Correspondence

Dear Craig:

Received the August copy of the Mid Atlantic Newsletter and as always it’s like mail from home. To my enjoyment was the headline caption, “Angie Wins G.C.S.A.A. outstanding Service Award.” I know of no person more deserving for this award than Angie; his record speaks for itself. He is “Super”.

One of Angie’s promotions for the Maryland Turfgrass Association was the bumper sticker, “Up Your Grass”. I purchased one from Angie and placed it on my vehicle and the bumper sticker has really been a conversation piece at this tourist resort in Myrtle Beach. Everyone wants to know where to buy one.

I really think this original could be a project of the Mid Atlantic, to copyright and commercialize on the Angie origination as a source of revenue, toward scholarships and turf projects.

Again, congratulations to you, Craig, for the fine public relations job and to Bill Emerson for the column he wrote, to one of the most dedicated, “Turf managers”, on the course and off the course, a guy named, “Angie”.

Sincerely,

Bill Mooney

Dear Craig,

Enclosed find my change of address, we have finally moved into our new home, which is lovely.

I always look forward to the Newsletter, to keep abreast of the goings on back in Humidity country. We have had 0.2” rainfall this year and with a high humidity so far of 19 makes it ideal weather to grow grass if you are fortunate enough to have good water, which we are gifted as all the irrigation water comes from springs that feed into the pond which leaves the water clear as glass.

There is 2, 18 hole courses, a nine hole Mini and a 18 hole under construction and should be ready for play by November. In fact that job is open and had been put out on the Referral from Headquarters.

My best to all and look forward to seeing you all in Portland.

Sincerely,

James T. Cantrell
