diana business and Senior golf, said that members expect the pro to know all the answers and, although it’s impossible to please everyone, he should give it the professional try.

“Agree with the members — cheerfully say ‘yes’ and gently add a ‘but’ that will leave the way open for a diplomatic presentation of the facts,” Johnson advised. He said that unless a pro is clean and neat, dressed in good taste and has an attractive appearance he has no place at a good private club or a semi-private course. He said the pro is supposed to be Exhibit A of good manners, good sportsmanship, good stock and good salesman-ship in the pro shop and elsewhere around the club.

In Johnson’s judgment a number of pro shops miss serving members because there aren’t enough range of sizes and good assortment of merchandise are lacking. He gave a good tip to car manufacturers in remarking that he thought some cars are designed to give bags unduly severe wear. He also said that shop storage racks cause more damage than they should in some instances.

Johnson in pointing out that the pro is held responsible for everything that happens in his dept., even to cleaning the clubs, said, “It doesn’t take intelligence to clean golf clubs, but I’m surprised how many careless jobs of cleaning are done. The pro is blamed — and he should be if he doesn’t check on cleaning and every other small job around the shop,” Johnson noted.

**Honor Caddie Bill Sponsor**

Morton H. Fetteroff, Jr., co-sponsor of a bill in the Pennsylvania state legislature to reduce the minimum age for caddies from 14 to 12, will be honored by the Philadelphia PGA for “an outstanding contribution to golf” at its annual show in the Sheraton Hotel on April 11. The bill was signed into law by Governor David Lawrence and became effective last Sept. 1. It permits 12 and 13-year-old boys to carry one golf bag for 18 holes a day.
Two types of ORANGEBURG Brand plastic pipe—SP and ABS—give you a choice of modern pipings for golf-course irrigation:

Orangeburg SP is a flexible polyethylene pipe so tough it's guaranteed and bonded for 20 years for cold water service! It won't split or pinhole, rot, rust or corrode. It resists creep, kinking, abrasion, chemicals, high pressures and temperatures. Quickly cut with a hacksaw, it is easy to handle and lay, and so light a man can sling a 300 foot coil on his shoulders. A variety of fittings adapt it to any type piping arrangement. Shipped in neatly wrapped coils, in ½" to 2" sizes.

Orangeburg ABS is a semi-rigid, competitively priced plastic pipe, light in weight, easy to handle. Its outside solvent welded joints assure uninterrupted flow at pressures up to 150 psi. Rust and corrosion-proof, it is built for years of service in rugged use. Furnished in 20' lengths, ½" to 4" sizes.

Write Dept. G for complete information and specifications.

House Committee Okays Slash in Membership Deductions

Late in February the House ways and means committee adopted a proposed ceiling on business expense account deductions from the income tax. As it turned out, the ceiling was quite a bit higher than the administration’s recommended elimination of virtually all entertainment deductions. But if the committee’s proposal is enacted into law, permitted outlays now charged off as business expense, such as for club dues, will be quite drastically slashed.

Expense Records Required

The ways and means bill provides that expenditures for recreation or entertainment must be directly related to the conduct of a business. Only the proportion of entertainment cost so related would be deductible, and in the case of club membership, it would have to be used a majority of the time for the furtherance of business. If the membership were used, for example, 55 per cent for business, it would be charged off at that rate. All expenses under the business entertainment section of the revenue code would have to be substantiated by records or other evidence.

Estimate 20 Per Cent Loss

Before the House ways and means committee took the bill under consideration, the Club Managers Assn. made a spot check across the nation to determine what loss in club membership possibly would result from the more stringent bill proposed by the administration. From the replies it received, the CMAA estimated the dropouts would run as high as 20 per cent. However, a less stringent bill such as reported to the House by the ways and means committee might result in a reduction of this figure. According to the CMAA, the greatest loss would occur among persons who have memberships in more than one club.

If the dropouts in club membership amount to 20 per cent, the CMAA pointed out, the immediate loss to the government through the excise tax attached to membership would exceed $15,000,000. In addition, club staffs would be reduced, leading to further reductions in tax revenue.

Now available to the Turf Trade. The Skibbe Applicator

“The Spreader With The Controllable Spread”

Patented exclusive control of direction and width of spread. Used and approved by a national agency, leading universities and the horticultural trade for over 15 years. Features corrosion proof bearings, hopper and a demountable spreader; leaves a sturdy trailer for year around use. Write for additional information. No obligation. Available in trailer or tractor mountings.

controls erosion  protects against seed
displacement  strengthens soil surface  ac-
tually speeds seed germination. You spend
a fortune in time and money preparing and
seeding your course. Don't let it all go down
the drain at the first high wind or heavy rain.
Insure your investment with SOIL-SET, the
new, amazingly effective and test proven
concept in spray-mulching.

SOIL-SET grows grass faster, richer, with
no washouts. It's efficiency itself. Recently,
independent testers saw two men with one
hydraulic sprayer mulch two acres of em-
bankment in 24 minutes flat. Make sure your
golf course will look as well as play like a
championship course. Find out more about
SOIL-SET. Write today for a fact-filled report
of tests and actual case histories.

Scenic Railway Transports Spring Rock Golfers

A 300-foot-long scenic railway has been installed at Spring Rock CC in Spring Valley, N.Y., to transport golf and other guests to and from the clubhouse. The device is the latest addition to the $2.5-million country club nestled in the foothills of the Ramapo Mountains, only 45 minutes from New York.

The scenic railway was conceived by managing director, Ed Kelmans, who notes with the pride of an ex-amusement park owner that the railway is the first he knows of to boast a reverse lift.

The clubhouse at Spring Rock, a central rotunda from which three wings radiate, commands the high point of the scenic, naturally unspoiled tract located at Brick Church and Hempstead Roads in Spring Valley, close to the Palisades Interstate Parkway.

Kelmans, who is a former managing director of The DeLido Hotel in Miami Beach, points out that the central Rotunda Room can be used as a convention hall. Some 500 people can gather for a banquet or 760 can attend a meeting here. All told, the facilities of Spring Rock Country Club can accommodate up to 1,200 people in the seven meeting rooms and the three banquet and ballrooms.

For the golfing set, there is a 27-hole championship course in addition to a driving range, pro shop and practice greens. There are 500 lockers for men and 300 for the women.
does all your spraying jobs

Keep fairways weed-free—greens strong and healthy. A versatile Myers sprayer gives you fast application—keeps your course open to the golfers. Converts quickly and easily from boom to gun operation. Available in a wide range of models, with capacities from 10 to 20 GPM.

Special corrosion resistant finish. All Myers sprayer tanks are double protected with “Fire-Cured” Epoxy coating—lasts years longer.

Myers The F. E. Myers & Bro. Co.
ASHLAND, OHIO KITCHENER, ONTARIO
since 1933 at the clubs. Jehlen jolted some
bearers with the comment that taxes had
doubled since 1933, indicating, possibly
that the government had done better
than golf club management in braking
the cost climb. The reference was shock-
ing in view of the notorious waste of
most government operations.

Show Them The Picture
Curtailment of non-essential expenses,
studies of operating economies and the
probability of increased inflation fees,
dues and other charges are an urgent
need in golf business, Jehlen stated. In
view of continued demand for superior
facilities and service at clubs, the prob-
lem of management probably is how to
spend money to save money, the Baltusrol
mgr. said. He recommends distribution
of the club operating report to all dept.
heads, comparing it with last year's re-
port and with the budget. Department
heads and club members can't be expect-
ed to contribute to the financial better-
ment of a club unless they are aware of
the financial picture.

Lynn A. Smith, former green chmn.,
Annandale GC, and chmn. of the Southern Calif. GA course cost analysis com-
mittee, in his paper on green committee
principles of organization, pointed out
that if the standard of the course falls
off, revenue in every other dept. of the
club falls off. Yet, he said, there rarely
is cooperation between the green com-
mittee and other committees of a club.

Two Man Operation
The green committee basically is a
two-man operation — the chmn. and
the supt. — Smith said. Nevertheless the
chmn. ought to have an understudy on
the committee. He recommended that the
supt. attend every meeting of the green
committee. He suggested that three copies
of committee meeting reports be made:
one for the chmn. and two for the supt.
One of these can be used by the supt.
to make his report of action or comment
on green committee orders or recom-
mendations.

Smith said that the supt. is presumed
to be skilled in the art of course manage-
ment. If he isn't also skilled in the busi-
ness of course management he is a fail-

tor bucket fed models).
A golf course irrigation system designer from Ohio and New York reports:

“Permanence and freedom from corrosion make Transite ideal for golf course irrigation systems.”

Walter R. Hennessey, The Skinner Irrigation Company, Troy, Ohio

“In designing hundreds of irrigation systems for well-known golf courses in both the East and Midwest, we have found Transite to be the ideal pipe. Its quick, easy assembly and adaptability to course terrain provide important installation savings.

“Transite’s exceptionally high water-carrying capacity, corrosion resistance and permanence, reduce the long-range operating costs of a system. Maintenance is virtually eliminated for there are no contributing elements in this asbestos-cement pipe to clog sprinkler heads. Transite is indeed a pipe that brings many economies to both our company and our customers.”

For details on Transite® Irrigation Pipe, write to Johns-Manville, Box 362, GO-3, N. Y. 16, N. Y. In Canada: Port Credit, Ont. Cable: Johnmanvil.

March, 1962
ure. His failure may be the fault of the chmn. who is presumed to be skilled in a business sense.

Smith cited numerous figures from the Southern California GA (1709 W. 8th st., L. A., 17) 1960 course maintenance costs report. He said the continuing rise in costs must be better controlled. The increase in Southern California course labor costs was four per cent in 1959-60. Two of the 20 clubs reporting did not increase supt. salaries. No reference was made to the relation of supt. salary increases to increase in over-all course labor costs.

Bring Supt. Into Act
Smith, Wm. Chapin, USGA green section chmn., John G. Clock, retiring pres., USGA, Harry Easterly, jr. and Allen M. Oakley, members of the green section committee, indicated in their remarks that they suspect a reason for preventable increases in costs of maintenance is the failure of the chmn. to take supts. "into the act" and give them the benefit of their broader business experience.

Personnel Management: James G. Holmes, Carl Bretzlaff and James E. Thomas went into the practical problems of getting the course workmen trained and realizing their responsibilities. Holmes noted that a smart chmn. takes the supt. and his key men and their families on a party at least once a year so they'll all be aware that they are part of a team. Bretzlaff observed that clubs often throw away money changing green chmn. The chairman's familiarity with the supt.'s personality and abilities and his confidence in the supt. establish the basis of the efficiently managed course, said the veteran Bretzlaff. He also said that management policies varied but grass and money told the final story. He remarked that the policy of Andy Bertoni, supt., Meadowlake CC (Detroit dist.) was primarily paternalistic and that of Clarence White, supt., Orchard Lake CC (Detroit dist.) was one of training in versatility so that every good man can handle his own and other jobs well. Bertoni and White both have fine staffs, so it seems to add up to getting inside the minds of their employees.

Green Committee Service: Harry Easterly, Jr., said he thinks the supt. should be a golfer not only because play improves his relationship with the chmn., pro and members, but because the supt.'s golf can reveal what the golfer is up against.
