Distinctive motor cars. They say a lot about your club.

And Harley-Davidson gas golf cars reflect both your interest in golfers—and in sound club management.

Like other exclusive cars, Harley-Davidson 3 and 4-wheel golf cars are beautifully engineered and built with care. They have a distinctive style and character all their own.

They also feature fine car suspension, positive braking (disk brakes of course) and effortless steering. And as you’d expect, the ride is stable and comfortable, pampering golfers and fairways alike.

Quiet? Whisper-quiet. Engine sound is barely audible. And it automatically shuts off the instant you step out to play. Nothing to disturb anybody’s game.

What’s more, once you fill the fuel tank, the Harley-Davidson is set to go for at least 16 rounds. A full 288 holes. Or more.

It’s all here. Luxury car quality, quietness, reliability and expert dealer support. Plus the important options you expect from the leader. All sound reasons why Harley-Davidson gas golf cars are the best selling in the world.

And sound reasons why you should consider them for your club.

See your Harley-Davidson dealer now. He knows all about fine cars.

AMF Harley-Davidson
Milwaukee, Wisconsin 53201

Circle 119 on free information card
days. Adults may use the course alone until 3 p.m.

Juniors can earn a “preferred golfer” card, and be given a 20 percent discount on green fees, by taking a class in rules and etiquette, then passing a simple test. It takes a score of 80 to pass. About 2,000 juniors have won a “preferred” card since 1971.

Green fees are 75 cents for a regular junior, 15 and under, 60 cents for a “preferred” cardholder, $1.00 for golfers age 16-17, $2.00 for adults, and $1.35 for senior citizens. All fees include sales tax. Adult prices include 20 cents per round for capital improvements. No season tickets are sold.

Group lessons are offered by the city’s park and recreation department, under PGA professionals. About 300 juniors are taught annually.

The group clinics consist of four classes, no more than 10 youngsters per group. Content of the sessions includes:

1) Explanations of the game, course, and equipment; discussion of rules and etiquette with help of the National Golf Foundation’s Illustrated Golf Rules poster and Easy Way to Learn Golf Rules booklets.

2) Learning basics: grip, stance, full swing, chipping, and putting.

3) Practicing basics learned in lesson 2.

4) Review of game, choice of clubs for various shots, and etiquette, aided by NGF film, Courtesy on the Course, and rules test.

The course is host to several major tournaments each season. Total entry is about 1,000 players. All use handicaps. The tournaments include a 4-day stroke play and a 2-day Parent-Youth better-ball, sponsored by local firms and the Lincoln Men’s Golf Association. Green fees are complimentary to the juniors.

Course managers since 1973 have been Don and Lydia Palmer. Parks and Recreation Director Don Smith gives them credit for the excellent programs. The staff also includes six other seasonal employees for maintenance, starter, and ranger.

The Junior course took in about $32,000 revenue in 1976. Because of low rates, it is subsidized by profits from the city’s three regulation 18-hole courses.

Many city officials and private citizens were involved in starting the facility. The idea was hatched by Joyce Ayers, a Lincoln advertising executive. He visioned a course juniors could call their own because they weren’t welcome at the regular clubs, a place to get “educated” in golf.

The idea was next taken to City Hall. The mayor appointed a Junior Golf Committee to study the concept and look into methods of financing. Fortunately, the city already owned an area in Antelope Park that had once been a golf course in the 1930’s.

Private enterprise rallied to the cause. About $70,000 was raised over about 18 months, in 1964 and 1965. Construction was started in 1965. Floyd Farley, Oklahoma City, designed the nine. Harold Glissman, Omaha, was contractor. The Lincoln Home Builders contributed and built the $35,000 clubhouse, which was ready in 1966.

Weather and a sewer construction project held up the course opening until mid-1967. A dedication and golf clinic marked the occasion. The Lincoln Elks Lodge No. 80 and city firemen donated time and energy to collect used golf equipment all over the city. These clubs were cut down, regripped, and put into use for clinics and as rentals for youngsters without their own equipment.

Actual cost of the project totaled about $101,000: $62,000 for the golf course and $39,000 to build and equip the clubhouse. Cost to the city: nothing, except use of 28 acres of park.

The late James Ager, who was parks and recreation director until 1970, promoted the idea and helped raise money. When he passed away, the course was renamed as his memorial.

“Anyone concerned with building golf’s future should be working on ways of enabling youngsters in urban areas to learn golf and have a place to play.”
GCSAA 49th International Turfgrass
CONFERENCE AND SHOW

February 12-17, 1978
San Antonio, Texas

“ECONOMY THRU IDEAS” is the theme for the premier turfgrass industry conference and show, sponsored by the Golf Course Superintendents Association of America. As the only national turfgrass conference and show, this is a once-a-year opportunity for turfgrass managers, educators and industry representatives to learn about and to share the latest ideas and developments in turfgrass management.

Conference Highlights

- preconference seminars
- certification examination
- general education sessions
- special interest assemblies
- turfgrass industry show
- annual meeting and election
- golf course tour
- ladies’ program
- social events

San Antonio, Texas services and equipment. Exhibits featuring new products for the turf industry will be open February 14-16; the conference will be in session February 12-17. This is the place for you to capture dollarsaving ideas and to meet the other people from across the nation who make the turfgrass industry dynamic. See you in San Antonio in ’78.

Brochures and registration materials for GCSAA’s 49th International Turfgrass Conference and Show will be mailed to all GCSAA members October 1. Others may use the coupon below to request the materials.

Aerators Can Be Quickly Mounted To Most Any Type Vehicle

Garden Tractor
The Dedoes new Two-Drum Aerator has 72 pluggers and aerates a 25” Swath. Mounts to any 10-14-16 H.P. or Larger Garden Vehicle. Includes a self-contained hydraulic unit. If weight is needed a separate Weight Tray is available.

Utility Vehicle
Attaching the Dedoes Aerator to your utility vehicle is a simple matter. The Basic Frame Unit allows you to adapt to any equipment in a matter of minutes. Available with hinged doors and removable sides. Collects plugs internally.

Specialty Equipment
Even a vehicle built for specific use, can be used with the Dedoes aerator to give quick, neat aeration for small areas.

The complete Aerator that offers speed and quality in addition to the following:

- 3” Tine in 3/8, 1/2, or 3/4 diameter.
- Pivoting Tine gives you a clean hole.
- Hydraulic principle utilizes weight of vehicle for down pressure.
- TCA551 Model gives you close to 2” Tine spacing.

New Items Now In Production

Pointed Tine
Dedoes now has a pointed tine available for tees and greens which gives up to 3” penetration in the turf.

Separate Slicers and Spikers
Interchangeable with the tines on the Regular Dedoes drums.

Manufactured by

Dedoes Industries, Inc.

Alarm calls help on the course

Speedcall Corp. markets a Touch-Tone high-speed emergency alarm system, primarily for medical emergencies on courses frequented by elderly players. Weatherproof callboxes are mounted on stanchions at frequent intervals over the golf course, and in emergencies can be used to call for help and identify the location of the emergency. The system is already in use at the municipal golf course in Palo Alto, Calif.

Broadcaster covers 45 feet

High-flotation tires make the model 606 low-profile Broad-Caster adaptable to any type of turf, from fine bent to the roughest rough. The broadcaster applies an accurate spread pattern of 45 feet, even on the sharpest turns, with the ease of the optional rope-pull land wheel assembly, without changing the application rate. Product of Larson Machine, Inc., it's ideal for close work around greens, tees, and clubhouses.

If you won't read these 7 signals of cancer... You probably have the 8th.

1. Change in bowel or bladder habits.
2. A sore that does not heal.
3. Unusual bleeding or discharge.
4. Thickening or lump in breast or elsewhere.
5. Indigestion or difficulty in swallowing.
6. Obvious change in wart or mole.
7. Nagging cough or hoarseness.
8. A fear of cancer that can prevent you from detecting cancer at an early stage. A stage when it is highly curable. Everyone's afraid of cancer, but don't let it scare you to death.
