Nelson Named Orangeburg Sales Engineer in Syracuse District

Orangeburg Manufacturing Co., a division of the Flintkote Co., has named Warren J. Nelson sales engineer of its Syracuse, N. Y. district. Nelson was previously city engineer for the city of Chariton, Ia. and at one time was employed by the N.Y. state dept. of public works. He is a member of several engineering societies. He was graduated in 1955 from the Polytechnic Institute of Brooklyn with a degree in civil engineering.

Greenlife Markets Two New Pine Bark Products

Two new products, a soil conditioner and mulch, are featured in the pine bark products of Greenlife Products Co., a subsidiary of Chesapeake Corp., West Point, Va. Both utilize the naturally protective and insulative qualities of the pine bark itself. The finely ground soil conditioner is said to be excellent for topdressing. The mulch is said to hold vital moisture through hot and dry seasons, dispersing it steadily and evenly.

Walker Manufacturing Adds Power Truck to Its Line

A Power Truck has been added to the line of the Walker Manufacturing Co., Fowler, Kans. It is described as a rugged carrier that will find many uses around a course. The vehicle is only 100 inches long, is extremely maneuverable and has front wheel drive and rear wheel steering. It is powered by a 2-cylinder, air cooled Onan engine. An automatic shift transmission with torque converter action gives the Power Truck a total of nine forward speeds plus reverse. A swing-over steering column permits driving from either side. The utilized, all-steel body enables the vehicle to carry a 1,200-lb. payload.

**Carry-All Is New Addition to U. S. Royal Line**

A new addition to the U. S. Royal equipment line is the carry-all shown in the photo. It is made of U. S. premiere Naugahyde and looks like the finest leather. The material is washable and scuffs and stains don't mar its finish. The carry-all is 10 x 18 inches and has an inner base of a specially compressed hardwood covered with fabric. There is a zipper (waterproof) pocket on the side for soiled or damp clothing. The bag is available at pro shops in black, saddle tan or oxblood.

**Thompson's Commander Said to Keep Down Pressure Loss**

Thompson Sprinkler Mfg. Co., 2251 E. 7th st., Los Angeles 23, is marketing a new line of concealed pop-up rotor sprinklers for golf courses. It is known as the Commander. The sprinkler's pressure loss of 4.5 lbs. at a 15 gpm discharge is said to be the lowest in the industry. The Commander operates at 40 psi and covers an area of more than 100 feet in diameter. Only three component units make the entire line's cleaning and servicing relatively simple. Increased pop-up stem diameter is said to reduce the possibility of damage by heavy equipment. Complete facts can be obtained by writing to the company.

**Bradley Markets Aquaspreda**

The Aquaspreda Hydraulic Feeder is being produced and marketed by Clinton Kent Bradley, Mountain View, Wayne, N. J. It applies all types of fertilizers and mixtures and is easily operated by unskilled labor. On the market for 40 years, the Aquaspreda has recently been re-designed. The distributor points out that it causes little interference with play when used to treat greens.

New Concept in Styling
Claimed for Tufhorse Line

A new concept in golf bag styling has been developed for the 1964 line of Tufhorse bags, to be introduced this fall, according to Robert

Ed Rankin (l) and Bob Smith, Golf Equipment div. executives, check the Tufhorse line.

F. Smith, president of the Golf Equipment div. of Victor Comptometer Corp. The new line will be marketed in a variety of styles and colors of fine leathers and vinyls. A Kangaroo leather copy will feature the line. Tufhorse Co. was recently acquired by the Golf Equipment div. Its plant in Des Moines, la., produces more than 75,000 bags a year. Golf Equipment div. recently negotiated a 10-year contract with the PGA to market balls, clubs, bags and accessories through pro shops under the PGA brand name.

Club and PGA Officials at
Dallas in Colorful Attire

There was good showmanship and service in the way the men working on the PGA Championship were dressed. Dallas ACCC tournament committee members wore blue slacks and old gold shirts. Texas PGA members wore old gold slacks and white shirts. Graham Ross, Dallas ACCC pro, and Jack Lust of Di Fini planned the colorful outfits that identified the men who were in charge of tournament details.

**Moist O'Matic Develops Two-Speed Automatic Sprinkler Head**

The first automatic sprinkler head designed for single-row fairway watering promises substantial savings in water and labor costs for courses, according to Ed. J. Hunter, president of Moist-O'Matic, Inc., a subsidiary of Toro Manufacturing Corp., Minneapolis. The extra large two-speed head eliminates puddling or scallops by providing even distribution over overlaps and side areas of the sprinkling pattern. Like other Toro heads, this new series 660 unit has three nozzle turrets for greater efficiency. Installed flush, the heads pop up to deliver a low angle uniform spray that delivers from .29 to .41 surface inches of water per hour over areas 170 to 200 feet in diameter.
