**We’ve Got Mail**

**LETTERS FROM THE FIELD**

**Toy Drive**
I just finished reading your recent column regarding assisting the poor (Pin High, November). I’ve been involved in local charities in the Manistee, Mich, area since I moved here in 1999. Arcadia Bluffs Golf Club does a lot for the less fortunate, but we intentionally keep it quiet. That is just our way.

However, one program that works great is at our annual employee Christmas party. All guests are asked to bring one unwrapped toy for the Toys For Tots program. This generates as many as 60 toys.

I applaud you for bringing this to the pages of your magazine.

William Shriver
COD/General Manager
Arcadia Bluffs Golf Club
Arcadia, Mich.

**More Than Money**
I just read your article (Pin High, November) about raising money for poverty, and sometimes it isn’t all about raising money. Locust Hill Country Club in Rochester, N.Y., has found a tremendous way to help the poor.

The assistant pro here, who is also a teacher in the inner city of Rochester, developed a caddie program that started with recruiting kids from the inner city at his school. He now trains 40 to 80 youngsters from the city per year to be caddies. They’re issued white golf shirts and are on the golf course of geese): Geese did return briefly the next year, staying mainly on the grass, but in fewer numbers and were more easily harassed off the site than before the fishing line was installed.

The same geese also returned at night, however, and I added an additional method that seems to have cinched the deal to scare them off. I asked my superintendent to create a “geese program” as part of our normal irrigation schedule. This program schedules heads to pop on and off on one-minute cycles on all the holes around our ponds.

The key is to schedule this program to run a little after dusk, right after the geese typically arrive. We have not seen any geese on our grass or in our ponds since we started the program, although I hear them every day on our neighboring properties.

Joe Hills
Owner
Blue Mash Golf Course
Gaithersburg, Md.

**Pop Go the Geese**
A follow-up to the “Strings Attached” article in October (the article discussed fishing line as a good and ecological way to rid golf courses of geese): Geese did return briefly the next year, staying mainly on the grass, but in fewer numbers and were more easily harassed off the site than before the fishing line was installed.

The same geese also returned at night, however, and I added an additional method that seems to have cinched the deal to scare them off. I asked my superintendent to create a “geese program” as part of our normal irrigation schedule. This program schedules heads to pop on and off on one-minute cycles on all the holes around our ponds.

The key is to schedule this program to run a little after dusk, right after the geese typically arrive. We have not seen any geese on our grass or in our ponds since we started the program, although I hear them every day on our neighboring properties.

The Standard Golf Water Purification System...

safe, pure drinking water anywhere on your course.

Make sure the only water hazards your players encounter are those that are supposed to be there. Standard Golf's Water Purification System will put an end to your drinking water worries. By purifying water at the time and place of use, the Nature Pure® purifier eliminates opportunities for microbiological contamination. Just a few pumps give your players pure, great tasting water all the time. To learn more, contact your Standard Golf Distributor or call 1-866-743-9773 and talk with a factory representative.

Don't let your cooler be a water hazard.

For toll-free express service, call 1-866-SG-EXPRESS (1-866-743-9773)

PGA Village West

In mid-November the PGA of America announced it would be developing a massive equivalent to its PGA Village in Port St. Lucie, Fla. The PGA Village at Coyote Springs, which could eventually be home to 12 golf courses, will serve as the Western winter home to golf professionals. Nicklaus Design is slated to oversee the first course. The PGA is co-developing the project with Coyote Springs Investment, an affiliate of the Wingfield Nevada Group. For details on these and other golf projects around the U.S., visit www.golfconstruction-news.com.

Did you know that 35 percent of U.S. workers admitted to calling in sick in 2004 even though they felt fine? And some did it more than once. So what excuses are your employees giving when they call off? Bettcha they don't top any of the excuses listed below, which were garnered recently from a survey by Careerbuilder.com.

Check out these alibis:
- I was sprayed by a skunk.
- I tripped over my dog and was knocked unconscious.
- My cat unplugged my alarm clock.
- I couldn't find my shoes.
- I hurt myself bowling.
- I eloped.

Reach the far corners of the earth. And the curves, the edges, the doglegs.
R

emember Big Brother from George Orwell's foreboding novel "1984?" His picture scowled from huge posters that exclaimed, "Big Brother is watching you," but he could never be seen in person. Nevertheless, the "all-powerful" and "forever-watching" Big Brother was an intimidating presence as the proles — that is, the people — went about living their lives.

Twenty years later, Big Brother is back, sort of, and in the golf industry no less. And get this: Golf course owners play the sinister part of Big Brother in the modern sequel, and superintendents are the poor proles.

The story goes that some superintendents are wary of the National Golf Course Owners Association joining their annual conference and show because now they won't be able to get away with doing some of the things they did at previous shows. These superintendents figure they won't be able to ditch a day's worth of educational sessions at the Golf Industry Show to play 18 holes or party into the wee hours of the morning at their hotel bars if their courses' owners are around.

Well, these superintendents have two choices: They can leave their golf clubs and party shoes at home, or they can each pack a pair of Nose-N-Glasses to wear in Orlando when they don't want to be recognized.

But the bottom line is this: If superintendents don't want to be seen doing things they're not supposed to be doing, then they shouldn't be doing those things in the first place.

If superintendents must play coy with their owners ... well ... that doesn't say much about their working relationships.

I know, it's probably mostly younger superintendents walking in the shadows so as not to be seen. They're wilder than the 40-somethings and have more energy to burn. But this is not about age and stamina.

This is about acting professional, foremost. It's also about having a good relationship with your owner, whether you report to him or her directly or not.

It's one thing to sneak out of the house at night when you're 16 to run with the crowd, leaving your snoozing-in-front-of-the-TV parents thinking that you're already in bed. It's another thing to trick your owner into thinking that you went to the four-hour session on Water Supply Regulations, but you really snuck off to play golf and party.

I'm not saying that superintendents shouldn't have fun at the show. It's their show, after all, and they're entitled to have a blast — and even play golf. I'm just saying they shouldn't do things on the sly.

The moral of this column is simple: If your peers are playing golf and want you to come along, you'd better ask your owner for permission to go if you think you need it. (And don't play dumb and act like you don't know if you need it.)

It's my impression that the most-admired employees of any enterprise are the ones who take the high road when dealing with their bosses and their co-workers. They don't try to hoodwink anybody, and they view communication as integral to solid working relationships. They also don't make rash assumptions, and they don't take authority into their hands.

What it comes down to, ultimately, is being truthful. When you purposely mislead the people with whom you work, you're deceiving them. And that's wrong.

Back to the Big Brother factor. What superintendent really wants his owner to watch his every move for three or four days because he doesn't have an on-the-level working relationship with him? That's not my idea of a having a good show.

That said, here's to all superintendents and owners having a good show — together.

BY LARRY AYLWARD

IT DOESN'T SAY MUCH ABOUT THEIR WORKING RELATIONSHIPS IF SUPERINTENDENTS MUST PLAY COY WITH THEIR OWNERS

Aylward, editor in chief, can be reached at 440-891-2770 or laylward@advanstar.com.
