

GCSAA to Present Highest Award to Member Superintendent

For the first time, the Golf Course Superintendents Association of America (GCSAA) will bestow its highest honor—the Old Tom Morris Award—upon a member superintendent.

Sherwood A. Moore, CGCS, 50-year GCSAA member and past president of the association, will receive the award during the closing banquet of the 61st GCSAA International Golf Course Conference and Show on Feb. 26 in Orlando, Fla. "Sherwood's a great superintendent, sure, but he's more than that," said Dave Marr, ABC Sports commentator, former PGA Tour player and friend of Moore's for 35 years. "He is the kind of person I would assume young people at...all the fine turfgrass schools would aspire to be like. Sherwood Moore is a worthy recipient of the Old Tom Morris Award."

Moore was superintendent at Winged Foot Golf Course in Mamaroneck, N.Y., from

1957-1967, then he moved to Woodway Country Club, Darien, Conn., but returned to Winged Foot, when this course was selected to host the first Senior Open in 1980. In 1984 he left to join The Captains Golf Course in Brewster, Mass. Recently retired, Moore still continues to work as a consultant at The Captains.

GCSAA established the Old Tom Morris Award in 1982 to recognize individuals who have made outstanding lifetime contributions to the game. The award is named in memory of Old Tom Morris, greenkeeper and golf professional at the Royal and Ancient Golf Club of St. Andrews, Scotland, four-time British Open champion, clubmaker, ballmaker and golf course architect.

Moore joins the host of golf luminaries who are past Old Tom Morris Award winners: Arnold Palmer, Bob Hope, Gerald Ford, Patty Berg, Robert Trent Jones Sr., Gene Sarazen and Chi Chi Rodriguez.

The Leo Feser Award, honoring the author of the best superintendent-written *Golf Course*

Management, article of the year, will be presented to Ted Horton, CGCS, director of sports and grounds at Westchester Country Club, Rye, N.Y., and Mary Medonis, assistant superintendent at Westchester. The award is named in honor of the **late Leo Feser of Minnesota**, a pioneer golf course superintendent and a charter member of GCSAA. Feser is credited with keeping the association's official publication alive during the Great Depression.....

Gerald L. Faubel, CGCS, has been nominated for the presidency of the Golf Course Superintendents Association of America (GCSAA) for 1990-91. Faubel, superintendent at Saginaw Country Club, Saginaw, Mich., currently serves as vice president. The organization's officers and directors will be elected during its annual meeting at the conference in Orlando. Vice presidential candidates are Stephen G. Cadenelli, CGCS, of the Metedeconk National Golf Club in Jackson, N.J., William R. Roberts, CGCS, of the Lochmoor Club in Grosse Pointe Woods, Mich.

Versatile Motor 180 Adds Power 3-Wheel Drive Option.

RANSOMES
BOB-CAT®

The Ransomes legend in reel mowing began more than 150 years ago, with Robert Ransome's manufacture of the world's first reel mower. Since that original great idea, Ransomes has made one improvement after another.

Take the Motor 180 as an example. It has always been one of the most versatile, compact triplex riders you can find. But now we've added a smoother, more powerful engine - the Vanguard V-twin. And the good news doesn't stop there.

We've also developed a new Motor 180 model with all of the premium features demanded by high-use operators. We call the new model the TRI5B. Its standard features include hydraulic cutter lifts and a powerful 15HP engine. And three-wheel drive is available as an option.

For superb mowing performance on golf courses, parks, athletic fields, or formal gardens, the Motor 180 is the easy choice - for lots of good reasons.

Most importantly, it produces **great-looking turf**. A wide 71-inch cut is provided by its three cutting units, two located out-front for better visibility and maneuverability. An independent cutter drive assures that proper cutting speed is maintained, even during low speed maneuvers.

Your choice of **five or seven-knife reels** for the right finish on any turf. The five-knife unit is built for general purpose mowing. It features fixed head configuration and full width roller for turf protection. Height of cut easily adjusted from 1/2" to 2 1/2".

The optional seven-knife cutting unit is designed for fine cutting applications. The floating head with full-width front and rear rollers allows the unit to closely follow ground contours. Height of cut adjustable from 1/4" to 1 3/4". Both five and seven-knife reels are 6 1/2" diameter.
