reward you with a bit of extra income.

Take for example my Nose Visor. Base ball caps are sooo blasé, and your normal full head visor can be a real nuisance, especially if you want sun on your fore head, or in some cases five head. Thus I have created the Nose Visor.

My nose seems to be very sensitive to the damage caused by the sun, yet I don’t want to give up a tanned fore head. Not only that, it is thought that wearing a hat will hasten balding, somehow.

Nose Visors are extremely useful and almost universal. They are especially if you want sun on your fore head, or in some cases five head. Thus I have created the Nose Visor.

Football stars can wear them under their helmets to prevent sunscald. Because Army Helmets lack a bill, the specialized camouflage Nose Visor has a military application. And just imagine the advertising potential when businesses begin putting their logo on the band. I am getting excited just thinking about the limitless possibilities.

But before I get too carried away I think I’ll get a patent!

Hmm, I wonder if there is room on the Lesco Truck for a display panel?
