No Kidding...

You mean to say that Colonial Gardens has built 17 golf courses in three years? (I find that a little hard to believe)

Colonial Gardens did not start its first golf course construction job until June, 1963. In the following 28 months we have grown so fast and so far that we’re a little awed by our own success. By the end of 1965 Colonial Gardens crews will have completed 17 golf courses in 7 states and have repaired or added to 15 others. It stands to reason that anyone moving that fast must be doing the right things.

If you have a golf course construction, maintenance or supply problem write or call:

W. W. ULLMAN, CONSULTANT

The gentlemen whose pictures are represented on these pages have been chosen by our golf shop customers as unquestionably the All Star Team in apparel merchandising.

A famous ad proclaims its pride in being No. 2. In their case they may have a point. Our pride is that we have always been No. 1. As a matter of fact, we were the first organization in merchandising of golf pro shops with nationally-advertised names, both golf equipment and apparel.

The merchandising of apparel, especially with nationally branded names has proven to be the No. 1 profit maker in golf shops and this new direction in adding great volume to your sales.

It took a combination of great nationally branded names shown on these pages, plus a lot of hard work by the All Star Team of these merchandising specialists. We're No. 1! We can make you No. 1 as well. These stars will be around with the 1966 line. Join the winners. Wait for him. You can join the All Star team too.
**Best uniform spreading at low maintenance cost! EZEE FLOW**

Model 111 Spinner Spreader – 2-ton capacity. Spreads granular, semi-granular or pelleted materials accurately and uniformly in patterns up to 56 feet wide! Handles all fertilizers, seed, dry chemicals, rock salt, sand, etc. Can be reduced to 6 to 8 foot wide patterns for special spreading. Patented metering device and PTO-driven auger delivers the exact amount of materials to the spinner to insure the most accurate uniform spread regardless of ground speed.

**Easy operation** — Spread rate table gives dial settings for width of spread and lbs. per acre. After the regulator dial is set for the desired spread, the operator merely opens and closes the shutter.

**Low-cost maintenance** — Rugged construction and fewer moving parts give you long, dependable service—virtually eliminate costly downtime!

Big wheels on a single axle makes maneuvering easy—gives excellent flotation and prevents ruts and “tearing.”

Special... for turfed areas

**EZEE FLOW Olympia line**

Two models (5' and 8' wide) with 3" port spacing and adjustable scatterboards for “no streak” turf feeding.

**PRODUCTS OF AVCO CORPORATION**

For complete information, write to EZEE FLOW Division, Department 11, 3428 North Harlem Avenue, Chicago, Illinois 60634.

Plans for Club Managers Ass’n of America national conference at Detroit’s Statler Hilton, Feb. 8-12, include an Old Timers’ luncheon Thursday, Feb. 10 prior to the Country Club Round Table. What great national publicity there’d be for the managers’ organization if some of the veterans would tell of the epic epicurean dinners that used to be served at the distinguished private clubs. Shortage of good chefs and limited gastronomic education of younger members, men and women, rather than economics, have switched too much of the business of the contemporary bon vivants from private clubs (country and city) to select restaurants where the club members are big-paying but satisfied customers.

Nobody who knows what the score really is can criticize the hotel-restaurant-club school graduates for dull character of so much club cuisine. What can be done for customers whose boundaries are steak, hamburger, hot dogs and barbecue?

Al Ciuci’s 40th year with Fresh Meadow CC, Great Neck, N. Y., celebrated by a big party at the club where the admirable Al is pro. Fresh Meadow also had parties for Al on his 25th and 40th anniversaries. Fresh Meadow was founded in 1921 and Al became its pro in 1925. Al came to Fresh Meadow from pro job at Mill River (Conn.) GC. He did much to help build the PGA. He was Long Island PGA president for 18 years, vp of the Metropolitan section and a PGA national official for years.

Joe Yuzzi, supt. Biltmore and Granada courses for the City of Coral Gables, Fla., writes a column on course maintenance for a south Florida newspaper that does a valuable job of educating golfers in what a supt. is up against. Joe explains “Heavy play makes maintenance and special jobs more difficult for the workers and can cause considerable inconvenience to the players. These are, none the less, necessary evils. Public courses must remain open under extremely adverse conditions when they Continued on page 127
Wherever golf is played...

Par Aide Utility Benches are ideal for locker room and golf course use. End frames are cast of high grade non-corrosive aluminum alloy. Wide choice of end frame colors. Seat boards are made of $1\frac{1}{2}'' \times \frac{3}{4}''$ Grade "A" treated redwood. High impact—spike resistant plastic covering on boards is optional.

Dear sirs
(writes Mr. Crawford):  
On April 10, 1962, I purchased a Tee Birdie golf cart...powered by a 7 h.p. Kohler engine...I have kept an exact log, and to date the cart has performed the following:

- Played 13,565 holes of golf.
- Which figures 5,426,000 yards (average 400 yards per hole). Uphill and down.
- Over half these holes were played with two 200-lb. men aboard.
- At $3.06 single or $6.12 double, the cart rent at our club, this comes to over $3,300.00.

- The Kohler engine has cost me $190.84 for two overhaul jobs, one reboring, one piston—and most of this was labor.
- The cart has stopped and started over 50,000 times, yet all electrical connections are still intact.
- The engine still performs like it did when it was new. It takes a hill without any slowing down, and has as much pep as ever.

I plan to replace it with another Kohler if it ever does wear out. You may use the above testimony in any manner you choose.

Thank you, Mr. Crawford. We have.
