ladies' rental sets. Because of the increased enthusiasm for golf by the women players, we found that we were too many times short of these rentals. This was quickly remedied by purchasing 15 additional complete sets, five each from three different manufacturers.

7) Profit and Loss — Results, here, were good. Gross profits and net profits were up. However, in order that we not become complacent, we asked our auditing and legal departments to work closer and give us some additional guidance in the areas of current depreciation and taxation methods. This has been a real eye-opener for us.

We, therefore, cannot stress enough how important we feel that this year-end examination of the past season is in planning for the next. For us, it has paid off handsomely—in bigger profits, and better service to our members.

__Management Accents__

In this day of packaged art and electronic stencils even the standard mimeograph machine can produce attractive, eye-catching messages. But you must plan ahead.

5) Inspire!—Use action verbs; good, colorful descriptive words and phrases. Avoid a static layout. Dull, uninspired headlines do not make people want to do things. Even the best writers seek new, unique ways to present their work.

The next time you begin to wonder whether the time and effort you've been putting in, trying to get the message across to the members has been worthwhile and the next time you think about packing your bag and moving on—remember this—it may be the message, not the member, that is at fault.

Take a look at your message. Are you really communicating with everyone the very best you can?

---

The Ransomes CERTES

Finest mowing tool ever built!

A child can operate the precision-built CERTES with ease

Unexcelled for golf courses and home putting greens

- 100 cuts per yard give "satin" finish to green.
- Mowing height precisely adjusted .015" at a time—down to 1/4 of an inch. No tools required.
- Width of CERTES (16") is narrow enough to avoid scalping and scuffing on undulating surfaces or turns.

Experience gathered over 134 years of lawn mower design and manufacture has culminated in this fine mowing instrument.

RANSOMES SIMS & JEFFERIES LTD
IPSWICH ENGLAND

Distributorships now being established in key areas. Adequate supplies of spare parts, as well as mowers, in stock at Warren's Chicago, New York and San Francisco area nurseries.

For specific information on the Ransomes CERTES and other special purpose mowers, write or call:

North Jersey Country Club in Wayne, North Jersey is a year round 18 Hole, Par 71 Course with 275 playing members. Course Superintendent, Dick "Red" Williams keeps the course in top-flight condition, and expects top-flight performance from his equipment. That's why he settled on Lewis Line Washers.

Club members like the fast, efficient way they clean, and appreciate their good looks and no-splash design. "Red" and his staff like the easy clean-out and large dirt trap. It makes routine cleaning a matter of minutes. When brushes need replacing, they do so on the course. No trips to the maintenance shop, just an Allan wrench, a couple of minutes time, and the job's done.

As "Red" says, "Lewis Washers do a great job. They're good looking, sturdy, and easy to service. I have no complaints whatsoever, and I don't get any from the members. What more can you expect of a washer?"

If you expect the best in washers and other tee and green equipment, you'll find it in the quality Lewis Line. The Line that's Trusted by Management . . . Praised By Players.

Nine out of ten of the nation's leading golf courses are using Buckner Sprinklers. Why? Because they know about the money, water and labor savings that are possible with a Buckner irrigation system. Buckner systems are designed for heavy duty, long lasting, low cost, low maintenance operation. Our sprinklers are engineered to provide the best effective coverage and penetration of water even in the tightest soil. Whether you use one of our underground or portable systems, you can be sure of eliminating parched areas and water waste. And our new 11 station 611-E automatic controller cuts scheduling to a simple, one-time 5 minute operation. For more facts you should know about the world's leading sprinkler systems, write for free catalog and name of nearest dealer.

**THE FINEST GREENS ARE PLANTED WITH Warren' STOLON**

Perfect even texture and color are maintained with clean, pure-strain WARREN' STOLONs. Greens planted with seed do not hold their uniformity of color and texture as well as greens planted with stolons. They are apt to develop a “patchwork” look after a few years.

Warren's TURF NURSERY
Palos Park (a Chicago suburb) (Code 312) 448-7200 • Illinois 60464

All American Engineering Co. has developed the Power Watch, a new battery charger for golf cars which has no moving parts to wear out, no timer to set, and no water evaporation to worry about.

For more information circle number 207 on card

The cost of STOLONs over the cost of seed is insignificant compared to the overall cost of the establishment of a golf course. Why be satisfied with anything less than perfect greens only obtainable from pure-strain STOLONs.
Dear Dunlop...

There's no better way to say Merry Christmas to a
golfer than by giving a personalized 12-pak of Maxfli Reds or
Greens. Dunlop's name-on-the-ball service is free
for your members again this year — with a special gift package
that's more attractive than ever. Now's the time to remind your
members to follow Santa's lead and get their
orders in early.
