of 11'. Climbs hills easily.
Try the "Caddymaster" on your golf course for one week...

**TILE-LIKE RAMUC*POOL ENAMEL**

steps up attendance... makes maintenance costs dive!

Ramuc Enamel's tile-like finish and fade-resistant colors are proved attendance boosters. "We specify Ramuc Enamel for swimmer appeal, beauty, easy cleaning, long wear," says City of Austin, Texas' Joe Prowse, Jr. (Austin Recreation Department). The Lake Club of Wilton, Connecticut, ("The Executives' Club") reports: "Ramuc retains its color and glossiness remarkably well."

Thousands of managers of other commercial and public pools echo the same sentiments. Ramuc Pool Enamel saves money, because it keeps a pool attractive and cuts down on upkeep. The beautiful tile-like finish discourages the build-up of dirt and algae. It's easier to clean. Pastel colors promote safety by increasing underwater visibility.

Send us your pool's dimensions, tell whether it's metal, concrete or plaster, and the type of paint now on pool. On receipt, we'll send, free, color chart, 32-page Handbook on Painting Pools, and specific advice on your pool.

Keep your eye on his wallet

That bulge in his hip pocket is what pays your rent. And it's the performance of the Super Maxfli he's playing that makes him reach for that wallet to buy more.

The satisfaction that golfers get from playing a Super Maxfli comes straight from this ball's four key features:

DISTANCE. No ball gives a golfer greater distance than the Super Maxfli. Regularly conducted tests prove that there is no longer ball.

ACCURACY. No ball plays more accurately off every club because no golf ball is built to more exacting standards of manufacturing precision.

CONSISTENCY. No ball delivers more consistent performance than the Super Maxfli. Every Super Maxfli is constructed and tested within exceedingly narrow limits of internal compression. Every Super Maxfli plays outstandingly the same!

WHITENESS. No ball has a tougher or longer-lasting white finish! Chemically bonded to the ball itself, the Super Maxfli's resilient white armor stays pro-shop white hole after hole.

The biggest advertising campaign in Maxfli history is pre-selling this ball to millions of golfers just like yours. Keep well-stocked with the Super Maxfli.
