President's Message

Our fifteenth annual Superintendent-Professional Tournament is now history, congratulations to Bob Orazi and John Haines of Hunt Valley Country Club, the winners of the Clare Emery Trophy. Mother Nature didn’t co-operate, but we’re used to that aren’t we? We all finished after a brief rain delay and had an enjoyable social hour and dinner with our partners in the Golf Business. Thanks again to Chestnut Ridge and our host Mark Bertoldi.

Our June Meeting will feature a different format, after a morning meeting we will have lunch and then have a shotgun start for our golf. We’re trying this at the request of our host James Kelley and the Green Hill Yacht and Country Club, let’s show them we care with a big turn out. I’m sure that we’ll see a lot of our friends from the Eastern Shore there. Try the different format and get home early or stay and eat some crabs and enjoy some of that great shore hospitality.

The problem of accurately predicting how many of our members and guests will attend our meetings and play golf continues to plague us. When we have to guess the attendance we have situations that cost the Association money and misunderstandings with our hosts. Please remember to call in your reservation to the office. Thanks!

Lee Dieter, President

June Meeting . . .

Greenhill and Bald Eagles

If you’re a wildlife lover, strap your binoculars onto your golf bag when setting out for the June 9th meeting. Jim Kelley, our host for the June meeting at Greenhill Yacht & Country Club advises that the course is abundant with wildlife and it’s not uncommon to catch a glimpse of a Bald Eagle or Osprey along the river and marsh areas.

Located on the scenic Wicomico River seven miles west of Salisbury, Maryland, Greenhill is a par 72 course measuring 6511 yards from the white tees and 6798 from the blues. Although predominantly flat, the course does offer some rolling terrain interspersed with eight ponds and a series of ditches and waterways that lead down to the Wicomico River.

Arriving at Greenhill in 1982 after graduating from the University of Maryland Institute of Applied Agriculture, Jim assumed the superintendency in 1985. Originally from northern California and the state of Washington, Jim settled in Maryland in the early 70’s and he and his wife have a 20 month old son. Prior experience includes Columbia Country Club and Maryland Golf and Country Club. Living on the Wicomico River, bird-watching, needless to say, is a favorite diversion along with canoeing, fishing and hiking.

The greens at Greenhill Yacht & Country Club are primarily bentgrass and are small in size, They are cut at 3/16” four to five times a week and receive 5 lbs/n per year. The Bluegrass/Bermuda teens are cut at 3/4” three times a week and fed 3.5 lbs/n annually. The fairways, comprised of Bermuda/Poa receive 4 lbs/n each year and are cut at 5/8” three times each week. As mentioned above, the area is abundant with wildlife. Coupled with its peaceful serenity, we should enjoy a relaxing but interesting day of golf.

Greenhill was originally a 9 hole course built in the 1920’s by Lou White’s father. Lou followed in his Dad’s footsteps. Lou retired in 1985 after 20 years service. It is interesting to note that some old time records from Greenhill show that the going rate for a superintendent in the early 30’s was 12½ cents an hour. That’s right — $.12½/hour! An additional 9 holes were added in 1956 by then superintendent Russ Kerns.

Golf Results . . . April

Our April 14 meeting at Redgate GC in Rockville was a resounding success. 44 players — 27 superintendents and 17 guests — enjoyed the weather and a good game. Results were: Low gross — Nick Vance with a 77; 2nd gross — Bob Orazi, 78; 3rd gross — Tom Regan, 80. Low net — Steve Potter, 69; 2nd net — John Tutich, 74; 3rd net — Grant Pensinger, 74.

Guest Categories: Low gross — Jack Montacalvo, 77; 2nd gross — Herb Carter, 82; Low net — Greg Bayor, 68; 2nd net — Jack Hewitt, 74.
**JUNE MEETING**  
(Continued from page 1)

The day’s events begin at 11 a.m. with our meeting being held in the River Room. A buffet style lunch, $10, follows at 12 noon. Golf is at 1 p.m. with a shotgun start. Note that carts are $7/person. After play there will be a short reception in the River Room with drinks and snacks. Gift certificates will be available for awards. Dress for the day will be golf attire. While towels will be provided, lockers are not available. A quick introduction of Jim’s colleagues are: Assistant Superintendent, Lee Harcum and Golf Professional David Althaus.

For those who would like to stay in the area and enjoy dinner before heading back, Jim Kelley has taken the liberty of recommending several options: The “Red Roost” is all you can eat style and features crabs, chicken, ribs, etc. When you leave the course turn left and follow red and white signs to Red Roost. “Whiskers and Wife” is a country restaurant specializing in cajun style cooking. Turn right on Rt. 352 when leaving the course. Take a left onto Rt. 349. Whiskers & Wife can be found on the right seven miles down the road.

We will thank Jim and Greenhill in advance for hosting our June Meeting and remind everyone to make your reservations in advance. Call (301) 381-0030. Enjoy yourself and remember the binoculars!

**DIRECTIONS:** From the Chesapeake Bay Bridge: take U.S. Rt. 50 to Salisbury, Md. Upon reaching Salisbury, turn right at the first red light (Rt. 349). Drive 6.7 miles and turn left on Rt. 352. Golf course is 1 mile further, on the left.

**DRAINS**  
by Lester Tanner, CGCS

I believe it is difficult for many of us to write an article for our Newsletter since we feel we have little to offer others. Our members already have much knowledge, ability and experience. But, here is an attempt.

If a drain is properly installed, it should last for years, if not indefinitely. I have been installing drains since becoming a superintendent and all those installed correctly, still work.

The installation of drains is common sense and should only be done in a correct manner. Do not cut corners. While you have the hole open, do it properly, no matter the time and cost involved.

The first step is to determine where to run it. Obviously, look for a downhill slope where it can exit from the ground. This is the ideal situation. Dig the bottom trench starting at where the problem is deep enough to put in 2" of gravel in the bottom, the 4" perforated tile, and gravel all around it with at least 2" on top. The trench should always have a downhill slope. Use 2" wash gravel, and dig the trench with a backhoe. Ditchwitch trenchers will work, but you must be more meticulous since it is more likely the sides will cave in when working around the trench and it is more difficult to see your slope. The soil taken out of the trench should be put in a dump truck and hauled off. If good, stockpile it; if not, take it somewhere that it can be most useful as fill. It is best to get it out of the area since it can create a mess just piling up around the trench and cleaning it up later. You will always have excess dirt to take away.

After you have dug your trench, dress it up with some hand work. After making certain that you have slope all the way to the exit, back the dump truck perpendicular to the trench and tilt the bed a little at a time, putting a little gravel in certain spots, instead of 1 spot, to minimize hand work. Then make a slight trench in the gravel and place the drain pipe in it, assuring proper slope of pipe. Next, get in and fill the hole with 2" of gravel so it covers the drain. Care must be taken while covering the pipe to prevent shifting and twisting. After you have put in the gravel, put in an impermeable barrier over the ground where you don’t want drainage. An example is when you exit a sand trap between the bunker and drain exit. After you put in a barrier, such as tarpaper, fill up that section of the hole with good topsoil and other sod or seed and mulch.

When running a drain from a problem area in a bunker, put a layer of Spundan over the gravel and then cover with sand. Sometimes, I’ve put the sand directly over the gravel and so far it continues to work. In an area other than a bunker situation, put in drain tops that allow water direct access to the gravel. Every once in a while you will have to clear away debris and grown grass to keep them open.

Drains made with a backhoe are larger than a trencher and work better since they also act as one long sump to help water infiltration.

When one comes across an area where there is no fall, make a sump — a hole as deep as possible with the backhoe. Fill with gravel, insert the drain tile at proper grade to enable the drain to empty into the sump. Continue filling with gravel until full. Although not the ideal, it is an alternative. I have installed sumps in bunkers and fairways where I can’t run a drain with proper slope and they have proven effective. Good draining!
ON THE TEE...

Congratulations to Jeff Granger on his new position. Moving to North Carolina, Jeff will assume his duties as Superintendent at Pinehurst, grooming #2 course into their transition of Bentgrass greens. Jeff will supervise the resodding of Bentgrass during the summer months while monitoring the appearance of the #6 course. Pinehurst has great plans for their courses and under the watchful eyes of someone called “Peacock,” they should succeed. Our best go with you and your family. Write and give us the scoop.

What’s a Tar-heel?

A friendly welcome is extended to Marty Nadenichke. Marty assumed the duties at Burning Tree Club on May 11th. Word has it he will be converting two fairways over to bentgrass as an experiment toward judging the feasibility of the grass for total renovation. Sounds good to me. Hope Tee to Green, Co. is listening.

A little history of the Tar-heel:

The Tar鲱els were a group of North Carolina athletes who took part in various intercollegiate sports. They were known for their competitive spirit and dedication to their schools. The Tar-heel is a symbol of this tradition and is often associated with North Carolina. The Tar-heel is the state bird of North Carolina.

The best in the business and should get the job is passing judgment on those candidates you don’t know. It’s a gross disservice to the industry as a whole and void of the responsibility you seek to teach.

Every ordinary Joe knows the tenant that power corrupts and absolute power corrupts absolutely. Such powerful decisions made without regard to the responsibilities they entail could easily corrupt the profession and industry. It could also provide a class full of students interested in who you now and not what you know, not to mention all those little red apples for the teacher.

The MAAGCS River cruise June 6 is nearing, with departure set for 6:30 p.m. from Pier 4 (6th & Water St., S.W., Wash.). That the cruise was sold out almost immediately indicates everyone is planning on a fun evening of dancing and dining, and not necessarily in that order. A word of caution to those of us who habitually run late — if you’re not going to make it on time, bring your swimsuit and flippers, no sliding in unnoticed this time!

---

SUPT/PRO TOURNERY

The pressure was on and talk was cheap at Chestnut Ridge CC as Superintendent’s and Golf Pro’s competed for the 5th Clare Emery trophy. The tournament proved exciting and course a good test of skills. For who couldn’t make it or didn’t catch all of the final results because they were still reliving that one shot, here’s the run down.

Best Ball:

1st — Bob Orazi and John Haines, 65; Hunt Valley GC
2nd — Scott Wagner and Luther Showaker, 66; Leisure World of Md.
3rd — Tom Regan and Jim Folks, 66; Bethesda CC
4th — Scott Robinson and Russ Rose, 67;
5th — Ken Ingram and Jeff Zachman, 67; Columbia CC
6th — Ed Porterfield and Mike Winn, 68; Evergreen CC
7th — Mark Bertoldi and Larry Headd, 68; Chestnut Ridge GC
8th — Bob Jenkins and Rick Miller, 68; Carper’s Valley GC
9th — Walter Montross and Quinn Sullivan, 68; Springfield G&CC
10th — Lou Rudinski and Bob Fretwell, 69; Eisenhower GC
11th — Steve Cohoon and Mark Guttenberg, 69; Penderbrook GC

Closest to the Hole:

Tom Regan, Bethesda CC
Barry Gilbert, Bowie G&CC
Bob Miller, Suburban Club
Ed Porterfield, Evergreen GC

Longest Drive:

Superintendents — Scott “Boomin” Wagner, Leisure World
Professionals — Jeff Zachman, Columbia CC

---

PFAFFLIN IN JUNE

by Steve Cohoon

The hot, humid summer weather is fast approaching and our courses will soon be turning various shades of purple and white, from wilt and disease. The members will be complaining that the sprinklers are always on the hole they’re playing and the crew will be saying that not only is it too hot to work, but they’re underpaid too.

The entire golf operation is under the most stress it will face all year so why should you be any different. The stress is so great that you threaten to get out of the business, drink heavily, or just go crazy (or any combination of the three). You need to find a way to minimize or at least deal with all of this stress — that’s where Jim Pfafflin steps in.

Jim returns to address our association as guest speaker this month. He will hopefully point out how we can better manage our own personal affairs which ultimately affect stress factors positively or negatively to everything around us — family, friends, work and even ourselves. Jim offers fresh ideas, rethinks old ones and all are very useful in our lives. So, leave all of your stresses at the course for a day and come hear how to deal with the pressure of summer. It may make your summer a more enjoyable one.
