Here's a shot-saver that belongs in every golfer's bag... put it there for top profits!

NEW "SCOTCH"® BRAND GOLF GRIP...
a remarkable product from 3M Company

"GOLF GRIP" comes in a handy spray-top can. (Takes up less space in a bag than three balls.) It can be applied to glove, bare hands, all club grips. "GOLF GRIP" helps keep a golfer's hands firmly in place on the club throughout the swing, improves his touch, inspires confidence! One application lasts for several holes.

Moisture or perspiration will not affect the holding-power of "SCOTCH" GOLF GRIP. After playing, it washes off hands easily with soap and water.

"GOLF GRIP" is packaged 12 cans per display case. Retail at 98¢. You make 64.68 on each case! This attractive counter card is packed in every case. Display "SCOTCH" GOLF GRIP in your shop... it moves out fast!

TO ORDER, write Joe Ramey, Dept. 4802, 3M Company, 2501 Hudson Road, St. Paul, Minn. 55119

He'll get you in business quick!
WHY IS THE GOLF BALL THAT GOES STRAIGHTER, FURTHER, AND PUTTS BETTER, SOLD EXCLUSIVELY BY THE GOLF PROFESSIONALS?

It is recognized by leading golf writers that the Golf Club Professional, through Junior and Ladies Clinics, promotion of tournaments, etc., is primarily responsible for the tremendous interest shown in golf today. Through his efforts, he has created more business for golf manufacturers than they had ever thought possible.

His shop is operated at a cost of approximately 20% of his gross sales. He is morally obligated to sell quality that carries a mark-up of 30 to 35 per cent after postage. He has a large investment and is dependent on this small margin of profit for his livelihood.

Yet, with all that the professional has done for them, many manufacturers in their greed for business, do everything possible to take business away from him. Should they be successful, quality of merchandise would go down and the caliber of the club professional would deteriorate. As a club member, you can not afford this, because the club professional is not only associated with you, your wife and children, but is representing your club. To the contrary, in order to continue the improvement of golf equipment and the caliber of the club professional, wise members will buy from the club professional and help educate new golfers to do the same.

The founders of American Golf Testing Corporation recognized these trends five years ago and started at that time, with the help of the finest brains in the country, the development of Super Golf Equipment to be sold exclusively by the Golf Professional.

Watch for the "GPE Award" Golf Ball — your club professional will have it soon. Test it as we have against any golf ball in the world. The large radius of gyration makes it better for all golfers — goes straighter, further, and puts better.
Now your customers can enjoy the 'Crookshank' feel on every shot, from tee to cup. For 1966 we've stocked a complete new line of irons to complement the famous 'Crookshank' woods and putters. When you sell 'Crookshank', you're selling everything that's really new in golf club design. From their shockproof GEOETIC (semi-pneumatic grips to their precisely balanced heads, 'Crookshank' golf clubs are engineered for distance and control no other clubs can offer. They're hand-crafted in England to the highest standards of prestige quality. And there's no extra charge for custom specifications. Learn all about the radically new 'Crookshank' line of engineered golf equipment. Send for Bulletin 101, illustrated at left.

Sold exclusively through golf professional shops.

GC, succeeding Glenn Teal. Downing brings Ed Moutran from Grossingers as his assistant at Englewood.

Paul Lemcke now pro at Tuckaway CC (Milwaukee dist.) Lemcke was assistant to Bill Ogden at North Shore CC (Chicago dist.) Bobby Lutz, formerly assistant to E. P. (Dumpy) Hagler at Duke University course, signed as pro by Reynold May for his new Brook Valley CC, Greenville, N. C. Sammy Kee is superintendent of the Brook Valley course which was designed by Ellis Maples.

Bibb Mfg. Co., Columbus, Ga., building a 9-hole par-3 course for its employees Country Club of Petersburg, Va., soon to begin building 18 designed by Edmund Ault Clubhouse will have "Teenagers Lounge." Bruce Carter, fishing columnist of Honolulu Advertiser says "With the opening of the new Pacific Empress golf course—first in Kona—it is a common sight to see skippers weigh their fish, secure their boats and rush to get in a fast round before darkness falls."

Florida Citrus Open inaugural at Rio Pinar CC, Orlando got off its $110,000 purse and a hefty expense nut with a profit to the sponsors. Attendance was large and galleries were scattered Orlando with about 85,000 population and a well populated trading area turned out spectators in numbers comparing favorably with National Open, Western Open and circuit events. Ernie Edwards, Rio Pinar's professional, got the affair going. Five original underwriters went for $20,000 each, then Florida Citrus Commission underwrote $50,000 Then there were more than 100 Gold Sponsors underwriting $1,000 each plus "patron" tickets for $150 each. Never have I seen another tournament in which a club pro got so much enthusiasm and cash rolling and got any better cooperation from members. Orlando Sentinel Star pub-

lisher Martin Anderson, one of the five original angels, and Sentinel Star general manager Wm. Conomos and sports editor Bob Bassine accounted for an outstanding publicity and promotion job. Sentinel's Citrus Open supplement March 13 was a model job of tournament publicity with local businessmen's cooperation. Florida Sunday Magazine supplement of the Sentinel Feb. 13 had a fine illustrated feature on Ernie Edwards, his wife and three daughters. Edwards was cover boy on that supplement.

Fred Findlay, 94, died March 9, in a Charlottesville, Va., nursing home. He was born in Scotland and was brought to the U. S. by Carter's Tested Seeds from Australia where he had been designing courses. He was architect of many American courses, 17 of them in Virginia. Among them are Farmington CC, Glenwood, Laurel and the James River course of the CC of Virginia. He was course manager of the CC of Virginia from 1935 to 1945. Until a year ago he played frequently and scored many rounds under his age in the past 20 years. He was a painter, a musician, a hunter and fisherman as well as golfer. His elder brother, Alex, coming from Scotland to work as a Nebraska cowhand introduced golf in that state, and stayed in pro golf. Alex thought Fred made a serious mistake to leave a job as bandleader in the British Army to go into the precarious golf business.

C. H. (Jim) Duncan now pro at Plant City (Fla.) G & CC. John Monitz now pro at Arthur Howard's Lancaster Hills GC, Southfield, Mich., succeeding Gene Bone who's pro at the new course Fuller brothers are opening at Pontiac, Mich. Monitz and Bone were assistants to Warren Orlick at Tam o' Shanter (Detroit dist.). Monitz has been pro at Lapeer (Mich.) CC and Petoksey (Mich.) CC. Billie M. Cox opening his Sun 'n Fun CC at Springfield, Ill., with Floyd C. Wallace, Jr., as managing director and Thomas B. Bishop as pro. Paul Wolfe now pro-manager, Pikeville CC, Continued on page 78

Scalise went to Texas A & M on a football scholarship and switched to golf.

Daniel L. Hall, Jr., moves from supt.
STICK SHIFT

THE NEW ALUMINUM-SHAFTED GOLF CLUB BY LE FIELL

This is what LeFiell has done to lead the shift to aluminum shafts with our new Titan woods and irons, the hardest-hitting "sticks" that ever smacked a golf ball:

WE PUT IN more punch by transferring weight from the shaft to the head, giving you added hitting power where it counts.

WE DESIGNED our shaft with a smooth, uniform taper to encourage a more even swing and to improve club-head control.

WE INCREASED the strength by using only pretested aerospace Alcoa® Aluminum Alloys.

WE REPLACED the "old sting" with that "just-right feel" that is characteristic of Flo Flex aluminum-shafted woods and irons.

AND WE BACK our new golf clubs with over 35 years' experience in the engineering and development of tubular components for aircraft and missiles.

For more information on the "sticks" that are leading the shift to aluminum, please write:
