Turf-Vac adds distributors

Dwarf bluegrass developed
Purdue University announced that its agricultural experiment station researchers have developed a dwarf variety of bluegrass, which grows slowly and low. Named Sodco, the bluegrass is resistant to striped smut and may be cut at three-quarters of an inch to an inch in height. It is not designed, however, to withstand heavy play or traffic and would be best used on golf course fairways. Distribution of seed has not yet been worked out, but according to Laurel Meade, general manager of the Agricultural Alumni Seed Improvement Assn., Inc., some certified seed probably would be available to homeowners for planting in 1970.

David Crystal merger
Approved in principle
The merger of David Crystal and General Mills has been approved in principle by the boards of directors of the two companies, it was announced. The terms of agreement call for David Crystal stockholders to receive .875 share of General Mills common stock for each share of David Crystal common stock outstanding. David Crystal apparel appears under brand names such as David Crystal, Haymaker, Stony Brook, Izod, Chemise Lacoste and others. The company's volume for the fiscal year ended November 30, 1968, was $29.2 million with net profits totaling $1.3 million.

AMF Voit to open plant
A 200,000-square-foot plant will be built in Hopkinsville, Ky., by W. J. Voit Rubber Corp., a subsidiary of American Machine & Foundry Company. According to Rodney C. Gott, AMF chairman and president, the new facility will cost more than $3 million and will be built on a 50-acre site, located two miles south of Hopkinsville on Highway 41. Construction is scheduled to begin in September. AMF will start a pilot operation in early 1971 with full production scheduled later that year.

Cushman opens new facility
Cushman Motors has opened a new facility in Augusta, Ga., which will be responsible for sales and service of Cushman golf cars and turf vehicles in that state, plus central and southern sections of South Carolina. The facility will also lease and rent golf cars to individuals and fleet customers. Named general manager was Ned Duncan, who previously served the company as district sales manager in Memphis, Tenn.
For Greener Greens!

LOW COST EFFICIENT Delmhorst Automatic
Irrigation Control SYSTEM

Avoids over-irrigation, under-irrigation. Saves water, power.
CONTINUOUS METERING COMBINED WITH PRESET AUTOMATIC CONTROLS

Irrigation applied according to actual soil moisture needs, as signalled by soil moisture sensors, is ideally suited for use with sprinkler systems.

Delmhorst Gypsum Blocks (shown above) are the basic moisture sensing elements. Control is accomplished by the Delmhorst Series IC-100 Automatic Irrigation Control Unit (below).

Complete free information on this low cost, efficient system is yours for the asking.

DELMHORST INSTRUMENT CO.
846 Cedar St., Boonton, N. J. 07005

Film service

Olympic Film Service, an information clearing house, offers profiles of films available in management development, salesmanship, human relations, labor relations, communications and training the disadvantaged. The profiles are full-page fact sheets which state which employee groups would benefit most from a particular film, what topics are presented, how the content is treated and exactly where the film can be obtained. Complimentary samples of the film profiles and subscription rates are available. Write: Olympic Film Service, 161 West 22nd St., New York, N.Y. 10011.

Wood Bros. purchased

Wood Brothers Mfg. Company of Oregon, Ill., has been purchased by the Hesston Corp. of Hesston, Kan. Its new name will be known as Wood Brothers, Inc., Subsidiary of Hesston Corp. A spokesman for the company said that no changes in management or operation will be made and that the business will continue to operate independently as a wholly-owned subsidiary of the parent company.

Systemic fungicide Undergoes testing

A new systemic fungicide, written up in the Elm Research Institute's Spring Bulletin, is currently being tested at the University of Wisconsin as a cure and preventive of Dutch elm disease. The proprietary chemical is a non-toxic solution, formulated by DuPont and known as Benlate. Results of previous tests conducted by the company have been sufficiently promising to warrant further testing by the university. To date, reports on Benlate's effect indicate that every reason exists for an optimistic outlook on results of final tests.

Pro Golf, Inc. formed

Two Cleveland attorneys, Oliver Thompson and Richard A. Madden, have formed an organization called Pro Golf, Inc. According to Thompson, who will serve as president, the company "will provide tailored programs of investment and insurance counseling as well as tax and real estate planning." So far, seven touring professional golfers have been recruited and have signed contracts with the new firm, to be headquartered in the National City Bank Building in downtown Cleveland. Among them is Frank Boynton. Other members include Dale Douglass, B.R. McLendon, Chuck Courtney, Richard Rhyan, Byron Comstock and Roy Pace.

Vornado acquires King Athletic Goods

Vornado, Inc., has acquired the privately-owned firm of King Athletic Goods Company, a Philadelphia-based manufacturer, importer and distributor of athletic goods. Harold Rosenbaum, founder of the sporting goods company, will continue to act as its president. Details of the transaction were not made public.

Golf course notes . . .

The south suburban section of the Pittsburgh district is torn up with the rebuilding going on at Chartiers CC, St. Clair CC and at Hidden Valley. St. Clair will end up with 27 holes, Chartiers with more long holes and Hidden Valley will go from 9 to 18 holes . . . Green Valley, a public course, has put in six power carts, joining county courses North and South Park . . . Ainslie Perrault, a Tulsa investor, buys Shamrock CC (he owned the land already) from Jimmy J. Ryan. Perrault will construct a $500,000 clubhouse and swimming pool, both to be completed by the end of summer. Walt Eiserman stays as pro . . . Two new courses in greater Oklahoma City to open in 1970: at Edmond and Midwest City. Floyd Farley is the architect.

What makes a Golfball Roll?

The gear picture tells the story.

All Ping Putters Turn This Way

The weight is below the center and lifts the ball at contact to produce OVERSPIN.

The Ball Rolls This Way

Ping Putters do not press the ball down, and thus eliminate unwanted deflections from small obstructions such as spike marks, grass clippings, depressions etc.

NEW PRODUCTS

IRA Products introduces the Tee-Matic automatic golf ball teeing machine, which allows the golfer to tee up 30 consecutive golf balls without stooping. Made of heavy-gauge steel with baked on red and yellow enamel finish, the Tee-Matic retails for $39.95.

Circle No. 102 on reader service card

Ram Golf Corp.'s top golf bag line features 11-inch round golf bags with body and trim materials of DuPont Corfam, which is water repellent, scuff and abrasion resistant, resists discoloring and cracking and is washable. Bags come in white with gold welt or bourbon with brown gator trim. Other features include five steel upright stays, double ring construction, chrome hardware, zippered vanity pocket, umbrella compartment and triple-zippered ball pocket. The 11-inch model lists for $220 with a set of four headcovers; a nine-inch model lists for $132 with headcovers.

Circle No. 101 on reader service card

Rolin Golf Company's new putter has a central balance weight which, according to the company, aids the golfer's natural stroke. The face is designed to roll the ball on impact. It has been approved by the United States Golf Assn. and is available in men's and ladies' right and left hand models. Price: $19.95.

Circle No. 103 on reader service card

Wheel Horse Products, Inc., makes a 7hp lawn ranger made of fiberglass. The 32-inch mower cuts 792 square feet a minute, according to the company. Price: $499 including mower.

Circle No. 106 on reader service card

Jacobsen Mfg. Company introduces the Rogers Aerator which can operate both in-line and on-contour. The aerator comes in two models—Model 590 with a seven-foot swath and Model 595 with a five-foot swath. Six 17-inch weighted wheels, each with nine blades, are hinged in pairs and mounted on sealed ball bearing to allow contour following and equal weight distribution. It can be used with a three-point or a universal hitch. Options include an electrically-actuated hydraulic system and transport wheels.

Circle No. 104 on reader service card

F.D. Kees Mfg. Company has improved its Kees-Kaster broadcast seed and fertilizer spreader and offers a new pull-type model. The hopper is made of Cycolac, said to be completely corrosion resistant and the tubular steel frame is now chrome plated. The new model, which offers all the features of the Kees-Kaster, is designed to be pulled behind lawn and garden tractors. A remote control is standard equipment.

Circle No. 107 on reader service card

Jacklin Seed Company produces and markets the new patent variety 0217 Fylking Kentucky bluegrass. Ten-year tests, according to the company, demonstrate that the grass has excellent tolerance for cutting at 1/2 to 3/4 inches. Characteristics of the grass are its low growth, green color, dense turf and resistance to disease. Fylking reportedly is a vigorous rhizome producer, heat, drought and traffic tolerant, resistant to stripe smut, leaf spot, stem rust and leaf rust. Technical reports on usage and tests are available.

Circle No. 105 on reader service card

IRF Products introduces the Tee-Matic automatic golf ball teeing machine, which allows the golfer to tee up 30 consecutive golf balls without stooping. Made of heavy-gauge steel with baked on red and yellow enamel finish, the Tee-Matic retails for $39.95.

Circle No. 102 on reader service card
Porto-Clubs introduces a portable set of eight clubs. Clubheads attach by a lock-joint to a True Temper shaft fitted with standardized grip. Carrying case is made of Naugahyde and has an adjustable strap and a pocket for balls and tees. The set weighs eight pounds and is available in men's and ladies' models and in colors.

Circle No. 108 on reader service card

Hi-D-Wa Corp. introduces a three-in-one pocket-size tool that can be a cleat cleaner, divot fork and clubhead groove cleaner. Made of stainless steel, the sharp prongs are encased in a plastic case and are retractable. It comes in red, green, tan and yellow and is gift packaged in a plastic case.

Circle No. 110 on reader service card

American Pulley Company has developed two golf course sprayers. Called Hardie Models 10-5 and 20-5, the sprayers are each designed for use with gun or boom. Each sprayer is equipped with a four-cycle gasoline engine and will handle any type of liquid spray material, including fertilizers, weed killers and pesticides. Both models come with 25 feet of high pressure hose and an adjustable spray gun, which can be adjusted to fine spraying or solid stream. A choice of 150-, 200- and 300-gallon capacity tanks is available with Model 10-5; Model 20-5 is available with 200- or 300-gallon tanks.

Circle No. 109 on reader service card

York Modern Corp. introduces a ripper-grader unit called Versa-Till. The unit attaches behind any tractor having a standard three-point hitch and permits grading while moving forward and backward. Working depth is adjustable and may be set for soil penetration up to eight inches.

Circle No. 111 on reader service card

J.I. Case Company introduces the CB70 Carrier Boom, which can operate with any type of concrete pump, deliver concrete 60 feet or higher and can be controlled from either the truck or the concrete placer. The unit is completely self-contained, carries 250 gallons of water on board and has a pumping capacity of 28 cubic feet a minute. The pressurized air over water system can exceed 100 pounds pressure on the concrete line for flowing out or cleaning the system.
