Treasurer's Report
Panuska reported that MGCSA investment portfolio gained $5,286 for a total of $162,434. Motion made by Eckholm to move $11,995 from cash fund to Janus Capital Growth Fund.

Operating Budget
Discussion regarding operating budget for the next fiscal year. Motion made by Klatte to increase monthly meeting expense to $30. Approved. Motion by Eckholm to increase meeting expense. Approved. Motion made by Eckholm to approve operating budget as changed by previous motions. Approved.

Communications
GCSAA mailed video which gives a general overview of The GCSAA Foundation’s “Investing in the Beauty of Golf.” Letter has been written by President Tom Fischer to GCSAA nominating Jim Nicol for the GCSAA Board. Letter received from GCSAA asking for nominations for the Distinguished Service Award.

Business Office
Turtinen reported that 30 teams registered for the Turf Tournament compared to 23 last year. Discussion about future web page and server for the MGCSA.

Human Resources
Eckholm presented the results of the salary survey.

Membership
Meier reported that there were four new member applications and four requests for reclassification. All applications and requests approved.

MTGF
Brower reported on discussion with MTGF Executive Director Bob Mugaas regarding the Turfgrass Research Center proposed for Rosemount, revenue sharing with allied associations and the upcoming MTGF Golf Tournament and Expo on July 20-21 at the University of Minnesota.

Scholarship
Queensland reported that the Scholarship Scramble entry fee will be $70. Expense per person will be $33 resulting in a $37 profit for each participant. Estimated attendance is 200 players. Discussed scholarship budget for the upcoming fiscal year.

Michael Brower
MGCSA Secretary
Olson, Krahn, Larson and Femrite Win June Mixer at Benson

David Sime, host superintendent at Benson Golf Club in Benson, welcomed MGCSA members to the club for the Association's June 7 meeting. Dave had the course in fine condition along with 90 degrees and blue skies.

Craig Paskvan, Paskvan Consulting, talked to superintendents about managing soils and reading a soil analysis report.

The team of John Olson, Cushman Motor Company; Willis Krahn, Mountain Lake Golf Development; Bruce Larson, Benson Golf Club, and Cary Femrite, Turf Partners, won the mixer with a 23-under par score of 121.

Jeff Nourie, MTI Distributing Company; Terry Negen, Benson Golf Club; Brian Peterson, Southbrook Golf & Country Club, and Tim Berquam, Bergerson Caswell, finished second at 124.

There were two field events held during the golf outing. Angie Fremling won the long drive competition and Lindy Maanum won closest-to-the-pin. Both players are from Benson Golf Club. Lindy was medalist for the day with a 71. Bill McDonald, E-Z-GO, fired a 75.

Tom Wodash, Eagle Creek Golf Club, made two eagles during his round. Tom sank a 35-foot putt on the par 5 seventh hole and chipped in on 16, another par 5.

Our next meeting is the Scholarship Scramble at Izaty's Golf & Yacht Club on July 12.

THE WINNING GROUP was, from left to right, Willis Krahn, John Olson, Bruce Larson and Cary Femrite. Their 23-under-par score of 121 was good for first place.

John Harris Joins MTI Distributing

MTI Distributing has announced the addition of John Harris to its commercial and irrigation products sales team.

Butch Greeninger, Director of Sales for MTI said, "John's 18 years experience as the superintendent at Lafayette Club has given him a clear understanding of the needs of today's professional turf manager. This understanding is valuable to our providing continued customer satisfaction to the professional turf management industry."

John joined MTI on June 7, 1999. He will be responsible for inside sales support. John will work with Terry Olmem to serve customers in North Central and Northeast Minnesota and Northwest Wisconsin. John may be reached at (612) 475-2200, ext. 103 or 1-800-492-9972.

North Star Turf Supply Adds Staff Members

North Star Turf announces the addition of key personnel in the areas of sales and service.

Tom Fuller has joined the sales staff and will be located in the St. Paul office. Tom will assist the selling efforts of all North Star Turf Supply sales personnel by providing internal sales and administrative support. Tom comes to NSTS from Rush Creek Golf Club where he served as the club's golf course superintendent.

Jay Munson has been promoted to technical sales representative as of April 26. Jay will manage a territory including northern and northeastern Minnesota after spending the 1998 season managing the company's supply truck.

Also, joining NSTS's Service Department this spring are Al Johnson and Andy O'Connell. Both joined the Service Department's staff of technicians and will provide much welcomed support.

Another who joined the Service Department is Greg Johnson. Greg will serve as NSTS's Service Manager, overseeing the day-to-day operation of the department. This enables Jim Newton, the company's interim service manager, to fill the role of Customer Service Support Manager. Newton's new responsibilities will include providing in-field technical and demonstration support. He will also supervise Johnson with managing the company's service department.

Finally, Faith Windmeier rejoins the staff of NSTS's Parts Department. She will work with Terri Anderson in serving customer's parts related needs. Windmeier replaces Steve Good, who recently accepted a support position within the Service Department.

Dan Miller, President of North Star Turf Supply, expressed excitement with the new hires. "As the turf market continues to change, so must North Star," he explains. "The changes we have experienced and the new staff additions, reflect continued growth within the golf and turf markets and our desire to improve our level of customer service."

MGCSA Membership Chairman
Here’s a Hole-by-Hole View of Heritage Links Golf Club

(Editor’s Note: Following is a hole-by-hole preview of what to expect when playing Heritage Links Golf Club.)

1 351 Yards Par 4
A good par 4 opening hole. Ideal tee shot is left side of the fairway between fairway bunker and 150-yard marker. Stay away from long or right on your second shot.

2 555 Yards Par 5
The first of three par 5s. There are three hidden bunkers on the right side of this fairway. Left center of fairway is a good play. Use the right hand tower for direction on the second shot. A pond runs down the left side of the fairway and covers the area of 80 yards and in.

3 434 Yards Par 4
A great par 4. A tee shot in the direction of the 150-yard marker is a good play. Beware on the second shot of the marsh on the right side of the fairway. Take your par and run!

4 165 Yards Par 3
This par 3 is exactly what you see! A bunker short, a marsh long. Remember when figuring your yardage that you are teeing off from an elevated tee.

5 544 Yards Par 5
The second of the par 5s is a long one. Be sure to aim your tee shot at the left bunker for an optimal second shot. Anything left on your drive will not hurt you, right may sting a bit with a hidden pond at the corner. Whether you’re laying up or going for it on your second shot, the right tower is the target. Beware of the marsh protecting the left side of the green.

6 360 Yards Par 4
Any tee shot left will not hurt you. The second shot requires a precision play to a peninsula green. The only bail out spot on the approach shot is left. Long, right or short is a watery grave.

7 203 Yards Par 3
This par 3 requires a great long iron or fairway metal. The only obstacle, other than distance, is a bunker on the left side of the green.

8 355 Yards Par 4
A very tricky tee shot! The best play is to hit whatever club can get you to the 150-yard marker. This way your ball will not find the creek and the trees will not affect your approach shot as much. The second shot is uphill so pick your club accordingly.

9 387 Yards Par 4
Ideal drive is between the left fairway bunker and the 150-yard marker. There is a second fairway bunker protecting the right side of the fairway along with a marsh for any drive 250 yards or longer. The green starts from back to front, so any approach long is very difficult.

10 305 Yards Par 4
The tee shot here sets up the entire hole. The prudent play is any club that can get you to 120 yards from the green. To carry the creek on your tee shot requires a carry of 250 yards. The green is very elevated so play accordingly when choosing your club on the approach shot.

11 176 Yards Par 3
A great par 3. Elevated tee to a clover-shaped green. Water protects the left side, so only bail out spot is short and left. Word of caution — watch the wind. It can cause havoc with your ball.

(Continued on Page 26)
Heritage Links—
(Continued from Page 25)

12 399 Yards Par 4
This par 4 will test every shot you make on the hole. A tee shot in the direction of the right, white tee marker is your best play. Out-of-bounds cuts in quickly on the left. The water on your tee ball is approximately 280 yards away. Your approach shot over the water will also have to deal with two greenside bunkers and an extremely narrow green.

13 256 Yards Par 4
Risk/reward at its finest. A tricky par 4. The landing area is approximately 180 yards from the tee. A small bunker protects the right side. Big hitters can hit the green but a deep bunker in front, trees on the right, and a large drop off to the left may lead you to the more prudent play.

14 133 Yards Par 3
A very “testy” short par 3. Shot selection is crucial. Remember,
you are standing on an elevated tee and you are sheltered from the effects of the wind. Left and long are disastrous. The only bail out spot is short and right.

15 373 Yards Par 4
Hole number 15 has out of bounds on the left and fairway bunkers protecting the left side of the fairway. Any tee shot right will not hurt you. The approach shot is downhill to a green protected by a marsh in front and a steep bank long. Be aware that your approach shot will play a little shorter because it is downhill.

16 553 Yards Par 5
A very demanding par 5. There are out-of-bounds to the left and a marsh to the right for big hitters. The ideal position is in line with the tower in the distance. The lay up area on this hole has two bunkers protecting the left side and a large marsh to the right. The marsh covers the area from 100 yards and in. Big hitters may reach this green in two, but a big number awaits any missed shots.

17 476 Yards Par 4
This picturesque par 4 is best played with any club that can get you to the 150-yard marker on your tee shot. The marsh can be carried with a drive of 240 yards or more but it does leave you a tricky second shot from a steep slope. The approach shot to this very deep green requires good club selection. The green from front to back can be as much as a full club difference.

18 395 Yards Par 4
As tough a finishing hole as you will find anywhere. Two ponds protect the landing area for your tee shot. The pond on the left begins at 216 yards from the tee. The pond on the right begins at 225 yards from the tee. Favor the right side of the fairway for the ideal approach shot. This shot will require a long distance club to an elevated and deep green. The elevation on this hole may lead you to choose an extra club.

Outstanding control of dollar spot, brown patch and pythium. Your best manager of summer stress complex.

26 • HOLE NOTES JULY 1999
Finding the right products for disease prevention and control just got easier with the introduction of Spectro™ from Cleary Chemical.

Spectro is based on a physical combination of Daconil Weather Stik® and 3336™ fungicides—two of the best formulations for disease control on the market today. Cleary has removed the guesswork from tank mixing by creating Spectro, a 90% WDG. Make no mistake, there is no other product with this unique formulation.

Field research demonstrates that Spectro's contact and systemic action provides one of the widest spectrum of disease control available. Effective against Brown Patch, Dollar Spot, Anthracnose and Gray Leaf Spot, Spectro performs with a lower cost per use. All this plus less plant stress than DMI's during the heat of the season.

Choose a proven winner with outstanding results that won't break your budget.

Spectro—the Clear Choice for summer turfgrass disease control.

John Deere
180 Walk-behind Greens Mower

Built as tight as its cutting width.

• A powerful, 4.0-hp engine powers the 180 while isolation mounts and lateral bracing help reduce vibration.
• External differential drive on the 1870 splits power to both traction rolls — for exceptionally straight tracking and easy turning.
• The standard John Deere-manufactured 11-bladed reel on the 180 helps deliver an exceptional quality-of-cut.
• Operator-presence safety bail fits smoothly against the handlebar.
• Dual aluminum traction rolls on the 180 are smooth to provide a more consistent surface. They combine to cover the entire length of the bedknife.
• Both the 180’s machine-grooved and machine-smooth front rollers are cut from solid bar stock to deliver more strength and better mowing performance.
• Grass catcher designed to maximize clipping retention, stays securely in place and is easy to remove and install.
